MPH Dual & Executive Programs in Public Health Practice
School of Public Health

2020-2021
STUDENT GUIDEBOOK
Welcome to the University of Minnesota School of Public Health!

This guidebook contains important information about SPH and University policies and resources that enable students to better navigate their academic journey and get the most out of their student experience. By combining this Guidebook with your program-specific Student Guidebook you will have a comprehensive reference that will answer most questions about academics, the University environment, policies, expectations, and the many resources available to students. Please note that this guidebook augments and is not a substitute for other sources of information. There are many additional resources available to graduate students that are listed throughout this handbook.

Refer to your Guidebook to ensure that you are informed of the essentials of student life but remember that your University-assigned student email account is the School’s official means of communication. You are responsible for managing all information sent via the student email account.

All advising faculty have access to this guidebook. Please work with your adviser when making important decisions relating to your program.

Links to many policies and procedures can be found by clicking on the “Current Students” link at sph.umn.edu/current/resources/.

The University of Minnesota is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, color, creed, religion, national origin, sex, age, marital status, disability, public assistance status, veteran status, or sexual orientation.

This publication can be made available in alternative formats for people with disabilities. Direct requests to the Student Services Center, School of Public Health, MMC 819 Mayo, 420 Delaware Street SE, Minneapolis, MN 55455; (612)626-3500 or (800)774-8636.

1. **THE SCHOOL OF PUBLIC HEALTH**

1.1 **ABOUT THE SCHOOL**

Through excellence in education, research, and community engagement, the University of Minnesota School of Public Health advances health, from scientific discovery to public impact, by enhancing population health and preventing disease in the United States and globally.

In 1874, Charles Hewitt, the secretary of the Minnesota State Board of Health, began offering a class at the University of Minnesota covering topics in personal and community hygiene, epidemic diseases, and physiology. In the following decades, various University departments created programs in public health disciplines, such as biostatistics, environmental health, and epidemiology. In 1944, the University brought all these activities together under one roof and created the School of Public Health.

Today, our school ranks ninth in the nation, serves more than 1,600 students to help meet the increasing demand for a public health workforce. We were the first in the country to grant a master’s degree in hospital administration, establish a doctoral program in epidemiology, and, in 1950, launch a graduate program in maternal and child health.

At the School of Public Health, we leave no stone unturned as we tackle the world’s most critical public health problems. Our faculty, staff, and students bring innovative thinking and concrete action to emerging and persistent challenges, including structural racism, gun violence, our expanding aging population, and a changing climate. As one of the premier schools of public health in the world, we prepare some of the most influential leaders in the field, and provide the knowledge health departments, communities, and policymakers need to make the best decisions about population health.

**Proven Impact — our research has led to:**
- Creation of the mathematical models that help guide Minnesota’s response to COVID-19
- Minnesota’s first report card for quality of life in nursing homes
- Fully accessible buildings for people with disabilities
- The first comprehensive definition of childhood abuse and neglect
- Restrictions of tanning bed use by people 18 years of age and younger
- Legislation to cover doula care through Medicaid
- Life-saving treatment protocols for HIV-positive people
- A nationwide model to track foodborne illness outbreaks
- A standard for reading ECGs in a universally acceptable way
- A model to predict probability of complications from radiation therapy.

**School of Public Health Faculty List**

For a listing of faculty, research and specialties refer to [https://directory.sph.umn.edu/](https://directory.sph.umn.edu/).

**Health Sciences**

The Health Sciences is home to six colleges and schools (including the School of Public Health), more than 150 centers and institutes, hospitals and clinics. About 70 percent of Minnesota’s health care providers received their training at the University of Minnesota.

The School of Public Health is one of only three schools of public health nationwide with the support structure of a health sciences education center. This means that our health professionals and students work and learn together and take a skilled systems approach to some of the top health issues facing the world today. Doctors train with pharmacists, public health workers partner with veterinarians, and nurses collaborate with dentists.

**Accreditation**

The School of Public Health is accredited by the Council on Education and Public Health (CEPH). The benefits of accreditation are [many](https://ceph.org/constituents/students/benefits-of-accreditation/). CEPH accreditation serves multiple purposes for different constituents. In general, specialized accreditation attests to the quality of an educational program that prepares for entry into a recognized profession.

- For the public, accreditation promotes the health, safety and welfare of society by ensuring competent public health professionals.
For prospective students and their parents, accreditation serves a consumer protection purpose. It provides assurance that the school or program has been evaluated and has met accepted standards established by and with the profession.

For prospective employers, it provides assurance that the curriculum covers essential skills and knowledge needed for today's jobs.

For graduates, it promotes professional mobility and enhances employment opportunities in positions that base eligibility upon graduation from an accredited school or program.

For public health workers, it involves practitioners in the establishment of standards and assures that educational requirements reflect the current training needs of the profession.

For the profession, it advances the field by promoting standards of practice and advocating rigorous preparation.

For the federal government and other public funding agencies, it serves as a basis for determining eligibility for federally funded programs and student financial aid.

For foundations and other private funding sources, it represents a highly desirable indicator of a program's quality and viability.

For the university, it provides a reliable basis for inter- and intra-institutional cooperative practices, including admissions and transfer of credit.

For the faculty and administrators, it promotes ongoing self-evaluation and continuous improvement and provides an effective system for accountability.

For the school or program, accreditation enhances its national reputation and represents peer recognition.

MPH Competencies, established and required from the Council on Education for Public Health (CEPH), can be found in Appendix A.

1.2 SCHOOL OF PUBLIC HEALTH STUDENT SERVICES CENTER

Location: Mayo Memorial Building, Room A395

Email: sph-ask@umn.edu

Office Hours: Monday – Friday, 8:00 AM - 4:30 PM

Mailing Address: Student Services Center
School of Public Health
MMC 819, Rm A395 Mayo Bldg
420 Delaware Street SE
Minneapolis, MN 55455-0381

Telephone: (612) 626-3500 or (800) 774-8636
Fax: (612) 624-4498

Email: sph-ask@umn.edu

School of Public Health Student Services Center
The Student Services Center (SSC) is a school-wide office that assists students with all phases of their academic journey. The SSC staff works closely with each academic division and program to administer school-wide services and policies.

The Student Services Center is dedicated to serving a diverse community of future and current SPH students by enhancing the student experience, supporting the achievement of educational and career goals, and empowering future public health leaders.

We coordinate many functions including:
- Student Organization Support
- Diversity, Equity & Inclusion
- Career & Professional Education
- Mental Health Advocacy
- SPH Scholarships
- Registration
- Degree Clearance
- Applications and Admissions
- Applied Practice Experience/Criminal Background Checks
- Commencement
- SPH Apparel Sale

Meet the staff and learn about the services provided at the SSC by clicking here.

Career and Professional Development
The Career and Professional Development Center offers a variety of services and resources to assist you in your efforts to pursue advanced education and to locate and apply for professional positions. Our Center believes that every individual has unique potential and should have the opportunity to pursue a meaningful and fulfilling career. Our goal is to facilitate the career and professional development process with you to ensure you have the confidence in conducting a competitive job search and help you maximize your career potential. We do so by offering one-on-one career coaching, programming, and online resources.
The Career and Professional Development website at www.sph.umn.edu/careers/ has many links to help you start your new career, including:

- **One-on-One Career Coaching:** You can schedule individual appointments with one of our award-winning, evidence-based career coaches, Vic Massaglia and Darren Kaltved, to discuss any career or professional development topics, from creating a top-notch resume to ideas for field experiences, interviewing, and presentation skills. Appointments are also available via video or phone. To schedule an appointment, please visit https://sphcareers.appointments.umn.edu or email sphcareers@umn.edu.

- **Jobs & Internships:** Our online job posting system includes listings for internships, graduate assistantships and fellowships, volunteer, part-time, and full-time career opportunities: https://z.umn.edu/sphjobs.

- **Career Resources:** General career-related links, guides, and tip sheets on a variety of job-search related topics: www.sph.umn.edu/careers/students/.

### 1.3 Mentor Program

Our mentor program connects public health students to public health professionals to help with career and professional development. Mentoring relationships benefit both mentors and mentees. For mentees, the program can have a key impact on future career choices. For mentors, helping the next generation of public health leaders can be rewarding and impactful.

The School of Public Health boasts the largest mentor program of any school of public health, serving approximately 400 students and mentors annually with special events and helpful resources for mentor pairs. We work to provide students with diverse professional experiences and recognize the role that mentors have in training future public health leaders.

For more information, visit https://www.sph.umn.edu/current/mentor/.

### 1.4 SPH Student SPHere

Make use of the SPH Student SPHere to relax or study with your student colleagues. All students enrolled in an SPH degree program have access to the SPH Student SPHere (Mayo A-150) via their U Card. The SPHere has the following amenities:

- **Locker Room:** Free lockers are assigned in the Student Services Center (Mayo A-395). Students are able to renew their locker each year and need only provide their own lock.

- **Kitchen Area:** Tables, chairs, microwaves, refrigerators, and a sink are all accessible in the student kitchen. As this is a shared space, students are expected to pick up after themselves and clean any mess created during personal food preparation.

- **Lounge Area:** Couches, chairs, and wireless internet all create a perfect place for students to meet, study, or simply relax.

- **Study Room:** White boards, tables, chairs, computers with internet connectivity, Microsoft Office, SAS and STATA software and a printer are all freely available to SPH students.

Please report any issues with computer systems, printers, trash, or other problems to sph-ask@umn.edu, or stop by Mayo A-395.

Please work together to ensure that the SPHere is a comfortable and safe place.

- Keep all areas of the SPHere clean in consideration of others.
- Please protect the security of access. Do not allow anyone to enter behind you that you do not know to be a SPH student. Never prop the door open for any reason. The student commons is for SPH students only.
- If you are aware of a breach of security or if you see something in the commons that needs repair, please report it to the SSC (A-395 Mayo) as soon as possible.
- Avoid being alone in the commons during the evening or early morning.
- If you believe you are in danger or see any improper activity in progress, call 911.

**Printing in the SPHere**

The School of Public Health (SPH) provides $100 worth of printing (1,000 pages) for each Fall and Spring semester on your U Card. This value can only be used in the SPHere computer lab (Mayo A-151) and is not valid in any other campus computer lab, including the libraries.
When you swipe your card at a print release station, UniPrint will show a balance on the screen. This balance is a combination of the print value given to you by SPH and your Gopher GOLD balance. In order to determine how much print value you have left, you need to subtract your Gopher GOLD balance from the balance shown on screen. Once the $100 SPH Print Value is exhausted, printing costs will be deducted from your Gopher GOLD account. To view your current balance and transaction history or to add value to your Gopher GOLD account online, please visit ucard.umn.edu/umtc/deposit. If you experience any printing issues or need to request a refund, please contact the lab attendant or call the SPH Student Services Center at (612) 626-3500.

1.5 APPLIED PRACTICE LEARNING AGREEMENT

All students pursuing a required Applied Practice (AP), or summer residency must complete an online learning agreement prior to beginning the experience. The online form provides a streamlined process that is comprehensive for you, your preceptors, your faculty advisor and your program coordinator. Please refer to the current student website for this and other resources related to the AP sph.umn.edu/current. Students exploring international AP opportunities need to begin the process six to eight weeks before departure and need to be aware of requirements specific to international travel.

More detailed information about AP can be found in the program portion of the guidebook.

1.6 MINORS

Minors
SPH students pursuing an MHA, MPH, MS, or PhD are eligible to declare a minor in other areas. For a listing of graduate level minors please visit onestop2.umn.edu/pcas/viewCatalogSearchForm.do.

A current listing of SPH-related minors and instructions for declaring can be found online www.sph.umn.edu/academics/degrees-programs/minors/.

1.7 ONLINE LEARNING AND E-LEARNING RESOURCES

Students can access their online courses, as well as support sites for hybrid and face-to-face courses at myu.umn.edu. All students taking SPH courses are welcome to enroll in the SPH E-Learning Resources course site at z.umn.edu/sphelearningresources. You will have access to a variety of resources to support you in navigating University resources, such as the Libraries and Center for Writing. You must have a university ID in order to access Canvas.

Students in online courses will receive a welcome email approximately one week before the semester begins, which will detail when you can access the course sites. If you have questions, please contact sph-elearningsupport@umn.edu.

1.8 SURVEYS

Graduate Student Experience in Research University

The Graduate Student Experience in the Research University (SERU) is the only comprehensive survey of graduate and professional students at the University of Minnesota. This survey provides a powerful way for students to tell us about what’s working well, and what not so well, in classrooms, labs, and campus life.

The University of Minnesota takes the results seriously in order to enhance programs and curricula, improve student services and policies, strengthen research and scholarship opportunities, and ensure a vibrant and supportive environment for all students.

To ensure confidentiality, gradSERU is hosted by the Social & Economic Sciences Research Center (SESRC). Neither the University of Minnesota Graduate School nor colleges/programs have access to identifiable response data. To verify eligibility, students are required to log-in to the survey using their Student ID number.

SPH Student Engagement Survey

Students are also strongly encouraged to evaluate and comment on the school and its programs through our annual SPH Student Engagement Survey. The survey covers many aspects of the student experience including field placements, career services, financing, and overall service. Students in EMHA and EPHAP will receive the Student Engagement Survey during the fall term; all other students will receive the survey during the spring term.
Career Survey
Recent graduates are required to complete the Career Survey. The survey captures important employment information, follows up on educational plans, compensation norms, and contact information. The School is required to collect this information as it relates to both accreditation standards and program improvement.

To complete the SPH Career survey go to https://umn.qualtrics.com/jfe/form/SV_doRfMjgZueRCpNP.

1.9 THE ROLES OF YOUR ADVISING TEAM

The School of Public Health provides advising that promotes collaboration among students, staff, and faculty to enhance students’ academic and professional development in the field of public health. The School’s goal is to promote educational and experiential excellence that prepares students for successful careers improving the health of populations.

Defining Advising
The School of Public Health is committed to creating and sustaining high quality advising in the following four areas:

1. Administrative Advising: Advising on course planning and scheduling, policies, procedures, and benchmarks of the degree program, SPH, and the University. Your program coordinator is your first point of contact for these questions.

2. Academic Advising: General guidance on topics related to program/major including, but not limited to, program focus (may include identifying appropriate coursework options), project selection and career planning. Students find their faculty advisors, coordinators, and career services staff helpful in answering these questions.

3. Applied Practice/Internship/Practicum Advising: Specific and targeted advising for Applied Practice, internship, and practicum development, placement, and completion. Your faculty advisor can assist you as you select the type of Applied Practice that best matches your goals.

4. Masters Project/Thesis/Plan A&B/Dissertation Advising: Specific and targeted direction on a master’s project or a PhD dissertation including, but not limited to: development, completion, and in some cases publication. Your faculty advisor will assist you in developing a direction for your project or dissertation.

Advising Expectations for Students
SPH students are expected to:

- Regularly read and respond to University email; email is the official mode of communication at the University of Minnesota.
- Review program objectives and educational documents at least once per semester, or when directed by program coordinator or program director/Director of Graduate Studies; students are responsible for knowing the requirements of the degree program.
- Actively contribute to a welcoming and supportive student climate.
- Initiate meetings with advisors at least once per semester; regularly communicate with faculty advisors and/or program coordinators about program progress.
- Respond to inquiries from faculty or staff in a timely manner.
- Behave in a professional and courteous manner; fulfill educational and advising commitments, such as appointments, project deadlines, etc.

1.10 EXPECTATIONS FOR CLASS PARTICIPATION

“Good discussion involves people trying to build on, and synthesize comments from others, and on showing appreciation for others’ contributions. It also involves inviting others to say more about what they are thinking.”

- Dr. Stephen Brookfield of St. Thomas University, Minneapolis, MN

Employers expect their employees to work effectively on teams and this has led to a competency required for an MPH degree: “Perform effectively on interprofessional teams.” Thus, a portion of your grade in class may be based on quality participation in group-based activities. We are providing the following examples* to let you know what we expect for all communications in the class. These apply to in-person or online discussions and to interactions between both students and members of the faculty and staff.

- Imagine your interactions are with colleagues in a workplace.
- Show you are interested in what another person wrote or said.
• Encourage another person to elaborate on something they have already said.
• Provide a resource (a reading, web link, video) not covered in the syllabus that adds new information/perspectives to our learning.
• Summarize conversations so far and/or suggest new directions and questions to be explored in future.
• Summarize several people’s contributions and reflect a recurring theme in the discussion.
• Comment that you found another person’s ideas interesting or useful; be specific as to why.
• Paraphrase, at least partly, a point someone has already made.
• Seek assistance from others in understanding course content.
• Offer your explanations or solutions to others seeking help in understanding course content.
• Be succinct; avoid extraneous information.
• Address the point of the discussion; stay on topic.
• Provide constructive criticism where feedback or a critique is required.
• Avoid sarcasm, particularly in an online environment where it can create confusion.
• Avoid vitriol, this can create a hostile environment and does not add information.
• Keep your communication professional and refrain from using rude or offensive language.

*We thank Dr. Brookfield of St. Thomas University, Minneapolis, for some of these tips.

1.11 COMMENCEMENT ELIGIBILITY

Students enrolled in MPH, MHA, or MS programs are eligible to participate in the May Commencement Ceremony if they are on track to complete course credit requirements by the end of the spring or summer semester or have completed the necessary course credit requirements the previous summer or fall semester.

Exceptions may be granted on an individual basis per review by the program coordinator and program director. To seek an exception, please contact your program coordinator.

2. THE UNIVERSITY OF MINNESOTA

2.1 U OF M BASICS

University Identification Numbers and Accounts  
umn.edu/initiate

All students and employees at the University of Minnesota are issued two unique identifiers. One is a seven digit student ID number which is sent to students in their acceptance letter, the other is an Internet ID (sometimes referred to as your "X500"). Your U of M Internet ID is the key to online services such as your University email account, Google apps, registration, library access, tuition, billing statements, and more.

Your ID number and Internet ID stay the same on all coordinate campuses and through any role changes (student to staff, staff to student, faculty to staff, etc.) and they will never be reassigned to another person. Each student attending the University of Minnesota must set up a student internet/email account by going to www.umn.edu/initiate or by calling the Technology Help Line at (612) 301-4357 (1-HELP).

Email  
gmail.umn.edu

The University provides students with an email account upon the student's matriculation to the institution. Your University email address is: [your Internet ID]@umn.edu. This account is free of charge and is active as long as you remain active as a student. The Office of Information Technology posts information on their website about end of life account policies. Please see https://z.umn.edu/5law. A University-assigned student email account is the University’s official means of communication with all students. Students are responsible for all information sent to them via their University assigned email account. Course lists, immunizations, billing statements, financial aid updates, and other important information will be sent via the U of M student email address.

The School of Public Health relies heavily on email notices to students, staff, and faculty. To keep current on upcoming events, job announcements, new course announcements, scholarships, internships, the SPH newsletter, and good opportunities, students should check their email regularly.

If a student chooses to forward the provided University email account, the student is responsible for all information, including attachments, sent to any other email account. Because of this, it is strongly recommended that students use their U of M email account and do not transfer it to a personal email account.
Duo Security
The University of Minnesota is taking meaningful action to help students, faculty, and staff safeguard themselves against cybercrime. Duo Security, or two-factor authentication, is required at the University of Minnesota Sign-in page. The Sign-in page is the University’s gateway to applications such as MyU, Gmail, Calendars, Docs, Canvas, and many other programs.

Enroll Now:
• Visit my-account.umn.edu and choose Password Management from the self-service menu on the left.
• Select reset your UMN password. Follow the instructions on the page.
• As soon as you’ve reset your password, you will be guided through the Duo enrollment process.

If you use Duo Security to sign in to University applications, you are strongly encouraged to set up back-up devices in Duo Security so that you are prepared in the event that your primary Duo device is unavailable. Learn about back up devices at [it.umn.edu/duo-use-backup-device](http://it.umn.edu/duo-use-backup-device).

As a Duo user, it is your responsibility to come prepared to sign in to applications necessary for class activities, including exams and quizzes. If you are unable to sign in, you may lose points for the class activity. Failure to bring your Duo device or a back-up is not an excused absence or a valid reason for make-up work.

Learn more about Duo Security at [https://z.umn.edu/5ktd](https://z.umn.edu/5ktd).

One Stop [onestop.umn.edu](http://onestop.umn.edu)
One Stop Student Services is a resource for how things work at the University. One Stop falls under the umbrella of Academic Support Resources (ASR), which supports many functions for the University of Minnesota system campuses and Twin Cities Graduate School and Professional Schools. ASR also includes the Office of the Registrar, the Office of Student Finance, Office of Classroom Management, ASR-IT, and Continuity and Compliance.

The One Stop website is your source for general information about registration, financial aid, tuition and billing, grades and transcripts, dates and deadlines, financial wellness, veteran’s benefits, and many other University resources.

One Stop counselors are also available to help you in-person at any of their three service centers: on the East Bank in Bruininks Hall, in the West Bank Skyway, or on the St. Paul campus in Coffey Hall. They provide walk-in services to students, no appointments necessary. You can also get your questions answered by calling or emailing One Stop. One Stop Counselors are certified financial managers and are available for confidential, one-on-one financial wellness appointments that cover a range of topics from budgeting, spending plans, credit, and much more. Call or email One Stop to learn more about this free service.

MyU [myu.umn.edu](http://myu.umn.edu)
While you can contact One Stop or visit the One Stop website to seek out information, you will use the MyU website to complete your University business. MyU is the official University of Minnesota web portal, personalized for you. It is where you’ll register for classes, manage financial aid and billing, maintain your personal info, and much more.

U Card [www.umn.edu/ucard](http://www.umn.edu/ucard)
Your U Card can give you access to campus buildings and different accounts based on your role or status at the University. Your first U Card is free and can be obtained at the U Card Office. Bring your driver’s license, state ID, or passport and be prepared to have your picture taken.

Accounts on the U Card
• Meal Plan
• Student Account
• Gopher GOLD Account
• FlexDine Account
• Library Account
• Department/College Printing
• TCF U Card Checking Account (Optional)

Additional services with your U Card
• Parking and Transportation Services (Bus & Metro Pass) - Purchase pass after you get your U Card
• Discounts
• Attendance verification card
Building Access with U Card

- Residential Halls
- Recreation and Wellness Center
- Secured Buildings

2.2 UNIVERSITY OF MINNESOTA CALENDARS

The official University Calendar can be found at onestop.umn.edu. Refer to this resource for academic calendars, drop/add deadlines, and other scheduling-related needs.

Additional calendar resources:

- School of Public Health-specific events, http://www.sph.umn.edu/events-calendar/.
- Zoom is used for remote meetings and academic instruction. To learn more about zoom function and usage visit https://z.umn.edu/5ib2.

2.3 CAMPUS SERVICES

Parking and Transportation

The University’s Parking and Transportation website has a wealth of information concerning getting to and around campus. Parking is extremely limited on campus and we encourage students to bus, bike, or walk if possible.

- **Campus Shuttle Buses:** Campus shuttle buses run at no charge between the East Bank, West Bank, and St. Paul campuses with varying routes and times. Current schedule information is posted on the above listed website as well as various locations throughout the Twin Cities campus.

- **Metro Transit and the U Pass:** Take advantage of the deeply discounted Metro Transit bus pass. U-Pass is the ultimate transit pass that provides unlimited rides 24 hours a day. It is valid on all regular bus and light-rail train routes, as well as express, local, limited-stop, or Downtown Zone routes. It may not, however, be used on some special event services. Information can be found at www.pts.umn.edu/bus/upass.

- **Parking:** Contract parking for students is sold through a lottery system each semester. Locations may vary but include spaces on the East Bank, West Bank, and St. Paul campuses. Hourly parking is available in several University public facilities. Parking rates vary depending on proximity to campus and the facility type. Visit the Parking and Transportation website, www.pts.umn.edu, or call (612) 626-PARK (7275) for more information.

The Motorist Assistance Program offers free services (unlocking vehicles, jump-starts, changing flat tires, and referral to a service station) to all customers parked in U parking facilities. Hours are Monday through Thursday from 7:00 AM to midnight, Friday from 7:00 AM to 10:00 PM. (Service is not available on weekends or official University holidays). Call (612) 626-PARK for any motorist assistance needs.

Disability parking is available in many parking facilities and metered areas. Use of these designated spaces requires a state-issued permit or license plate. For additional information, call the State of Minnesota at (651) 296-6911 or review the UMN Disability Parking content online at www.pts.umn.edu/park/disability.

Housing

The University’s Office of Housing & Residential Life is the best resource for finding housing on or near campus. Additionally, Off-Campus Living provides a variety of services and programs intended to meet the practical, social and advocacy needs of students living off campus.

Maps

Find the way to any University building.
Digital Signage
The School of Public Health has two different digital signs that provide information specific to the public health students. These can be found on the third floor of the Mayo building near the Dean’s office in Mayo A-302 and the third floor of the West Bank Office Building (WBOB).

Dining
University Dining Services offers a wide variety of dining experiences throughout the Twin Cities campus.

2.4 HEALTH AND WELL-BEING

University-Sponsored Student Health Benefit Plan
The University requires all students to have health care coverage to ensure they have access to medical care and can maintain good health, which is essential for academic success. This requirement is University-wide and not specific to the School of Public Health.

The Office of Student Health Benefits (OSHB), a unit of the Office for Student Affairs, administers health, dental, and other benefits and enrollment for all eligible University students, residents, fellows, and interns.

All students who are admitted to a degree program and registered for six or more credits per semester (or three or more credits during summer term) that count towards the automatic assessment of the Student Services Fee are required by the University of Minnesota to have health plan coverage. Students who meet both criteria are automatically enrolled in the University-sponsored Student Health Benefit Plan (SHBP). The Student Health Benefit Plan is a cost-effective, comprehensive health plan designed to meet the unique needs of students. Students may choose to waive the University-sponsored Student Health Benefit Plan by providing proof of enrollment in an alternative Eligible Health Plan. Please contact the Office of Student Health Benefits to determine your exact eligibility status.

Graduate Assistants (GA), Teaching Assistants (TA), and Research Assistants (RA) may be eligible for the Graduate Assistant Health Plan (GAHP), which is different from the standard SHBP. Please consult the OSHB for more details.

The University also requires all international students and their dependents to purchase the University-sponsored Student Health Benefit Plan unless they are eligible for a waiver. International scholars visiting the University for more than 31 days are also required to enroll in the University-sponsored Student Health Benefit Plan. Scholars who will be at the University for 31 days or less may choose not to enroll in the University-sponsored Student Health Benefit Plan, but are required to carry their own health plan coverage for the duration of their visit to the University and must meet J-1 U.S. Federal regulation requirements.

Long Term Care Disability Insurance Fee
Health Sciences students, which includes the School of Public Health, enrolled in a qualifying Health Sciences program will be automatically covered under a group Long Term Disability plan while a student. This coverage is not optional. They will see a charge for this coverage on their student account once at the beginning of each fall and spring semester. Payment of this fee for two consecutive semesters provides year around coverage until graduation from their program.

Questions and More Information
Office of Student Health Benefits
University of Minnesota
410 Church Street S.E., N323
Minneapolis, MN 55455
Phone: (612) 624-0627 or 1 (800) 232-9017
Fax: (612) 626-5183 or 1 (800) 624-9881
E-mail: umshbo@umn.edu
www.shb.umn.edu

Boynton Health
Located on the University of Minnesota Twin Cities campus, Boynton Health (BH) is a primary healthcare clinic serving University students, staff, and faculty. BH accepts clients from most health insurance plans.

Boynton provides quality, comprehensive health care services, counseling, and education, beyond the scope of most primary health care clinics:
• Primary and urgent care
• Mental health services
• Dental and eye clinics
• Pharmacy needs
• Women’s health
• Physical and massage therapy
• Health promotions such as flu shots and nutrition services

Student Mental Health Resources [mentalhealth.umn.edu]

As a student you may experience a range of issues that could result in barriers to learning such as strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating, and/or lack of motivation. These mental health concerns or stressful events may lead to diminished academic performance or reduce a student’s ability to participate in daily activities. University of Minnesota services are available to assist you with addressing these and other concerns you may be experiencing. You can learn more about the broad range of confidential mental health services available on campus via the Student Mental Health Website at http://www.mentalhealth.umn.edu.

This website helps connect students to crisis help, counseling services, support groups, and offers tips on helping others who are experiencing stressful events and/or mental health challenges.

If you or someone you know is having a mental health crisis and/or is in immediate danger, please call 911.

If the mental health crisis you are experiencing is not dangerous, but you wish to talk to someone immediately for assistance about what to do next, call or text this 24-hour helpline:

Crisis Connection
(612) 301-4673 (or from a campus phone 1-4673)

U of M Textline
Text "UMN" to 61222

SPH Mental Health Advocates
For non-urgent, confidential situations where consultation is desired, the School of Public Health also has several trained Mental Health Advocates who are available to chat about any concerns you as a student are experiencing, or you can consult with them about a colleague or classmate who you believe may need assistance or resources. This consultation can be found in the Student Services Center, Mayo A-395. Drop-in to see if an advocate is available or to make an appointment. You can also email questions to sph-ask@umn.edu with a subject of “Mental Health Advocate”, or you can call (612) 626-3500 and ask to see if an advocate is available or to make an appointment.

Smoke-free University
The University of Minnesota, Crookston, Duluth, Rochester, and Twin Cities are smoke- and tobacco-free campuses. All students, staff, faculty, and visitors are prohibited from smoking and using, selling, free distributing, and advertising tobacco products and electronic cigarettes in all facilities and on all University property.

The success of this policy will depend upon the thoughtfulness, consideration, and cooperation of everyone on campus. All members of the University community are responsible for enforcing this policy. Students, faculty, staff, and visitors who violate this policy should be reminded of the policy and asked to comply. Repeated violation of this policy may be cause for disciplinary action in accordance with applicable student or employee codes of conduct. Visitors who refuse to comply with this policy may be asked to vacate campus property.

The Aurora Center [umn.edu/aurora]
The Aurora Center for Advocacy and Education provides crisis intervention and advocacy services to victims and survivors of sexual and relationship violence, harassment, and stalking. The staff and volunteers are also available to provide prevention training and education on a variety of issues.

Lactation Spaces [lacspaces.umn.edu]
Spaces are available on campus offering private and comfortable rooms that are designed specifically for nursing mothers to pump and store breast milk. If you have questions and concerns about lactation spaces or resources, please contact Susan Warfield at warf002@umn.edu.

Recreation & Wellness Center [recwell.umn.edu]
The University Recreation and Wellness Center, commonly referred to as the RecWell, is a free resource for all students. Located on the University of Minnesota’s East Bank Campus, the facility serves between 3,000 and 5,000
patrons on an average weekday during the academic year. The Department of Recreational Sports also offers opportunities for the following activities:

- Aquatics
- Fitness
- Golf
- Intramurals
- Outdoor Recreation
- Sport Clubs
- Wellness
- Youth Programs

2.5 DIVERSITY

The University of Minnesota is committed to achieving excellence through equity and diversity. We believe that a diverse student body enhances the academic and social environment for all students and prepares students to thrive in an increasingly diverse workforce and society. Equitable access to education is critical to preparing students for the responsibilities of citizenship and civic leadership in a heterogeneous society. The University strives to provide equitable access and opportunity in its programs, facilities, and employment. The University will also establish and nurture an environment for faculty, staff, students, and visitors that actively acknowledges and values difference and is free from racism, sexism, ageism, homophobia, and other forms of prejudice, intolerance, or harassment.

The global, population-based nature of public health demands that the School of Public Health (SPH) seek and train students of all racial, ethnic, economic, and educational backgrounds. We believe such diversity enriches the learning experience and helps build excellence in public health leadership. The SPH is dedicated to providing our students with a supportive and welcoming academic experience in and out of the classroom. The student led Diversity Matters, and faculty led Health Equity Work Group organizations are designed to address and explore issues of diversity that impact both our school and society at large.

We also strive to create a community that is actively engaging in the areas of diversity and inclusion to create an excellent educational environment. The SPH defines inclusion as all-embracing of the fullness of humanity. Our goal is to recognize differences, address disparities, and to help cultivate understanding within the SPH community. This sense of inclusiveness recognizes that diversity is not limited to a select number of categorical elements of a person but encompasses all of a person's attributes as well as their intersections.

The Associate Director of Equity, and Inclusion, Lauren Eldridge, works with students, staff, faculty, and community members to advance equity and diversity within the SPH. Her office is in A395-3 Mayo Memorial Building and she can be contacted at leldridg@umn.edu or at (612) 624-9970.

For more information please visit:

- University policy on Equity & Diversity: [https://z.umn.edu/5ktj](https://z.umn.edu/5ktj)
- Office for Equity and Diversity: [https://diversity.umn.edu/](https://diversity.umn.edu/)
- SPH info and resources for Diversity & Inclusion: [sph.umn.edu/about/diversity-inclusion/](sph.umn.edu/about/diversity-inclusion/)

In addition, the University has several offices across campus whose purpose is to support underrepresented students and promote diversity. The following is a list of some of those offices:

**Disability Resource Center**

[disability.umn.edu](disability.umn.edu)

Location: 108 McNamara Alumni Center, 200 Oak Street SE (East Bank)
Phone: (612) 626-1333 (Voice/TTY)

Disability Resource Center promotes access and equity for students with disabilities (e.g., physical, learning, psychiatric, sensory or systemic) and assists the University in achieving its mission to provide optimal educational opportunities for all students as well as obligations under federal and state statutes. Students are responsible for contacting Disability Services for more information or to arrange accommodations.

**Graduate School Diversity Office**

[grad.umn.edu/diversity](grad.umn.edu/diversity)

Location: 333 Johnston Hall, 101 Pleasant Street SE (East Bank)
Phone: (612) 625-6858

The Graduate School Diversity Office coordinates and leads the University’s initiatives in the recruitment, funding, retention and graduation of a diverse graduate and professional student body. The office is situated within The Graduate School and works with other units connected to diversity and multiculturalism.
The Gender and Sexuality Center for Queer and Trans Life  
Location: 46 Appleby Hall, 128 Pleasant Street SE (East Bank)  
Phone: (612) 625-0537

The Gender and Sexuality Center for Queer and Trans Life is dedicated to transforming campus climate for University of Minnesota students, staff, faculty, alum and community members by developing and supporting more inclusive understandings of gender and sexuality through education, advocacy, outreach and support.

International Student and Scholar Services  
Location: 109 Hubert H. Humphrey School, 301 19 Avenue S (West Bank)  
Phone: (612) 626-7100

International Student and Scholar Services (ISSS) is the office dedicated to serving the University's international community. Its primary mission is to assist international students and scholars in successfully accomplishing the goals that brought them to the University, by using all available resources. Services include:

- Counseling and advising
- Immigration and visa regulation advising
- Newsletters
- Career services
- Academic opportunities for university students
- Tax return information

Multicultural Center for Academic Excellence  
Location: 140 Appleby Hall, 128 Pleasant Street SE (East Bank)  
Phone: (612) 624-6386

The Multicultural Center for Academic Excellence (MCAE) is a campus-wide resource that promotes an inclusive atmosphere to foster and enrich multicultural understanding among all members of the University community. MCAE’s commitment to creating such a climate is driven by a student-first culture in which students are the highest priority.

Office of Equity and Diversity  
Location: 432 Morrill Hall, 100 Church Street SE (East Bank)  
Phone: (612) 624-0594

The mission of the Office of Equity and Diversity (OED) is to leverage the transformative power of equity and diversity to advance excellence in teaching, research and community engagement at the University of Minnesota. OED envisions a University where equity and diversity are:

1. Integrated into the work and lives of every student, faculty and staff member.
2. Recognized as core institutional values, and will inform thinking, policies and practices throughout the University.
3. Inherently intertwined with academic excellence and the development of leaders for a globally inclusive society.

Office of Equal Opportunity and Affirmative Action  
Location: 274 McNamara Alumni Center, 200 Oak Street SE (East Bank)  
Phone: (612) 624-9547

The Office of Equal Opportunity and Affirmative Action (EOAA) was founded in 1972 to ensure that all University community members uphold federal and state civil rights laws and regulations, as well as University equal opportunity policies. The EOAA Office envisions a University community that is equitable, one that values the diversity of its workforce and student body and is free from discrimination and harassment.
The Student Conflict Resolution Center (SCRC) offers informal and formal conflict resolution services to resolve students’ University-based problems and concerns. An ombudsman provides confidential, neutral, and informal options. An advocate is available to assist students in formal grievance or disciplinary proceedings.

**Women’s Center**

The Women’s Center advances equity for women students, staff, faculty, and alumni across identities. The Women’s Center increases connections for women’s success, cultivates socially responsible leaders, and advocates for organizational culture change toward excellence for all.

**Bias Response & Referral Network**

The Bias Response and Referral Network (BRRN) responds to reports of bias incidents on the Twin Cities campus. The BRRN's goal is to contribute to a campus climate that is welcoming, inclusive, and respectful for all. The BRRN provides support resources to impacted parties, promotes education and dialogue, and affirms the University's commitment to equity and diversity, free speech, and academic freedom.

### 2.6 Academic Resources

**University Libraries**

The Bio-Medical Library is located in Diehl Hall and contains materials in the areas of allied health, medicine, mortuary science, nursing, pharmacy, public health, and the basic life sciences. In addition, the library provides numerous resources and services such as library instructional classes, research workshops, reference consultations, library mediated searches, and citation clarification. The Mathematics library ([https://www.lib.umn.edu/math](https://www.lib.umn.edu/math)), located in Vincent Hall, contains materials in the area of mathematics and statistics.

Information on other University libraries and collections can be found at [www.lib.umn.edu](http://www.lib.umn.edu).

The Subject Librarian for the School of Public Health is Shanda Hunt. Please email hunt0081@umn.edu or call (612) 301-1318 to set up an appointment.

**Bookstore**

The University of Minnesota Bookstores, located in Coffman Union, sells course materials for all Public Health courses. Course materials can also be ordered online.

**Center for Educational Innovation**

The Center for Educational Innovation (CEI) was created in 2014 to strengthen instructional and academic technology collaboration and support across the University. By combining the Center for Teaching and Learning and the Office of eLearning, the CEI provides expertise that supports curricular and pedagogical innovation in campus classrooms and in online courses and programs.

**Center for Writing**

The Center for Writing provides free writing instruction for all University of Minnesota students at all stages of the writing process. In collaborative consultations, they help students develop productive writing habits and revision strategies. Assistance can be found via appointments or online.

The Online Writing Center offers online tutoring to students taking Writing-Intensive courses at the University of Minnesota. Online tutoring is conducted via the Web and consists of comments and feedback offered by experienced writing tutors.

Tutors are trained in fields such as composition, speech communication, scientific and technical communication, and rhetoric, and many of them are instructors at the university. Tutors review the writing you submit by offering comments and suggestions for improvement; however, they will comment mainly on the areas students specify.
2.7  CAMPUS SAFETY

U of M Police Department
government.umn.edu
The University of Minnesota has a full-service police department; in the event of an emergency dial 9-1-1.

University Security
government.umn.edu/home/security
University Security offers a walking and biking escort service to and from campus locations and nearby adjacent neighborhoods. This service is available at no charge to students, staff, faculty, and visitors to the University of Minnesota – Twin Cities campus. To request an escort by trained security personnel, please call (612) 624-WALK (9255) shortly before the desired departure time and walk safe.

Safe-U Emergency Notification
government.umn.edu
The safety of students, faculty, staff, and visitors is of highest priority at the University of Minnesota. A multi-pronged, collaborative effort is in place to promote on-campus safety, while working with our community partners to ensure proper resources are dedicated to making off-campus neighborhoods safe as well.

Safe-U text messaging system provides students, faculty, and staff timely emergency notifications so that our community can stay informed about critical campus safety issues.

Safe-U will be used infrequently and specifically for real emergency situations.

Campus Wide Emergency Alert System
The Campus Wide Emergency Alert System includes 21 outdoor loudspeakers mounted on poles and rooftops on the West Bank and East Bank and in St. Paul. The system will project an alert tone and vocal instructions in the event of a campus emergency.

2.8  ADDITIONAL RESOURCES

Post Office
sua.umn.edu
A full-service U.S. Post Office is located on the ground floor of Coffman Union.

Copies/Fax Machines
printing.umn.edu
A University Copy Center is located in Mayo D104 as well as other locations throughout the University.

Student Legal Service
sls.umn.edu
University Student Legal Service (USLS) provides legal representation and legal advice to eligible students on the Twin Cities campus.

3.  REGISTRATION

3.1  FULL-TIME STATUS
All SPH students need to register for at least six credits in fall and spring semester to be considered full-time. In the summer, MHA and MPH students must be registered for six credits to be considered full-time and three credits to be considered half-time.

Note: The Office of Financial Aid or external agencies may require students to be registered for more than three or six credits to be considered full-time; check with these agencies to verify their requirements.
3.2 REGISTRATION PROCESS

How-To Guides
The University of Minnesota provides how-to guides for many common procedures on the One Stop website, including registering and enrolling for classes. These guides provide visuals as well as text.

Step One
Select courses for the term with your advisor before registering. Please make an appointment at the earliest convenient time. To view available courses:

1. Log into MyU.
2. Select the My Academics tab, then the My Classes sub-tab.
3. Click on Class Search (in the Enrollment Tools section).
4. Determine search criteria; you must select your campus (Institution), term, and at least two additional criteria. Students in the School of Public Health will find the majority of their courses listed under the subject "PUBH". Note: 5000- through 8000-level courses are considered graduate-level. 1000- and 3000-level courses are for undergraduates and will not receive approval for graduate credit. Under some circumstances, with approval of the student’s academic advisor, 4000-level courses may also be applied toward a degree as long as they are taught by a member of the graduate faculty.
5. View your search results. To see only classes that are open, select Show Open Classes Only.
6. To continue searching, click New Search or Modify Search. If you hit the back button, you will lose your search results. Click the class number to see more details. You can search for a subject by entering subject code or clicking Select Subject. For more search options, expand Additional Search Criteria. When you are satisfied with your criteria, click Search.

Step Two
After selecting your courses, run through the checklist below before registering. Frustrating delays can be avoided by following these hints:

- If instructor consent is necessary for any of your selected course(s), get a permission number from the course instructor or his/her designee before registering. This number permits registration for the course through the second week of the semester; after the second week, it expires. Note that the number is specific to the student it is given to and the course requiring instructor consent. Once a number is used to register, it becomes invalid and cannot be used for another course or by another student.
- You will not be able to register if you have any holds on your University record. Notice of any hold, including the name of the department or office where it may be cleared, is available at myu.umn.edu.
- You can find your registration queue date and time on the web at myu.umn.edu.
- You will need your Internet ID (x.500) and password to register. If you have forgotten your password, call 612.301.4357 to have your password reset. You can also call this number if you have problems logging in to register.

Step Three
Register via the web at myu.umn.edu or go to One Stop Student Services Center in 333 Robert H. Bruininks Hall on the East Bank Campus to register in person. Students having difficulty with self-registration should contact the registration help-line at (612) 624-1111 (M-F 8:00-4:00) or email onestop@umn.edu. You may also contact your Program Coordinator or the School of Public Health Student Services Center at (612) 626-3500. Please note the following when registering:

- Most courses give the option of either an A/F or S/N (pass/fail) grading option. Be sure to select the grade option desired for the course. Note that there may be a limit to the number of credits a student can take S/N (pass/fail); see the program guidebook for more information. Stricter policies may be enforced by individual programs. There is a strict and early deadline for when grading options can be changed.
- Some courses have variable credits. Before selecting the number of credits, students should make sure they agree with the instructor as to the number of credits appropriate for the work proposed.
### Change of Grade Option

For full-semester courses, students may change their grade option, if applicable, through the second week of the semester. After that, grading options cannot be changed. Grade option change deadlines for other terms (i.e. summer and half-semester) can be found at onestop.umn.edu. For more information about grading policies, see the University Senate Grading and Transcripts: Twin Cities, Crookston, Morris, and Rochester Policy.

### Grading Scale

The University uses plus and minus grading on a 4.000 cumulative grade point scale in accordance with the following, and you can expect the grade lines to be drawn as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.000</td>
</tr>
<tr>
<td>A-</td>
<td>3.667</td>
</tr>
<tr>
<td>B+</td>
<td>3.333</td>
</tr>
<tr>
<td>B</td>
<td>3.000</td>
</tr>
<tr>
<td>B-</td>
<td>2.667</td>
</tr>
<tr>
<td>C+</td>
<td>2.333</td>
</tr>
<tr>
<td>C</td>
<td>2.000</td>
</tr>
<tr>
<td>C-</td>
<td>1.667</td>
</tr>
<tr>
<td>D+</td>
<td>1.333</td>
</tr>
<tr>
<td>D</td>
<td>1.000</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
</tbody>
</table>

- **A** = achievement that is outstanding relative to the level necessary to meet course requirements.
- **A-** = achievement that is significantly above the level necessary to meet course requirements.
- **B+** = achievement that meets the course requirements in every respect.
- **B** = achievement that is worthy of credit even though it fails to meet fully the course requirements.
- **B-** = achievement that is satisfactorily completed but at a level of achievement that is not worthy of credit or is not completed and there was no agreement between the instructor and student that the student would be awarded an I (Incomplete).
- **C** = achievement that is satisfactory, which is equivalent to a C- or better.
- **C-** = achievement that is not satisfactory and signifies that the work was either 1) completed but at a level that is not worthy of credit, or 2) not completed and there was no agreement between the instructor and student that the student would receive an I (Incomplete).
- **D** = failure because work was either (1) completed but at a level of achievement that is not worthy of credit or (2) not completed and there was no agreement between the instructor and the student that the student would be awarded an I (Incomplete).
- **D+** = failure because work was either (1) completed but at a level of achievement that is not worthy of credit or (2) not completed and there was no agreement between the instructor and the student that the student would be awarded an I (Incomplete).
- **F** = failure because work was either (1) completed but at a level of achievement that is not worthy of credit or (2) not completed and there was no agreement between the instructor and the student that the student would be awarded an I (Incomplete).

### Other Transcript Symbols

- **Incomplete [I]**
  - There shall be a temporary symbol “I”, incomplete, awarded to indicate that the work of the course has not been completed. The “I” shall be assigned at the discretion of the instructor when, due to extraordinary circumstances, the student was prevented from completing the work of the course on time. The assignment of an “I” requires a written contract between the instructor and student specifying the time and manner in which the student will complete the course requirements. In no event may any such written agreement allow a period of longer than one year to complete the course requirements. The Incomplete contract can be found at http://secure.ahc.umn.edu/publichealth/sphgrades/.
For graduate/professional students, an “I” is to remain on the transcript until changed by the instructor or department.

When an “I” is changed to another symbol, the “I” is removed from the record.

A student does not need to be registered at the University in order to complete the work necessary to convert an “I” to a grade with credit in the time and manner previously agreed upon between the student and the instructor. The instructor is expected to turn in the new grade within four weeks of the date the work was submitted by the student.

**Interpretation of Policy on Incompletes for Students Called to Active Military Duty**

- When appropriate, instructors may prefer to arrange for the student to take an incomplete. Senate policy requires that an incomplete be made up within one calendar year of the end of the term in which the incomplete is given. When students are called to active military duty and reach agreement with their instructor(s) to take an incomplete, they will have up to one calendar year following their discharge from active duty to complete their incomplete(s). Complete policies and procedures are available in the SPH Student Services Center.

**Transfer [T]**

- There shall be a symbol "T", transfer, posted as a prefix to the original grade, to indicate credits transferred from another institution or from one college or campus to another within the University when reevaluation is required.

**Withdrawal [W]**

- If a student officially withdraws from a course during the first two weeks of classes, there shall be no record of that course registration entered on the student's transcript. There shall be a symbol “W”, withdrawal, entered upon a student's record when the student officially withdraws from a course in accordance with procedures established by the student's college or campus*. The “W” will be entered on the transcript irrespective of the student's academic standing in that course if the student withdraws from the course during the third through eighth week of class (second or third weeks of summer sessions). Withdrawal in the ninth or later week of classes (fourth or later in summer sessions) shall require approval of the college and may not be granted solely because a student is failing the course; there must be extenuating non-academic circumstances justifying late withdrawal.

**Continuation [X]**

- There shall be a symbol “X”, indicating a student may continue in a continuation course in which a grade cannot be determined until the full sequence of courses is completed. The instructor shall submit a grade for each “X” when the student has completed the sequence.

**In Progress [K]**

- There shall be a symbol "K", assigned by an instructor to indicate the course is still in progress and that a grade cannot be assigned at the present time.

**Grade Submission**

All grades for all courses each term shall be submitted to the Office of the Registrar no later than 72 hours after the last final examination for that term. Students can view their grades online at myu.umn.edu 24 hours after they are posted by the course instructor.

**Grade Point Average**

Students must achieve a grade point average of no less than 3.0 (B) across their entire program to receive the graduate or professional degree.

**SPH Incomplete Policy**

The maximum time allowed for a student to fulfill incomplete course requirements is one year or as specified on the incomplete contract, agreed upon by the instructor and student. Students who fail to meet incomplete contract deadlines as determined by instructor and student will receive a grade of F or N (depending on grade option) to be entered by the SPH Student Services Center. Instructors are notified via email that an F or N was submitted due to failure in meeting the incomplete contract deadline.

Students can initiate an electronic Incomplete Contract form using the SPH Grades portal found here: https://publichealth.ahc.umn.edu/sphgrades/.

The information needed for each contract is:

- Student ID
- Course number
- Course section
Graduating students who, in consultation with their academic advisor and course instructor, determine not to finish course requirements may request that the incomplete permanently remain on their official transcript (if the course is not required for graduation).

**Graduate Planning and Audit System (GPAS)**

The Graduate Planning & Audit System (GPAS) allows graduate and professional students to plan future coursework and view student degree progress. You only need to add coursework that you plan on taking because the audit (advisement report) will already track completed coursework and requirements. If you want to add or remove a graduate minor, you will need to submit a separate form.

GPAS allows Program Coordinators, Program Directors, and Director of Graduate Studies to approve students’ coursework plans electronically.

Students will work closely with their academic programs to complete and submit GPAS for review and approval. [onestop.umn.edu/academics/gpas](http://onestop.umn.edu/academics/gpas).

**Probation**

At the end of the semester, the Director of Academic and Student Affairs identifies all SPH students with a cumulative GPA of less than 3.0 enrolled in an SPH program. Students will receive a letter of scholastic probation prepared by the Director of Academic and Student Affairs, to be approved and signed by the Associate Dean of Education & Student Engagement. The terms of this letter are the following: students will be placed on probation and informed that they must maintain a term GPA of 3.0 for each subsequent term. Students must achieve letter grades for all courses (incompletes are unacceptable while on probationary status) they are enrolled in during that semester. This written notice will inform the student that the GPA must be raised to a minimum of 3.0 to be removed from probationary status and to be awarded a degree. Students on probationary status who do not receive at least a 3.0 GPA for each subsequent term will be dismissed from the program by the Associate Dean.

Students who have been dismissed from the SPH and are interested in reapplication to the School are allowed to do so 12 months after the date of dismissal. The dismissal becomes part of the reapplication and is considered in any admission decision.

**S/N Grade Option**

Students may take no more than 20% of their coursework on an S/N grading basis, exclusive of those topics, seminars, and experience courses offered only on an S/N basis.

**Adding a Course after It Starts**

No approval is required to add a course during the first week of classes. Instructor approval is required during week two. After the second week of classes, instructor and college scholastic committee approval is required. Deadlines for adding a course for other terms (i.e. summer and half-semester) can be found at [onestop.umn.edu](http://onestop.umn.edu).

**Registration Requirement and Exceptions**

Students are required to register for at least two semesters and 20 credits in the School of Public Health.

Students must complete a formal request to change their registration (e.g., add, drop, change your grade basis) after a deadline or to register for more than 18 credits. Students must consult with their program coordinator prior to submitting any forms. Approval is not automatic.

**Course Cancellation and Withdrawal**

Students should refer to the Refund and Drop/Add Deadlines for the particular term at [onestop.umn.edu](http://onestop.umn.edu) for information and deadlines for withdrawing from a course. As a courtesy, students should notify their instructor and, if applicable, advisor of their intent to withdraw.

Students wishing to withdraw from a course after the noted final deadline for a particular term must contact the School of Public Health Student Services Center at [sph-ask@umn.edu](mailto:sph-ask@umn.edu) for further information.

**Course Prerequisites**

Any college or campus may set special scholastic or other standards for registration in a particular course, for scholastic probation, admission, honors, continued residence, degrees, and other purposes they deem appropriate.
**Time Frame for Degree**

The maximum time allowed by the School of Public Health completion for a *master’s degree is eight years*. The eight-year period begins with the first term of enrollment after admission to a degree program within the School of Public Health. If you have the flexibility to take a full-time course load, it is possible to complete the curriculum in a shorter amount of time depending upon the program requirements.

The maximum time allowed by the School of Public Health and the Graduate School for a *doctoral degree is eight years*. The eight-year period begins with the first term of enrollment after admission to a degree program within the School of Public Health.

**Course Evaluations**

Student feedback on course content and faculty teaching skills are an important means for improving our work. Please take the time to complete a course evaluation for each of the courses for which you are registered. The SPH collects student course evaluations electronically through the U of M Office of Measurement Services called Explorance Blue [http://srt.umn.edu/blue](http://srt.umn.edu/blue). The system will send email notifications to students when they can access and complete their course evaluations. All students will have access to their final grades through OneStop two weeks after the last day of the semester.

Note: Responses will remain anonymous and will not be released to the course instructor until after final grades have been submitted. This is a School of Public Health procedure, not a University-wide policy, and therefore applies to Public Health courses only.

### 3.4 Transfer Credit

**Course Credit Transfer Policy**

Course credits may be used to satisfy public health core or other program requirements as jointly approved by the Program Director and the Associate Dean of Education. No course credits older than 5 years from the date of the student’s matriculation will be accepted for transfer. A grade of “B-” or better is required for each course requested for transfer credit.

SPH students who have completed graduate-level coursework at the University of Minnesota or another college or university may petition to transfer those courses toward their SPH degree. To be considered for transfer, graduate level coursework must have been taken at an accredited graduate institution.

Higher standards of achievement and stricter policies may be enforced by individual programs.

MPH and MHA students must:

1. Meet with their academic advisor to discuss the petitioning process. If the petition is acceptable to the advisor, the student will complete and sign the Academic Policy Petition form and attach an official transcript on which the final grade has been posted.
2. Submit the Academic Policy Petition form to the Program Coordinator for processing. The Academic Policy Petition form can be found at [www.sph.umn.edu/current/resources/](http://www.sph.umn.edu/current/resources/).
3. The Program Coordinator will forward the petition to the Program Director for approval and signature and then to the Student Services Center for the Associate Dean of Education for final evaluation and/or approval.

The Academic Policy Petition forms may be used for other academic reasons. Students are encouraged to discuss petition issues with their academic advisor or Program Coordinator to determine the appropriate process and procedure.

MS and PhD students must contact their program coordinator for detailed information on transferring coursework.

### 3.5 Equivalency Exam and Information

**Equivalency Exams**

MPH students must satisfy competency requirements in the seven core areas of public health: administration, behavioral science, biostatistics, environmental health, epidemiology, ethics, and foundations. Courses designated as part of the public health core can only be taken for a letter grade (A-F). Students are required to achieve no less than a B- grade in each course taken on an A-F basis. Students may retake public health core courses with the exact same numbered course only once.

Students have the option of taking the equivalency exams in any of the following core areas; however, students can only take the exam one time in each core area. Students who pass the exam(s) are waived from taking the required
course and must make up the credits per their area of study and degree requirements. Students who do not pass the exam(s) are required to take the appropriate core course area to satisfy the competency requirements.

**Administration**
PubH 6751 Principles of Management in Health Services Organizations (2 cr)

**Behavioral Science**
PubH 6020 Fundamentals of Social and Behavioral Science (2 cr)
PubH 6050 Community Health Theory and Practice I [CHE students only] (3 cr)
PubH 6914 Community Nutrition Intervention [PubH Nutr students only] (3 cr)

**Biostatistics**
PubH 6414 Biostatistical Literacy (3 cr) [Fall 2018 and beyond] AND a programming class from the following list [students must check with their program advisor or coordinator to ensure they are taking the correct required programming course]

PubH 6107 Excel and Access in Public Health Settings (1 cr)
PubH 6123 Violence Prevention and Control: Theory, Research and Application (2 cr)
PubH 6325 Data Processing with PC-SAS (1 cr)
PubH 6420 Introduction to SAS Programming (1 cr)
PubH 6470 SAS Procedures and Data Analysis (3 cr)
PubH 6755 Planning and Budgeting for Public Health (2 cr)
PubH 6813 Managing Electronic Health Information (2 cr)
PubH 6845 Using Demographic Data for Policy Analysis (3 cr)
PubH 7200 Fundamentals Exploring and Visualizing Data in R (1 cr)
PubH 7461 Exploring and Visualizing Data in R (2 cr)

OR
PubH 6450 Biostatistics I (4 cr)

**Environmental Health**
PubH 6102 Issues in Environmental and Occupational Health (2 cr)

**Epidemiology**
PubH 6320 Fundamentals of Epidemiology (3 cr)

OR
PubH 6341 Epidemiologic Methods I (3 cr)

**Ethics**
PubH 6741 Ethics in Public Health: Professional Practice and Policy (1 cr)

**Foundations**
PubH 6250 Foundations of Public Health (2 cr) – equivalency exam not available

Equivalency examinations are given at least twice each year (January and August). Equivalency exams satisfy competency requirements for the following core courses only:

4. **TUITION, FEES, BILLING, AND FINANCES**

4.1 **MY FINANCES TAB ON MY U**

The My Finances tab in MyU.umn.edu is where you’ll find information about billing, payment, and financial aid. The My Finances tab allows you to view account charges and billing statements. It is also where you can submit an online payment using the preferred and free e-check method. Don’t forget to sign up for Direct Deposit. For residents of Wisconsin, North Dakota, South Dakota, and Manitoba, remember to apply for reciprocity through your home state or province so your bill will have the correct amounts.

OneStop hosts “how-to guides” for common transactions. You can find financial how-to guides here: onestop.umn.edu/how-guides#accord-3.

4.2 **TUITION AND FEES**

Please go to onestop.umn.edu for complete tuition and fee information.

4.3 **BILLING**

Your billing statement details your amount due (tuition, fees, housing, books, and other campus charges) and your payment due date. You will receive a notice in your University email account when it is ready to view. If you have account charges on more than one campus, you will receive separate billing notices for each campus.

You may opt into a payment plan when your first bill is available, which will divide your payments over three billing periods throughout the semester. Make sure you always pay your bills on time to avoid late fees or cancellation of future class registration.

Your billing statement is a snapshot of the charges and credits applied to your account as of the date the statement was created. For the most up-to-date account activity information, you can check your student account on the My Finances tab in MyU.

**Third Party Billing** onestop.umn.edu/finances/third-party-billing

When an organization, not owned by you or a family member, makes a commitment to pay your educational expenses, they are considered a third-party sponsor by the University of Minnesota. When payment is due on your student account, the sponsor is billed by the University. This payment process is termed “third party billing.”

Sponsor's payments are subject to the same federal reporting requirements as other financial aid. Some sponsorships don't require a billing invoice and are administered by the University through One Stop Student Services.

Whether you are a student or a sponsor, you will find answers in the frequently asked questions about how the third-party billing processes these payments at the links on the left. In addition, you can view current tuition and fee information.

If you have more questions or need further information, please contact the third-party billing office at tpbill@umn.edu or (612) 625- 8559.

4.4 **FINANCIAL AID AND SCHOLARSHIPS**

A variety of resources to assist students in financing their education can be found at www.sph.umn.edu/prospective/tuition-finances/paying-for-your-education/. Scholarships specific to SPH Divisions and/or Programs can be found in the Division and/or program guidebook.

Information on financial aid can be found at onestop.umn.edu (Finances tab) or by emailing onestop@umn.edu.

Students having questions about the status of their financial aid should refer to the appropriate contact below:
<table>

</tr>
</tbody>
</table>

**Loan Deferment**

A temporary postponement of loan payments is available only under certain conditions. Students requesting a loan deferment can get their form signed by One Stop Student Services onestop.umn.edu.

**Financial Aid Exit Counseling**

Exit counseling sessions are required of all borrowers of federal and University-administered student loan programs. Exit counseling provides you information regarding the rights and responsibilities of a borrower and a lender/servicer. You learn about repayment, deferment, and cancellation of your loan. These sessions prepare you to be responsible and effective in repayment of your educational loans.

**You are required to complete exit counseling when you:**

- Are about to graduate
- Leave the University (even if it is just temporary)
- Drop your registration below half-time enrollment
- Transfer to another school
- Leave for a National Student Exchange (NSE) experience

Once you have been selected for the exit process, you will receive an email with instructions to complete your exit counseling online. Make sure you respond by completing your exit counseling in a timely manner! A hold will remain on your student record until your exit counseling is complete, delaying your diploma, preventing registration, and preventing access to your transcripts.

For more information about student loan exit counseling, contact Student Account Assistance at onestop.umn.edu.

### 4.5 GRADUATE ASSISTANTSHIPS

Many SPH students use graduate assistantships to help finance their education. These are campus working/learning positions that take the form of research, teaching, or administrative appointments. Degree-seeking students in the SPH registered for six or more credits, including international students, are eligible to apply for an assistantship on campus. Because many assistantships are funded by grants, the research activity of SPH faculty may result in numerous opportunities across the school; you are encouraged to check with your faculty to see if, or when, they may be posting new grant-related assistant positions.

Graduate assistantships include an hourly wage, tuition benefits, subsidized insurance coverage, and may include resident tuition rates for students and dependents.

For graduate assistant policies and benefits, go to www1.umn.edu/ohr/gae.

The tuition benefits are particularly attractive to students. Graduate assistants who work at least 25% time from the beginning to the end of the official semester appointment dates are eligible to receive tuition benefits (tuition remission and resident rates) during that semester.

### 5. GUIDELINES, POLICIES, AND COMPLIANCE

#### 5.1 STUDENT RESPONSIBILITY AND CONDUCT

Students are ultimately responsible for the level of success that they achieve in their program of study and for the time it takes to complete that program. Students should:
• Attend SPH orientation and understand the information distributed.
• Understand and follow University, School of Public Health, Division, and Program rules and procedures for completion of degree requirements.
• Read email messages frequently for announcements from the Program Coordinators, Program Directors and Director of Graduate Studies, Student Services Center, and Career Center. These announcements may involve changes in the University, School or Division rules, and procedures for completion of degree requirements; students are responsible for reading and understanding these announcements.
• Contact a Program Coordinator, Program Director, or Director of Graduate Studies if they are not getting reasonable assistance from their academic and/or master's project/thesis advisor.
• Initiate and maintain contact each semester with their academic advisor to review progress toward the completion of their degree.
• Complete the degree in a timely fashion.

The School of Public Health emphasizes three principles of student conduct in all of its degree programs:

1. **Respect Others**: Students are expected to behave in a respectful and professional manner with other students, faculty, and staff in the classroom and on campus.
2. **Honor Privacy**: Every student’s course grades are private and are not to be shown to anyone else. This also applies to the grades of students in courses for which you are a Teaching Assistant.
3. **Present Your Work Honestly**: Plagiarism is defined as the presentation of another's writing or ideas as your own. For a helpful discussion of preventing plagiarism, please consult University policies and procedures regarding academic integrity: [http://writing.umn.edu/tww/sources/definitions.html](http://writing.umn.edu/tww/sources/definitions.html). Students should be careful to properly attribute and cite others' work in their writing. For guidelines for correctly citing sources, go to [https://www.lib.umn.edu/howto/citationguides](https://www.lib.umn.edu/howto/citationguides).

The Associate Dean of Education & Student Engagement is responsible for managing all School of Public Health issues and investigations of academic misconduct.

### 5.2 UNIVERSITY OF MINNESOTA POLICIES

As part of the larger University of Minnesota community, students in the School of Public Health are responsible for abiding by the Board of Regents policies and other University-wide administrative policies. These policies can be found in full at [policy.umn.edu](http://policy.umn.edu).

This policy library holds policies that apply to the entire University system (all five campuses), as well as policies that apply to the Twin Cities campus. The site also displays Board of Regents policies, which are managed through the Board office.

In an effort to avoid potential duplication, omission, or transcription errors, we direct SPH students to read the policies at the original source. We encourage you to particularly become aware of the following:

**Student Conduct Code**

This policy governs the expected standards of behavior for students and applies to all students and student organizations at the University of Minnesota, whether or not the University is in session.

The Office for Community Standards is the unit of the university that works to educate the community about the policies governing student behavior and resolve reported violations of the Student Conduct Code. The process they follow is designed to resolve issues in a way that is fair to all community members.

[https://communitystandards.umn.edu/](https://communitystandards.umn.edu/)

Below are the Student Conduct Code’s guiding principles:

1. The University seeks an environment that promotes academic achievement and integrity, that is protective of free inquiry, and that serves the educational mission of the University.
2. The University seeks a community that is free from violence, threats, and intimidation; that is respectful of the rights, opportunities, and welfare of students, faculty, staff, and guests of the University; and that does not threaten the physical or mental health or safety of members of the University community.
3. The University is dedicated to responsible stewardship of its resources and to protecting its property and resources from theft, damage, destruction, or misuse.
4. The University supports and is guided by state and federal law while also setting its own standards of conduct for its academic community.

5. The University is dedicated to the rational and orderly resolution of conflict.

6. Students are entitled to the rights and responsibilities of other citizens with regard to freedom of speech, peaceable assembly, and right to petition. Students are entitled to exercise their rights to inquire and dissent, speak freely, and peaceably assemble and protest to the extent permissible under both the First Amendment and the Student Conduct Code.

7. Students are entitled to due process and procedural fairness protections, including the prompt notification of charges, the opportunity to respond, the right to an advocate of choice, and the right to the resolution of a case within a reasonable period of time.

Any student or student group found to have committed, attempted to commit, or assisted or abetted another person or group to commit the following misconduct is subject to appropriate disciplinary action under this policy:

- Scholastic Dishonesty
- Disruption of the Academic Environment
- Falsification
- Refusal to Identify and Comply
- Attempt to Injure or Defraud
- Harm to Person
- Bullying
- Sexual Misconduct
- Disorderly Conduct
- Illegal or Unauthorized Possession or Use of Weapons
- Illegal or Unauthorized Possession or Use of Drugs or Alcohol
- Providing Alcohol to Minors
- Unauthorized Use of University Facilities or Services
- Theft, Property Damage, or Vandalism
- Unauthorized Access
- Disruptive Behavior
- Hazing
- Rioting
- Violation of University Rules
- Violation of Local, State, or Federal Laws or Ordinances
- Persistent Violations

Scholastic Dishonesty and Plagiarism

Students are responsible for maintaining scholastic honesty in their work at all times. Students engaged in scholastic dishonesty will be penalized, and offenses will be reported to the Office for Community Standards.

The University’s Student Conduct Code defines scholastic dishonesty as “plagiarism; cheating on assignments or examinations; engaging in unauthorized collaboration on academic work; taking, acquiring, or using course materials without faculty permission; submitting false or incomplete records of academic achievement; acting alone or in cooperation with another to falsify records or to obtain dishonestly grades, honors, awards, or professional endorsement; altering, forging, misrepresenting, or misusing a University academic record; or fabricating or falsifying data, research procedures, or data analysis.”

- Copying information word for word from a source without using quotation marks and giving proper acknowledgement by way of footnote, endnote, or in-text citation;
- Representing the words, ideas, or data of another person as one’s own without providing proper attribution to the author through quotation, reference, in-text citation, or footnote;
- Producing, without proper attribution, any form of work originated by another person such as a musical phrase, a proof, a speech, an image, experimental data, laboratory report, graphic design, or computer code;
- Paraphrasing, without sufficient acknowledgment, ideas taken from another person that the reader might reasonably mistake as the author’s; and
- Borrowing various words, ideas, phrases, or data from original sources and blending them with one’s own without acknowledging the sources.

It is the responsibility of all students to understand the standards and methods of proper attribution and to clarify with each instructor the standards, expectations, and reference techniques appropriate to the subject area and class requirements, including group work and internet use. Students are encouraged to seek out information about these methods from instructors and other resources and to apply this information in all submissions of academic work.”
Serious, intentional plagiarism will result in a grade of "F" or "N" for the entire course. For more information on this policy and for a helpful discussion of preventing plagiarism, please consult University policies and procedures regarding academic integrity: https://communitystandards.umn.edu/

Students are urged to be careful that they properly attribute and cite others' work in their own writing. For guidelines for correctly citing sources, go to www.lib.umn.edu/instruction/tutorials and click on "Organizing and Citing Research."

In addition, original work is expected in all coursework. It is unacceptable for students to hand in assignments for any course for which they received credit in another course unless by prior agreement with the instructor. Building on a line of work begun in another course or leading to a thesis, dissertation, or final project is acceptable.

All issues relating to academic misconduct in the School of Public Health are referred to the Associate Dean of Education.

Sexual Harassment, Sexual Assault, Stalking and Relationship Violence

This policy governs the commitment to the prevention and awareness of and response to sexual harassment at the University of Minnesota.

The University of Minnesota and the School of Public Health are committed to creating a respectful community that is free of harassment. If you see or experience sexual misconduct during a divisional, school, or university related event, or at a professional event (such as at a conference), please consult with a University employee with whom you feel comfortable, or directly report to the Office of Equal Opportunity and Affirmative Action (EOAA) so that they can review the situation. The EOAA will work with you to determine the best course of action to prevent any further misconduct or retaliation.

If you would like more information about sexual misconduct or would like to talk through an experience, The Aurora Center, Student Counseling Services, and Boynton Health provide confidential services and resources to help you better understand your rights and the resources available on campus.

Research Involving Human Subjects

This policy governs all research involving human subjects conducted at the University of Minnesota or by University faculty, staff, or student researchers.

Any research you conduct while a student at the University of Minnesota may be subject to review and approval by the University's Institutional Review Board (IRB) for the protection of human research subjects. This applies to projects conducted inside or outside the University. For research conducted outside of the University, students may still need IRB approval from the University even if approval has been obtained from an external agency. Any research involving human subjects must be reviewed by the IRB.

The IRB is a committee of faculty, students, and community members that follows federal regulations and ethical principles in order to protect human research subjects.

If your proposed research project is subject to IRB review, you must submit an application to the IRB before you begin. **You cannot begin any regulated research until you have IRB approval.** This includes sending out recruitment flyers or emails, accessing private data, or doing any aspect of your research. You may not be permitted to use any data that was collected without prior IRB approval. The IRB does not have the authority to approve a study after it has begun.

The IRB approval process may take as little as one week, but can take up to 2 months or longer. "Last minute" approvals are not possible, so it is important to plan ahead. Applications for international research, research with children, research about illegal or stigmatizing behavior, research with vulnerable populations, or research that incorporates deception often require more review time.

**IRB Contact Information**

(612) 626-5654
irb@umn.edu
research.umn.edu/units/irb

Projects that are not subject to IRB review include studies that rely on existing publicly available data, such as US Census data. If you are only doing an analysis of publicly available data (i.e., data you can download from a public website) you do not need IRB approval to use it. Technically, such work is research but does not involve living individuals from whom you collect information. On the other hand, an oral history study may not require IRB because it is not a systematic investigation designed to contribute to generalizable knowledge. However, there are many grey areas, so students proposing such work are strongly encouraged to contact the IRB to determine whether their project requires approval.

Additional guidelines for students involved in international fieldwork
If you plan to use data collected as part of your international field experience for your culminating experience project, you are strongly encouraged to contact the IRB before your field experience begins to ensure that your project is approved in a timely manner. You will not be allowed to take data out of the host country without IRB approval.

Grading & Transcript Policy

This policy covers University-wide grading standards and the meaning of transcript symbols. A standard grading system establishes a common understanding of the meaning of grades and promotes uniformity in assigning them. Defining grades and their associated meaning (grade points and assessment of achievement) allows for comparison and for computation of the term and cumulative grade point average.

Leave of Absence

Graduate students who experience circumstances that prevent them from maintaining active status through continuous registration (excluding summer term), and who, through consultation with their Director of Graduate Studies (DGS), Program Director, advisor(s), and relevant offices determine that a leave of absence (LOA) is appropriate, must request a LOA from their college office using this form. Graduate students must receive approval for an official Leave of Absence.

Forms must be submitted to the School of Public Health Student Services Center, A395 Mayo Memorial Building, MMC 819, 420 Delaware Street SE, Minneapolis, MN 55455.

5.3 COMPLAINTS AND GRIEVANCES

The SPH seeks to be aware of and responsive to student issues and complaints. There are numerous ways for you to channel your academic and student life concerns:

- Provide comments on the yearly student survey released every March.
- Meet with your advisor and/or program coordinator.
- Raise the issue with your program director or director of graduate studies, either individually or in a meeting set up for this kind of feedback.

The SPH takes all student concerns seriously and we welcome your input in any of these ways. If the matter is not handled satisfactorily by any of these methods, or if the issue is particularly widespread or serious, please make an appointment with Dr. Elizabeth Wattenberg, Associate Dean of Education at watte004@umn.edu.

The School of Public Health is committed to ensuring that all of our students experience high-quality instruction, and a positive and supportive environment in which to work and learn.

If you have a concern about your academic experience (e.g., grading, advising, instructional) and/or you believe a member of the University community has violated an official University rule, policy and/or established practice, please refer to the University’s Board of Regents policy and related informal and formal resolution processes.

The University’s process encourages efforts to address concerns at the local level whenever possible. For assistance, students may contact the SPH Student Services staff or the SPH associate dean for education; for a confidential consultation, students may contact the Student Conflict Resolution Center (SCRC).

For discrimination, harassment, or sexual violence complaints the appropriate unit to contact is the Equal Opportunity and Affirmative Action Office.

The University provides resources as well. Report incidents of bias, discrimination, or harassment to the University Office of Equal Opportunity and Affirmative Action at eoaa.umn.edu. For student issues that are not resolved through SPH channels or for which you seek external support, the Student Conflict Resolution Center will assist in resolving campus-based problems or concerns sos.umn.edu.

Bias Grievance Process

**Purpose:** The School of Public Health strives to value and respect all that our students bring to the SPH community. However, events or conflicts may occur both in and out of the classroom that are deemed inappropriate and inconsistent with this value. Students have a right to report these concerns or incidents of bias. In order to address student reports in a confidential and supportive manner, the SPH developed a basic process that is outlined below. Specifically, if you are a student within the SPH, and feel you have been a victim of discrimination or bias based on your identity or beliefs; please reach out to the Associate Director of Diversity, Equity, and Inclusion.

**Intent:** Students may not know all the resources available on campus to address bias-related issues, or they may not feel comfortable reporting these issues or concerns to university offices. Moreover, students may simply wish to talk through an experience before making any other decision. The Associate Director of Diversity, Equity and Inclusion (DEI) can serve as this point of discussion and referral.
Process: Below is a set of process points related to addressing grievances. This is not an exhaustive list of steps, but an outline of critical pieces, meant to give both students and administrators an understanding of what may happen.

1. The Associate Director of DEI, or another SPH administrator, will meet with the aggrieved student to collect information regarding an incident or issue.
2. The Associate Director or other SPH administrator, may then talk with faculty, staff, or other students to ascertain the context of the incident, as well as the intent and impact of the situation as a whole. It is our intent to move expeditiously, but this process may take several days depending on the schedules of the involved parties.
3. Consult with related office(s). The Associate Director of DEI will use all of the available information to help determine whether the situation should be handled by another office or individual (ex: Equal Opportunity and Affirmative Action).
4. Where applicable, the Coordinator will identify and recommend options for resolution.
5. The Associate Director will consult back with students and communicate next steps. These may include (but are not limited to) referral to another campus office or administrator, offer for facilitation or mediation, or a class change.

Our hope is to find reasonable resolutions that will make the aggrieved party/parties feel heard, understood, and continuously welcomed in the SPH community. The coordinator can also provide informal support while the student works with another office to find a resolution.

Note regarding retaliation: The University of Minnesota and the School of Public Health prohibit retaliation against anyone who raises concerns about discrimination, harassment, sexual violence, or nepotism; opposes such practices; or participates in an investigation. Retaliation may include intimidation or harassment. If you feel you have been a victim of retaliation in regards to a report please communicate with the Associate Director of DEI or another administrator in the School of Public Health.

5.4 PRIVACY

The School of Public Health is committed to protecting the privacy of students, staff, and research participants. Students have privacy rights that assure confidentiality of their student records. In addition, research participants have many rights that guarantee their safety and privacy.

Often School of Public Health students work as Teaching Assistants or Research Assistants; both roles may require access to confidential or private information. Please be aware of privacy laws, complete assigned/required privacy training, and act with the highest honor towards all private information.

For further information, go to https://www.healthprivacy.umn.edu/.

FERPA (Family Educational Rights and Privacy Act): Student Records

FERPA grants four specific rights to a post-secondary student:

1. To see the information that the institution is keeping on the student.
2. To seek amendment to those records and in certain cases append a statement to the record.
3. To consent to disclosure of his/her records.
4. To file a complaint with the FERPA Office in Washington.

In addition:

- U of MN Faculty and Staff have a legal responsibility, under FERPA, to protect the confidentiality of your student educational records.
- Student educational records are considered confidential and may not be released without written consent of the student.
- Student information stored in electronic format must be secure and available only to those entitled to access that information.
5.5 **INTERNATIONAL STUDENT REQUIREMENTS**

Note: International student requirements may change over time. For up-to-date information go to isss.umn.edu.

**International Student Preparation Course**

The International Student Preparation Course is a tool to help new international students prepare for their arrival at the University by learning about certain expectations and requirements. Students are required to complete the International Student Preparation Course at least one week before their Immigration Check-In. More information can be found by visiting https://isss.umn.edu/new/online.html.

**Immigration Check-In**

All new international students must visit the University of Minnesota International Student & Scholar Services office (ISSS) shortly after arrival in Minnesota. See isss.umn.edu for directions, office hours, and services. ISSS will review immigration documents, register new students for the International Student Orientation Program, and provide information on how to release registration holds. These processes are mandated by the Department of Homeland Security (DHS); formerly known as Immigration and Naturalization Service (INS).

International students are allowed to enter the U.S. only within 30 days of their program start date. Regulations and SEVIS requirements provide strict guidelines regarding this date, to coincide with the term of admission.

**Student and Exchange Visitor Information System (SEVIS)**

SEVIS is an electronic reporting system that provides the Department of Homeland Security with information on international students and scholars in the United States who hold F, J, and M visas. This internet-based record-keeping system maintains electronic data on all international students. The system tracks entries into and departures from the U.S.

In addition to the information routinely reported on I-20 and DS-2019 forms, other information is reported, including but not limited to: academic status, employment, and residential address.

For more information on SEVIS requirements, including those listed below, go to isss.umn.edu.

**Academic Status**

International students must maintain full-time status. MPH students must register for at least six credits each semester. Under special conditions, students may apply for an exemption from the full-time status rule at the ISSS office. Students must apply for the exemption before registering for less than a full course of study.

**Address Change**

International students MUST update their address within ten days of a change of address to maintain their legal immigration status. For more information go to isss.umn.edu/INSGen/address.html.

5.6 **COMPLIANCE**

**Immunizations**

According to OSHA regulations, CDC guidelines, and University of Minnesota policy, Health Sciences students are required to have a health clearance as a condition of enrollment. You must complete this requirement by the 6th week of the semester or a registration hold will be placed on your student account. In addition, Internship or Applied Practice Experience locations may require additional immunizations based on the location and/or work being performed. Finally, international experiences may also require other immunizations; international requirements are listed here: Travel

More details and the downloadable Student Immunization Record form are available from Boynton Health at boynton.umn.edu/immunization-requirement. You can also stop by Boynton Health to schedule services, click here for more information boynton.umn.edu.

**HIPAA (Health Insurance Portability and Accountability Act)**

HIPAA is a federal law related to the privacy of an individual’s health care information.

All students in the Health Sciences, including School of Public Health students, must complete the University’s online HIPAA Privacy training. The University of Minnesota provides online training courses on proper handling of health information and information security; everyone must complete this training, even if they don’t work directly with Protected Health Information. This is because students may have incidental contact with Protected Health Information, and because students may encounter HIPAA violations, and are required to know how to respond to these violations.
This training consists of two separate training courses that you may complete online: (HIP016) HIPAA Training; and (ISA17) University Information Security Awareness Training.

Login to https://training.umn.edu/ and select My Training to see if you have been assigned the training, or click Course Catalog and enter the course name or number above.

Criminal Background Checks

Students should be aware that Minnesota law may require certain facilities to conduct a criminal background check for all personnel with direct, and/or unsupervised client contact. Facilities that are covered by this law include hospitals, boarding care homes, outpatient surgical centers, nursing homes, home care agencies, residential care homes, board/lodging establishments providing health supervision services, and work with minor aged children. Students seeking internships or Applied Practice may be required to undergo a background check as well, depending on the agency or facility’s internal policies. The School will assist students with these requirements; students should call the Student Services Center at (612) 626-3500, email sph-ask@umn.edu, or go to A-395 Mayo for assistance.

Community Engagement Agreement

Many students in the School of Public Health volunteer in the community. Liability insurance is available through the University provided that the student registers for PUBH 0020 (a zero-credit class) and has the approval of their academic faculty advisor. Registration for PUBH 0020 will be officially documented on the student’s transcript; however, the zero-credit course has no tuition, no fees, no credits, and no grades. It is important to understand that a zero-credit registration for a community engagement activity is not a substitute for a required course or field experience.

Prior to registration, students are required to provide information about the experience by completing the Community Engagement Agreement available at secure.ahc.umn.edu/publichealth/sphcommunity. The agreement is complete once it has been approved by the student’s advisor and the Registrar and Director of Academic and Student Affairs. To complete the Student Engagement Agreement a student must provide the following information:

- Name of the organization
- Address
- Organization phone number
- Supervisor within the organization
- Description of the activity
- Description of how this activity relates to their development as a public health professional
- Semester and date of experience
- Electronic signature of academic advisor

When the agreement is approved, the student will be contacted by email and provided with a registration permission number.

Health Insurance Requirement for Health Sciences Students Participating in Applied Practice/Clerkship/Practicum Experiences

School of Public Health students are expected to have health insurance coverage while participating in their Applied Practice, clerkship, or practicum experiences. This is a University of Minnesota Health Sciences requirement. A school/program or site may ask a student for proof of health insurance while participating in their AP, clerkship, or practicum experience. If the student cannot provide proof of health insurance, indicating they are not in compliance with this requirement, they will be pulled from the experience.

The complete policy can be found on the Health Sciences Education website.

6. GROUPS, ASSOCIATIONS AND SOCIETIES

6.1 STUDENT GROUPS

School of Public Health Student Senate sph.umn.edu/current/senate/

The Student Senate is composed of graduate students from within the School of Public Health: it strives to serve as a representative body for students in SPH. The Student Senate provides a voice for students and allows them to get involved in university government, plan social activities, network with departments, work with faculty, demonstrate leadership skills, assist student organizations in hosting school-wide events, and develop creative solutions to new challenges. Student Senate also provides various grants to students and SPH student groups.
Professional Student Government

The professional student governance on the Twin Cities campus of the University of Minnesota rests with the Professional Student Government (PSG). All currently registered professional students at the University of Minnesota are members of PSG.

PSG represents and serves students in the Carlson School of Management, Law School, Medical School, Dental School, School of Nursing, College of Pharmacy, School of Public Health, College of Veterinary Medicine, College of Education and Human Development, and Humphrey School of Public Affairs. PSG is a resource for its 10-member Councils, the primary contact point for administrative units, a professional student policy-making and policy-influencing body, and as a center of inter- and intra-collegiate interaction among professional students.

Council of Graduate Students (COGS)

The Council of Graduate Students (COGS) is the official student governing board of the Graduate School, representing all Graduate Students at the U of M. The U administration looks to COGS for consultation and direction on all matters pertaining to the Graduate School experience, including Graduate Assistant issues.

Center for Health Interdisciplinary Programs (CHIP)

The Center for Health Interdisciplinary Programs (CHIP) is a department of the Office of Education in the Health Sciences Senior Vice President’s Office. The CHIP Student Center serves all Health Sciences students. CHIP exists to foster interdisciplinary relationships and teamwork between Health Sciences students. CHIP provides educational, leadership, and service opportunities for students.

Minnesota International Student Association (MISA)

The Minnesota International Student Association (MISA) is a non-profit organization that aims at working in the interest of international students at the University of Minnesota. MISA represents the international community of the University of Minnesota Campus. There are over 6000 international students on this campus, whose length of stay varies from three months to several years. MISA plays a vibrant role in students’ social lives, by being the forum for international students on the U of M campus and by organizing events throughout the year.

Other Groups

SPH is home to a number of student organizations. Some are registered campus groups and others are more focused on a division or program. In addition, there are more than 900 student groups on campus registered with the University’s Student Unions and Activities Office, including academic societies, cultural centers, sports clubs, political action groups and fraternities and sororities. These organizations provide students with endless involvement opportunities and the chance to interact with others who share a similar interest.

If you want to know more about current SPH groups or are interested in forming a group within the School of Public Health, please contact sph-ask@umn.edu.

6.2 Public Health Related Associations and Agencies

American College of Healthcare Executives

The American College of Healthcare Executives is an international professional society of more than 30,000 healthcare executives who lead hospitals, healthcare systems and other healthcare organizations.

American Public Health Association

The American Public Health Association (APHA) is the oldest and largest organization of public health professionals in the world, representing more than 50,000 members from over 50 occupations of public health.

Association of Schools and Programs of Public Health

The Association of Schools and Programs of Public Health (ASPPH) is the only national organization representing the deans, faculty, and students of the accredited member schools of public health and other programs seeking accreditation as schools of public health.

Centers for Disease Control and Prevention

The Centers for Disease Control and Prevention (CDC) is recognized as the lead federal agency for protecting the health and safety of people - at home and abroad, providing credible information to enhance health decisions, and promoting health through strong partnerships. CDC serves as the national focus for developing and applying disease prevention and control, environmental health, and health promotion and education activities designed to improve the health of the people of the United States.
6.3 Alumni Societies

School of Public Health Alumni Society [https://www.sph.umn.edu/alumni/sph-alumni-society/]

The University of Minnesota School of Public Health Alumni Society has members around the world. Consisting of 12,000+ alumni, the SPH Alumni Society plays a key role in the School and public health community as they continue to shape public health policy, conduct ground-breaking research, lead innovative public health solutions and contribute to the future of public health.

Since its inception in 1982, the School of Public Health Alumni Society has worked to serve alumni and students, promote excellence in programs and serve the needs of the School. Membership is automatically conferred upon all graduates, former students who have completed a minimum of 12-18 credits, faculty and administrators of the school.

The SPH Alumni Society is committed to building relationships with students through various activities, including the SPH Mentor Program, partnering with SPH Student Senate, and bringing alumni to students to provide professional development opportunities to students.

MHA Alumni Association [sph.umn.edu/alumni/mha/]

The Minnesota MHA Alumni Association was established in 1948 to facilitate ongoing support of the Healthcare Administration program and to continue fellowship among alumni. With 3200+ alumni members, the Association supports MHA students through scholarships, professional connections, and learning opportunities, and strives to provide MHA alumni with ongoing opportunities for education, engagement and philanthropy.

7. Executive and Dual Degrees Programs in Public Health Practice

7.1 Introduction and Overview

We trust that this guidebook will answer your questions and provide practical information through which you can successfully complete the Master of Public Health (MPH) degree. Please feel free to contact the Director of the Program and Chair of Public Health Practice, Jeff Bender or the Program Coordinator, Kate Hanson at (612) 626-7353, at hanso041@umn.edu with any questions or concerns.

The Executive and Dual Degrees Programs in Public Health Practice are located in the Public Health Practice Program in the School of Public Health. All programs have a hybrid of online and in-class courses. For Public Health
Practice students there is an online orientation available. Public Health Practice is responsible for the following programs:

- Executive Program in Public Health Practice
- Master of Public Policy and MPH Dual Degree
- Master of Urban and Regional Planning and MPH Dual Degree
- Juris Doctor and MPH Dual Degree
- Doctor of Dental Surgery and MPH Dual Degree
- Doctor of Nursing Practice and MPH Dual Degree
- Doctor of Pharmacy and MPH Dual Degree
- Doctor of Medicine and MPH Dual Degree
- Doctor of Veterinary Medicine and MPH Dual Degree
- Public Health Core Concepts Certificate
- American Indian Public Health Certificate

Overview and Goals

The purpose of the Executive and Dual Degree Programs in Public Health Practice is to provide you with an innovative and flexible curriculum that will enable you to achieve your career goals. In addition to obtaining a basic knowledge in Public Health through course work in areas such as Biostatistics, Social and Behavior Science, Ethics, Epidemiology, Environmental Health, Foundations, and Administration, you will choose electives based on your own specific academic and career goals.

Executive and Dual Degree Students

There are over two hundred students enrolled in the Executive and Dual Degree Programs in Public Health Practice, all of whom have advanced graduate/professional degrees, have successfully completed the Public Health Core Concept Certificate, or are enrolled as a dual degree student. The educational backgrounds of our students include the disciplines of education, law, medicine, nutrition, pharmacy, public health, psychology, dentistry, chiropractic, and veterinary medicine. The career goals of our students are truly diverse, but all of our students share a common value and that is to make a significant impact on the health of the public.

Faculty Perspective on Public Health

School of Public Health Faculty see public health as a broad social movement that seeks to impact the health of large populations in innovative ways. This calls for leadership skills through which the health of the public can be improved through education, engineering, and enforcement strategies. Public Health is unique in its interdisciplinary approach and its emphasis on preventive strategies, and its linkages with government, private, and voluntary organizations. One of the things you will discover in the curriculum is a belief that if major public health problems are to be solved, it will take a coordinated, team approach in which the skills of every discipline are valued and employed.

Curriculum Requirements

If you have the flexibility to take a full-time course load, it is possible to complete the curriculum in approximately two or three terms. Most students, however, pursue their studies on a part-time basis and complete the program in three to four years. You have up to five years to complete the program.

At least 16 of the 42 credits of the program can be completed online. The School of Public Health offers a wide listing of elective courses during a concentrated three week Public Health Institute offered every spring, during the May session, usually the last week in May and first two weeks in June. Attendance at Public Health Institutes and participation in online classes allows you to simultaneously continue with your work and your student responsibilities.

Students must complete credit requirements with a minimum of 42 credits. In consultation with an adviser, students may be allowed to transfer credits from outside institutions or other programs within the University. For more information regarding the policy and procedure on course transfer, refer to section 3.4, page 23.

7.2 PROGRAM INFORMATION AND COURSEWORK

The program curriculum has four components: Public Health Practice Core, electives, applied practice (AP), and integrated learning experiences (ILE). Students are required to fulfill the 22 MPH foundational credits and 5 Public Health Practice program-specific competencies.
The MPH core curriculum fulfills the 22 required MPH foundation competencies as established by Council on Education for Public Health (CEPH) and the 5 Public Health Practice Program-specific are fulfilled through the applied practice and integrated learning experiences or elective courses.

REFER TO APPENDIX A for MPH competencies

**MPH PHP Curriculum 1 of 4: Public Health Core Curriculum**

The core curriculum (18-24 credits) incorporates the core areas of public health instruction: foundations of public health, biostatistics with programming, epidemiology, environmental health, administration, ethics, social/behavioral sciences, applied practice, and integrated learning experiences. It focuses on the knowledge, skills, and attitudes necessary in each of these areas of fundamental public health competencies needed to understand, assess, evaluate, and manage population health in the community.

**Public Health Medicine students are also required to complete:**

| PubH 6210 | Public Health Medicine Seminar or equivalent                          | 1       |
| PubH 6724 | PubH 6724  The Health Care System and Public Health                  | 3       |

* Students may petition out of PubH 6250 if they can demonstrate foundational knowledge in public health (a broad introduction to public health) by documenting a prior master's or bachelor's level degree or minor in public health. Submit petition, documentation and transcript to Program Coordinator for processing.

+ At least 1 cr is requirement and 1 cr = 40 hours in a public health setting or effort.

**Programming Requirements**

^ Note: PubH 6414 Biostatistical Literacy has the primary goal of developing student ability to read and interpret statistical results in the primary literature of their specific scientific field of interest. This course will involve minimal calculation and offers no formal training in any statistical programming software. Biostatistical Literacy will cover the fundamental concepts of study design, descriptive statistics, hypothesis testing, confidence intervals, odds ratios, relative risks, adjusted models in multiple linear, logistic, and Poisson regression, and survival analysis. The focus will be when to use a given method and how to interpret the results, not the actual computation or computer programming to obtain results from raw data. If you take PubH 6414, you will also need to take a programming course. You are required to take the programming course for a grade, A/F. The options are:

- PubH 6107 Excel and Access in PH Settings (1 cr)
- PubH 6123 Violence Prevention & Control: Theory, Research, & Application (2 cr)
- PubH 6325 Data Processing PC-SAS (1 cr)
- PubH 6420 Intro to SAS Programming (1 cr)
- PubH 6470 SAS Procedures and Data Analysis (3 cr)
- PubH 6755 Planning and Budgeting in Public Health (2 cr)
- PubH 6813 Managing Electronic Health Information (2 cr)
- PubH 6845 Using Demographic Data for Policy Analysis, (3 cr)
- PubH 7200 Fundamentals Exploring and Visualizing Data in R (1 cr)
- PubH 7461 Exploring and Visualizing Data in R (2 cr)

Note: This list is not inclusive.

If you prefer more in-depth biostatistics knowledge, you can register for PubH 6450 Biostatistics I and/or PubH 6451 Biostatistics II, which includes statistical programing and calculations, so another programming course is not required.

To review a guide regarding which biostatistics course is right for you, check out sph.umn.edu/academics/divisions/biostatistics/courseintro/.

**MPH PHP Curriculum 2 of 4: electives (18 – 24 cr)**

The elective credits allow you the opportunity to investigate specific public health issues and/or explore various areas of public health based on your interest and career goals.

There are three methods to complete electives:

- Public Health Institute offered during the May session.
- SPH electives offered by other Division during the fall, spring and/or summer term. Some electives are offered online and others are offered in-person.
- If you are dual degree student, use approved elective courses from your primary degree program.

You may fulfill the PHP program-specific competencies with your applied practice and integrated learning experiences or take a course that is listed under that PHP program-specific competency.

**Which elective?**

When you applied to the MPH program, you were asked to define your career goals. Some students have precise plans as to the elective topics in which they wish to concentrate; others are more generalized. However, for your MPH program to have the most meaning, it is encouraged that you have a focus area that relates directly to your educational and career goals.

**How do you sharpen your focus area so that it has relevance to your educational program?**

1. Re-read the letter of intent you wrote when you applied to this program.

2. Check out elective courses offered at other schools at the University, for example: Hubert H. Humphrey School of Public Affairs, Center for Spirituality and Health, College of Veterinary Medicine.

3. Below is advise from EPPHP and Dual degree alumni:
   - Take some courses that are outside your usual area of interest
   - Know your skill set and build or add to it.
   - Network! Get out there and do as many informational interviews as possible. That is how I found my niche.
   - Try to attend as many campus classes as possible – the interaction and discussions are informing and terrific.
   - Take a variety of electives to explore the many aspects of public health and to find the aspects that you love.
   - Make the most the summer public health institute. The ability to discuss public health concepts with people from diverse disciplines allows for innovative and collaborative solutions to complex health problems.

If at any point in your studies your educational expectations are not being achieved, please discuss your concerns with the Director of the Dual & Executive Program, Dr. Jeff Bender.

Public Health Medicine Students are required to get approval from Dr. William Lohman regarding their choice of elective courses.

**MPH PHP Curriculum 3 of 4: Applied Practice Experience**

The Applied Practice Experience (AP) is a hands-on opportunity to implement your public health knowledge and skills in a real world setting with the goal of demonstrating comprehension of the five public health competencies. The PHP AP provides you with a means of gaining additional insight into public health agencies/programs, personnel management, governmental relations, public relations, legislative support, and knowledge of special investigations conducted by these organizations. Participation in the activities of public health practice programs external to the University add a dimension of experience to the curriculum that enriches your training and may be beneficial in seeking employment.
Students are required to produce two products that addresses at least five competencies from their AP. At least three must be foundational competencies and the others can be PHP program-specific competencies.

To review the public health practice competencies, refer to section 7.5.

For dual degree students, an applied practice experience can meet the curriculum requirements of both of your degree programs. As a dual degree student, you are required to complete the SPH AP online agreement, get your SPH academic adviser approval and produce two products.

Consult with your advisors when setting up your applied practice experience and complete the online AP agreement prior to starting the experience.

Public Health Medicine students usually complete the AP as part of the coursework for PubH 6210.

What is the online Applied Practice agreement?

Before beginning an AP, the online applied practice learning agreement online module must be completed. The applied practice agreement is located on sph.umn.edu/current/applied-practice/ the preceptor, your academic advisor, and the coordinator must electronically approve the applied practice agreement. Complete the applied practice agreement as soon as arrangements are settled. To avoid misunderstandings concerning expectations on the part of people involved, please document which competencies you will be fulfilling, as it allows you to submit your two products for review.

The applied practice agreement includes:

- Name of the organization, preceptor and the dates and hours.
- Types of activities that you are proposing to conduct
- Specific foundational and program-specific competencies the AP that will be addressed.
- Means to upload the specific products that will result from this AP.
- Submit an online AP evaluation at the conclusion of the AP. The preceptor may also submit an online AP evaluation at the conclusion of the AP.

What are some AP options?

- Co-curricular activities
- University-affiliated settings: focused on community engagement, typically with external partners
- University health promotion or wellness center may also be appropriate
- Practicum or internship, etc.
- AP designated course

What cannot be an AP?

- Mission trips
- Clinical work
- Data analysis, data entry, manuscripts, or case study work for a faculty member’s research project
- Prior work/volunteer activities or coursework that begins before the applied practice agreement is approved

When should the AP be completed?

It is recommended that you complete the core curriculum before starting an AP. The AP may be completed in a concentrated block of time or spread throughout your enrollment.

How many credits is the AP?

All MPH Dual & Executive students are required to complete at least 1 credit of AP and have the option to complete up to 4 credits in order to graduate. If you decide to complete less than 4 credits of AP, you will need to take additional elective credits. 1 cr AP = 40 hours of experience.

How do I register for AP credit?

Students register for the AP credits for the term when the AP will take place.

To register, contact the Program Coordinator for the proper five digit class number. The online AP agreement must be complete before beginning the AP.

Grading of AP

The grading of the AP is on a pass/fail basis. Your academic advisor will submit an S/N grade after they have accepted your submitted AP products and your evaluation.

International AP
International AP requires a release and waiver form, international health insurance, and other forms. The forms are available on the AP website and must be completed before leaving the U.S. Please allow yourself plenty of time to get all the paperwork processed. To familiarize yourself with student expectations and definitions while abroad, visit the Student Travel and Education Abroad: Health and Safety Policy and reach out to the SPH international applied practice coordinator, Mercedes Taneja at estra021@umn.edu.

How do I demonstrate attainment of the competencies?
Students must create two products that demonstrate attainment of five competencies as part of the AP. At least three must be foundational competencies and the others can be PHP program-specific competencies. You will upload the products to your AP electronic agreement for your advisor to review.

What is an AP product?
AP products must benefit both the practice site and the student.

Product examples include, but not limited to:
- journal entries that document activities that demonstrate practice or application of a competency
- completed tests
- written assignments
- brochure
- flyer
- training manual
- policy brief
- videos
- multi-media presentations
- spreadsheets
- grant proposals
- budgets
- site-specific reports
- health promotion materials
- training course curriculum
- program evaluation reports
- surveys
- websites
- posters
- photos
- other digital artifacts of learning

Examples of Acceptable AP:
- Under the supervision of the course instructor and by request of a small beach community students went out into the field and conducted a community needs assessment and then wrote a report that included recommendations.
- From a state that recently legalized Marijuana, a student interned in the state health department and created a guidance document and policy statement regarding edibles.
- Another service learning activity through a health promotion course was to create an evaluation plan for a state-funded teen pregnancy prevention program. Products included logic models and an evaluation plan. The evaluation plan was a request form the teen pregnancy prevention program.
- One student interned at a state health department in the infectious disease division and created an electronic toolkit for healthcare providers regarding needle and injection safety.

Unacceptable AP:
- Helping a faculty conduct research for the faculty’s own publication (with no interaction from a community site)
- Writing a paper on the student’s practice experience
- Writing a reflection paper about competencies learned during the practice experience
- Simulations or case studies

Can I get paid for my AP?
Yes, students may conduct their AP on a paid or volunteer basis.

Can I use my place of employment for my AP?
Yes, the AP can be completed at your current workplace, if applicable, but it must begin after the applied practice agreement is approved. In other words, the student can complete an AP at the student’s workplace, but the prior work experience does not count.
Who reviews the products?

Your academic advisor will evaluate the two products and submit the final grade for the AP.

Selection of AP placement

Although most students will select one site to fulfill their AP requirements, some students may select more than one site to fulfill their total requirements. The responsibility of arranging for the AP rests with the student although there are a number of resources available to help students select an appropriate placement and activity. Resources for AP placement sites include the student's academic advisor or other faculty members with content expertise in a certain area, and students and staff. The School of Public Health also has a number of resources, including listings of past applied practice experiences.

Examples of acceptable placements include: the Minnesota Department of Health or other governmental agencies, non-profits, community organizations, and health care organizations. Some students may elect to do their AP abroad. University of Minnesota-affiliated settings may be acceptable if there is a community engagement or community health promotion component.

In selecting a potential site, you should consider the following questions:

- Is this a public health practice setting?
- Can you tie this activity to foundational or program-specific competencies?
- Can you identify two products that address the competencies and are beneficial to the site?

Can I complete the ILE with the AP?

Some students may find certain aspects of the applied practice experience sufficiently interesting to do an Integrated Learning Experience (ILE) while completing the AP. The AP and ILE should represent separate activities, although they may be related. The ILE should involve more independent work than the AP. For example, students who prepare a protocol or survey for their AP can analyze results of their survey for the ILE. Students may work on a certain activity at a site, such as the Minnesota Department of Health, for their AP and different activity at the same site for their ILE.

- Student who use the same experience for both the AP and ILE must create products that meet the requirement are specific for the AP and the ILE.
- Students registered for AP and ILE credits separately.
- The products for the AP and ILE are different
  - For example, an AP product must be created as part of the experience and benefit the practice site (e.g., write an executive summary, a written procedure)
  - An ILE paper may be a written report on the experience or activities at the practice site, but the report does not need to be written as part of an activity or to benefit the practice site.

Do I have to have a criminal background check?

Students should be aware that Minnesota law may require certain facilities to conduct a criminal background check for all personnel with direct and/or unsupervised client contact. Facilities that are covered by this law include hospitals, boarding care homes, outpatient surgical centers, nursing homes, home care agencies, residential care homes, board/lodging establishments providing health supervision services, and work with minors. Students may be required to undergo a background check as well, depending on the agency or facility’s internal policies. The School of Public Health will assist students with these requirements; students should call the Student Services Center at (612)626-3500 or go to Room A-395 in the Mayo Memorial Building for assistance.

Below is a list of some of the organizations where Dual and Executive students have completed their AP:

- Minnesota Department of Health
- Thai Physician Association of America
- Wisconsin Department of Health Services- World Health Organization
- Grande Cheese, Wisconsin- Minnesota Board of Animal Health
- VHA Upper Midwest- Centers for Disease Control
- HomeStar Home Health
- Mayo Clinic, Rochester, MN
- USDA APHIS
- Infectious Disease Institute
- Wilder Research
- Ramsey County Public Health, St. Paul
- District 1 Community Council of St. Paul
- American Lung Association
- Department of Energy – National
MPH PHP Curriculum 4 or 4: Integrated Learning Experience

MPH students are required to complete an ILE that demonstrates synthesis of foundational and program-specific competencies.

The ILE is a written paper that demonstrates your proficiency with the written word and is appropriate for your educational and professional objectives. The ILE paper is a concise, logical, well-developed, and thoughtful piece that has gone through several rounds of review and revisions. Ideally, the written product is developed and delivered in a manner that is useful to external stakeholders, such as non-profit or governmental organizations.

The ILE must address at least three competencies that include both foundational and PHP program-specific competencies.

The ILE is a culminating experience that can take many forms including:

- Practice-based project
- Essay-based comprehensive exam
- Capstone course
- Integrative seminar
- Program evaluation report
- Training manual
- Policy statement
- Take-home comprehensive essay exam
- Legislative testimony with accompanying supporting research, etc.

The ILE may be group-based or an individual paper. In group-based experiences, the program documents that the experience provides opportunities for individualized assessment of outcomes.

The program identifies assessment methods to ensure that at least one faculty member reviews each student’s performance in the ILE and guarantees that the experience addresses the selected foundational and concentration-specific competencies. Faculty assessment may be supplemented with assessments from other qualified individuals, such as a preceptor.

Dual degree students will have opportunities to incorporate their learning from both degree programs in a unique integrated experience. The ILE may be arranged to the meet the criteria of both of degree programs. Since each dual degree program is unique, consult with your coordinator and advisers when deciding upon your integrated learning experience topic and receive approval from the SPH.

When should the ILE be completed?

The ILE is completed at or near the end of the program so you can utilize the entirety of your public health knowledge.

Does the ILE topic need to be approved before I submit it?

Your academic advisor must approve the ILE, please complete the form in the appendix.

How many credits is the ILE?

All MPH Dual & Executive students must complete an ILE of at least one credit and have the option to complete four credits in order to graduate. The requirements for a four credit ILE are listed below in the section titled, Options for 4 cr (160hr) ILE.

How do I register for ILE credit?

Students register for the ILE credits for the term it written. To register, call the Program Coordinator for the proper five digit class number.

Grading of ILE

The grading of the ILE is on a pass/fail basis. Your academic advisor will submit an S/N grade after they have accepted your submitted paper and your evaluation.

Can I complete the ILE with the AP?

Some students may find certain aspects of the applied practice experience sufficiently interesting to do an Integrated Learning Experience (ILE) while completing the AP. The AP and ILE should represent separate activities, although...
they may be related. The ILE should involve more independent work than the AP. For example, students who prepare a protocol or survey for their AP can analyze results of their survey for the ILE. Students may work on a certain activity at a site, such as the Minnesota Department of Health, for their AP and different activity at the same site for their ILE.

- Student who use the same experience for both the AP and ILE must create products that meet the requirement are specific for the AP and the ILE.
- Students registered for AP and ILE credits separately.
- The products for the AP and ILE are different
  - For example, an AP product must be created as part of the experience and benefit the practice site (e.g., write an executive summary, a written procedure)
  - An ILE paper may be a written report on the experience or activities at the practice site, but the report does not need to be written as part of an activity or to benefit the practice site.

**ILE Topic and Approval Process**

The student and the academic advisor decide how the integrated learning experience requirement will be met. You are responsible for consulting with and acquiring approval from the academic advisor to confirm that the integrated learning experience meets the requirements of your program.

Students must complete an ILE proposal form and get it approved by the ILE, academic advisor and/or director of the Executive and Dual Degrees. The proposal form is a guiding framework for the integrated learning experience and which competencies will be fulfilled.

The student must submit the integrated learning experience proposal (form found in Appendix) with the ILE paper to the academic advisor to review and approve. Then the academic advisor will submit a grade.

**Human Subjects Protections**

*Refer to the IRB information on page 30.*

**Options for a Four Credit Integrated Learning Experience**

The Four credit ILE is a traditional MPH project representing 160 hours of research and writing. A four credit ILE is typically around 40 pages in length and will cite 15-20 references. Students may choose to complete: a research paper, a systematic literature review, a consultative report, or write a grant proposal.

**Option One: Research Paper**

The Research Paper will focus on pertinent questions or issues in public health practice. This MPH culminating experience option provides students with an opportunity to apply research skills to pertinent issues and questions under faculty supervision.

The component parts of a Research Paper are as follows:

I. Abstract
   
II. Introduction
   A. Purpose of the study
   B. Statement of the problem and its significance (historical background)
   C. Review and synthesis of relevant literature (extent of written review dependent on nature of project)
      1. Statement of conceptual framework, hypotheses and/or focused research questions, and the underlying rationale for each
   
III. Methodology
   A. Study design
   B. Sample selection and description of sample characteristics - including nature of response and non-response, as appropriate
   C. Description of data/information collection procedures, study site and instrumentation, as appropriate
   D. Analytic technique used - quantitative, analytical techniques to be used

IV. Results (only the facts) - presentation and analysis of data/information

V. Discussion
   A. Study limitations – e.g. methods, data, conceptualization, bias (what types?)

VI. Consistency with prior research

VII. Conclusions and recommended actions

VIII. References (APA reference style or appropriate alternative)

IX. Tables

X. Figures

XI. Appendices
   A. Data collection instruments and letters
   B. Institutional Review Board permission (as appropriate)
A Master's Project resulting in a research paper may involve the collection of primary data by the student. A Master's Project can be completed through secondary analysis of data as well. Projects may be undertaken in conjunction with ongoing faculty research, a student's class, or be carried out in conjunction with an AP. Doing research at the experience site allows the student to systematically investigate issues or problems that are of direct relevance to their AP organization. However, this option must be discussed and approved by the Academic Advisor and Preceptor early in the practicum experience and before beginning the Master's Project itself.

Option Two: Systematic Literature Review

The Systematic Literature Review will focus on pertinent questions or issues in public health practice. This MPH culminating experience option provides students with an opportunity to apply analytical skills in the synthesis and interpretation of the literature under faculty supervision.

The component parts of a Systematic Literature Review are as follows:

I. Abstract
II. Introduction
   A. Statement of the problem and its significance (historical background)
   B. Statement of focused research questions and the underlying rationale for each
III. Conceptual framework: The conceptual framework section should be a short section describing the body of literature on your topic and what “framework” you used for deciding what broad categories of articles you chose to include. How did you and your collaborators decide which papers were appropriate for the review?
IV. Methodology (how is the search of the literature being conducted)
   A. Locating and selecting studies
      1. Search methodology
      2. Selection criteria
   B. Quality assessment of studies
      1. Evaluation of study designs
      2. Evaluation of study data
      3. Evaluation of study results
   C. Data extraction from the studies
      1. Outcomes evaluated
      2. Data extraction protocol
      3. Data extraction method
   D. Data synthesis from studies - analytic techniques (quantitative, qualitative)
V. Results
   A. Studies selected
   B. Quality of studies
   C. Findings of studies
   D. Synthesis of findings
   E. Assessment of biases
   F. Limitations
VI. Conclusions and recommendations - significance to the field of public health
VII. References (APA reference style or appropriate alternative)

A Master's Project resulting in a Systematic Literature Review can be undertaken in conjunction with a faculty research project, student's class, or be carried out in conjunction with an AP. Doing synthesis and analysis of the literature at the placement site can create the opportunity for the student to investigate issues or problems that are of direct relevance to his/her AP organization. However, this option must be discussed and approved by the Academic Advisor and Preceptor early in the practicum experience and before beginning the Master's Project itself.

Option Three: Consultative Report

The Consultative Report offers students the opportunity to address real issues faced by public health agencies and produce a product for a real client. By necessity, students who choose this option will need to work closely with a community adviser as well as their SPH advisers. The student will perform a consultation for the agency and then write the Consultative Report. This option may emanate from an AP or it may be separate. Production of a Consultative Report will most often involve components of options one and two.

The component parts of a Consultative Report are as follows:

I. Executive Summary
II. Introduction
   A. Description of the agency (purpose, structure, etc.)
   B. Description of the problem being addressed and its public health implications
III. Process of Consultation
A. Engage with the client and carefully define the problem including the questioning of assumptions
B. Identification of the key stakeholders
C. Describe your sources of information and data – e.g. literature, primary data collection, secondary data analysis, surveys, interviews
D. Collection, summary, and analysis of data
E. Discussion – including a limited literature review for information relevant to the problem
F. Recommended actions and dissemination of these recommendations
G. Feedback of results
H. Plans for implementation and measurement

IV. References (APA reference style or appropriate alternative)

Sources of Guidance for a Consultative Report

The Executive Guide provides a helpful framework for this type of MPH project, however the Schein paper may help both you and your consultative report project advisor in setting goals, objectives and procedures for a successful consultative report.

Block, Peter. Flawless Consulting: A Guide to Getting Your Expertise Used. 2000. Block points out that there are three skills needed for consulting – technical, interpersonal, and consulting. He then goes on to describe the consulting skills in detail.

Schein, Edgar. Process Consultation Revisited: Building the Helping Relationship. 1998. This book is most helpful when the consultation is focused on a specific process.

Option Four: Grant Proposal

Students may have the opportunity to work with a faculty member or outside collaborator in applying for a research grant to explore a public health topic. Learning how to write a successful grant application is a very important skill to possess in the practice of public health. Ideally, such proposals, if funded, may provide additional project opportunities for subsequent MPH students.

The grant proposal should be substantial enough in content that the student has the opportunity to explore the topic to a similar depth of that required for a research paper or literature review. A grant proposal, such as those submitted to the NIH, would be appropriate. Ultimate approval of this project option is subject to the program director.

The components of a grant proposal include the following:

I. Introduction
II. Research Plan
III. Specific aims (endpoints)
IV. Background and significance
   A. significance to increasing scientific knowledge
   B. significance to improving public health
   C. review of relevant literature
V. Preliminary studies
   A. provide preliminary data if available
   B. critically interpret preliminary results and relate to current proposal
VI. Research design and methods
   A. description of research and study design
   B. detailed description of methods for work and analysis
   C. include charts and tables when appropriate
   D. discuss alternatives and handling of negative data
   E. Special Considerations
VII. Human subjects research
VIII. Animal care and use
IX. Contractual agreements
X. Consultancies
   A. Budget
   B. Bibliography and References
   C. Biographical sketches
   D. Supplemental discussion of public health implications
   E. References (APA reference style or appropriate alternative)
XI. Some variation is to be expected depending on the funding agency
XII. If you realize you need help with statistics, you may contact the U of M Department of Statistics. Tutors are available to hire. stat.umn.edu/, click consulting services.

Completion of a Four Credit ILE

Once the student has completed the first draft of the project, it should be submitted to the ILE adviser for review and feedback, to be incorporated into the final draft of the project. A crucial aspect of the project is to describe the public health implications of the project and identify the competencies in terms that are understandable to individuals outside of the field.

A student desiring publication of the ILE should discuss this with the advisor. ILE written in publication format meets the program requirements with prior academic advisor approval and is does NOT have to be a published article.

After successful completion, the ILE advisor will enter the grade. The ILE final version must be submitted electronically to the PHP Program Office. No grade will be assigned for PubH 7294 until students has complied with this request. Students are not required to present their 4 cr ILE.

Four Credit Integrated Learning Experience Checklist

☐ Register for ILE credits - contact the Program Coordinator to obtain registration instructions and the proper five digit class number.

☐ Decide on the type of project and the topic/issue/research question for your project.

☐ Identify the three competencies (can be both foundational and program-specific

☐ Find and identify a project adviser, can be a faculty or community expert.

☐ Complete the ILT project proposal form.

☐ Submit the completed ILE proposal form to your project adviser for approval, and then send it to your coordinator.

☐ Work closely with your ILE advisor throughout the project, submit the first draft to them for feedback and incorporate any edits.

☐ Once your academic advisor approves your ILE, you will receive a grade for PubH 7294. Submit a copy of the final project and ILE proposal form to Kate Hanson at hanso014@umn.edu for the file.

Note: The checklist is in relative chronological order, but some steps can be done out of sequence.

7.3 PROGRAM REQUIREMENT AND POLICIES

MPH Study Plan

Students are required to submit a completed Master of Public Health (MPH) Study Plan to Kate Hanson, PHP coordinator at least one semester prior to their anticipated completion of the degree. Earlier submission, such as in the second to last semester, is suggested to allow Kate to review the study plan and notify students if they are missing any requirements prior to their last term of study. There is a fillable MPH study plan form available. This form is being changed, please check with Kate.

Application for Degree – REQUIRED TO GRADUATE

MPH students are REQUIRED to complete an Application for Degree form. The University of Minnesota will NOT post the degree until they have received this form. The School of Public Health graduates students monthly, not at the end of each term. There are strict deadline dates before a student can be cleared for graduation. The Application for Degree form is completed online. Go to MyU> Academics> Degree Progress> Apply to Graduate. Students must be “activated” in the system to have access to the application for degree form. If it is not present on your MyU, please contact Kate Hanson for assistance.

Career Survey - REQUIRED TO GRADUATE

MPH students are REQUIRED to complete the Career Survey before their MPH degree will be cleared for graduation. To complete the SPH Career survey go to https://umn.qualtrics.com/jfe/form/SV_doRfMjgZueRCpNP
### Public Health Practice Resources

**Academic Advising**
For academic advising, refer to section 1.9, page 9.

### Graduation Checklist

- **Turn in your Study Plan** if you have not already done so. This form is available from your Coordinator.
- **Complete the Application for degree form online.**
  
  Go to MyU> Academics> Degree Progress> Apply to Graduate.
  
  Note: Indicating the graduation month
  
  You will only be able to select the term (fall, spring, summer) that you wish to graduate rather than the month and year. All Applications for Degree must be submitted by the first day of the month that you would like to graduate (e.g., May 2-June 1 for a June graduation).
  
  The system requires you to “activate” to have access to the application for degree form online, so if you are not seeing this option, please contact Kate Hanson for assistance.
- **Updating personal information**
  
  Prior to completing the Application for Degree, check your name and address (confirm the name, since it will be printed on your diploma and the mailing address for the diploma.) Go to MyU> My Info tab.
Check your transcript to make sure your grades are posted. A grade of “K” is not a final grade so if you see this grade you should contact Kate Hanson.

Complete the Career Survey at https://umn.qualtrics.com/jfe/form/SV_doRfMjgZueRCpNP

Provide PHP Coordinator with an electronic copy of your ILE by e-mail.

Reminders

- Attend Grad Fair where you can order your Cap and Gown and meet with Financial Aid in March, Coffman Union
- Register for the yearly SPH May Commencement
  If you cannot attend, still register to get your name in the program.
- Update your contact info. so we can keep in touch
  onestop.umn.edu, click on personal information in right hand column
- Make an appointment with Career Services for a final review of your resume, interview practice or other job search guidance, Call (612)626-3500.
- Join the SPH Alumni Society
- Lifetime University email. Keep and use your U of MN email address. You can use your U of M email address for personal or professional purposes even after you graduate. Imagine never having to subscribe to another e-mail. You must access your account at least once every 90 days through the Web Interface for the account to remain active.

Service includes full access to:

University Portal: https://www.myu.umn.edu/metadot/index.pl
Portfolio: https://portfolio.umn.edu/portfolio/index.jsp
APPENDIX A

MPH 22 Foundation Competencies
Established and Required from the Council on Education for Public Health (CEPH)
Effective Fall 2018

Note: The Foundations Competencies are met by completing the MPH core curriculum.

Evidence-based Approaches to Public Health
1. Apply epidemiological methods to the breadth of settings and situations in public health practice
2. Select quantitative and qualitative data collection methods appropriate for a given public health context
3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate
4. Interpret results of data analysis for public health research, policy or practice

Public Health & Health Care Systems
5. Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings
6. Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels

Planning & Management to Promote Health
7. Assess population needs, assets and capacities that affect communities' health
8. Apply awareness of cultural values and practices to the design or implementation of public health policies or programs
9. Design a population-based policy, program, project or intervention
10. Explain basic principles and tools of budget and resource management
11. Select methods to evaluate public health programs

Policy in Public Health
12. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence
13. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes
14. Advocate for political, social or economic policies and programs that will improve health in diverse populations
15. Evaluate policies for their impact on public health and health equity

Leadership
16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making
17. Apply negotiation and mediation skills to address organizational or community challenges

Communication
18. Select communication strategies for different audiences and sectors
19. Communicate audience-appropriate public health content, both in writing and through oral presentation
20. Describe the importance of cultural competence in communicating public health content

Interprofessional Practice
21. Perform effectively on interprofessional teams

Systems Thinking
22. Apply systems thinking tools to a public health issue
Public Health Practice Program-Specific Competencies

Effective Fall 2018

Public Health Practice competencies are based on the domains established by The Council of Linkages between Academia and Public Health Practice. The Council is a collaboration of twenty national organizations that aim to provide public health education and training, practice, and research to ensure a well-trained, competent workforce for the development and use of a strong evidence base for public health practice.

http://www.phf.org

**Competency 1**: Identify the rational and key steps for policy development: assessment, planning, implementing, advocacy and evaluation.

Policy Development/Program Planning skills focus on determining needed policies and programs; advocating for policies and programs; planning, implementing, and evaluating policies and programs; developing and implementing strategies for continuous quality improvement; and developing and implementing community health improvement plans and strategic plans.

**Competency 2**: Develop skills in systemic thinking and understand how systems are connected and interdependent, and understand the potential consequences that systems may have on communities.

Systems Thinking and Leadership skills focus on incorporating ethical standards into the organization; creating opportunities for collaboration among public health, health care, and other organizations; mentoring personnel; adjusting practice to address changing needs and environment; ensuring continuous quality improvement; managing organizational change; and advocating for the role of governmental public.

**Competency 3**: Explain the effects of policies, programs, community-based interventions that promote improving health for different populations in communities.

Cultural Competency skills focus on understanding and responding to diverse needs, assessing organizational cultural diversity and competence, assessing effects of policies and programs on different populations, and taking action to support a diverse public health workforce.

**Competency 4**: Demonstrate how to turn data into information and action to influence public health policies and programs.

Analytical/Assessment skills focus on identifying and understanding data, turning data into information for action, assessing needs and assets to address community health needs, developing community health assessments, and using evidence for decision-making.

**Competency 5**: Demonstrate how data and information is developed and conveyed to different audiences (professionals and the public) using a variety of media approaches.

Communication skills focus on assessing and addressing population literacy; soliciting and using community input; communicating data and information; facilitating communications; and communicating the roles of government, health care, and others.
Public Health Practice Faculty and Staff

Veterinary Epidemiologist, Section Head, Veterinary Public Health, Veterinary Population Medicine (VPM)  

Michael J. Westerhaus MD, MA  
Assistant Professor, Department of Medicine  
michael.j.westerhaus@healthpartners.com  
Global Health Pathway Faculty  
Global health, community based primary care delivery
APPENDIX D

Cover Sheet for Integrated Learning Experience
Executive and Dual Degree Students

Student Name _________________________________________ Date ________________________

ILE paper title or course title _______________________________________________________________

Academic Adviser approved ILE proposal □ Date _______________________

Academic Adviser approved final paper □ Date _______________________

Please refer to the student guidebook for detail information on requirements and competencies.

Check the Program you are in:
☐ Executive Program in Public Health Practice ☐ Pharm D, PharmD/MPH
☐ Dentistry, DDS/MPH ☐ Public Policy, MPP/MPH
☐ Dr of Nursing Practice, DNP/MPH ☐ Urban and Regional Planning, MURP/MPH
☐ Law, JD/MPH

1. What is the public health relevance of the project you are proposing?

2. Briefly list your objectives for the project.

3. Which 3 competencies (from the 22 foundation and 5 public health practice) are you planning to address in the ILE paper?

If you are planning to complete a 3 or 4 cr ILE (at least a 25 page paper with 10-20 references) complete this section.
Refer to page 46, section Options for a 4 cr (160 hours) ILE

1. Check the type of project:
☐ For Research Paper: State the key research question(s) and hypotheses
☐ For Grant Proposal: List the specific request for proposal and what entity grant will be submitted to
☐ For Consultative Report: Description of the agency you are consulting with and the question or need being addressed
☐ For Literature Review: What is the public health question or issue reviewed?

2. What is the public health relevance of the 4 cr ILE?

3. Briefly list your objectives for the project.

4. Briefly describe the project’s methodology.

5. Which 3 competencies (from the 22 foundation and 5 public health practice) are you planning to address in the ILE.
