STUDENT GUIDEBOOK
Welcome to the University of Minnesota School of Public Health!

This guidebook contains important information about SPH and University policies and resources that enable students to better navigate their academic journey and get the most out of their student experience. By combining this Guidebook with your program-specific Student Guidebook you will have a comprehensive reference that will answer most questions about academics, the University environment, policies, expectations, and the many resources available to students. Please note that this guidebook augments and is not a substitute for other sources of information. There are many additional resources available to graduate students that are listed throughout this handbook.

Refer to your Guidebook to ensure that you are informed of the essentials of student life but remember that your University-assigned student email account is the School's official means of communication. You are responsible for managing all information sent via the student email account.

All advising faculty have access to this guidebook. Please work with your adviser when making important decisions relating to your program.

Links to many policies and procedures can be found by clicking on the “Current Students” link at sph.umn.edu/current/resources/.

The University of Minnesota is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, color, creed, religion, national origin, sex, age, marital status, disability, public assistance status, veteran status, or sexual orientation.

This publication can be made available in alternative formats for people with disabilities. Direct requests to the Student Services Center, School of Public Health, MMC 819 Mayo, 420 Delaware Street SE, Minneapolis, MN 55455; (612)626-3500 or (800)774-8636.

1. THE SCHOOL OF PUBLIC HEALTH

1.1 ABOUT THE SCHOOL

Through excellence in education, research, and community engagement, the University of Minnesota School of Public Health advances health, from scientific discovery to public impact, by enhancing population health and preventing disease in the United States and globally.

In 1874, Charles Hewitt, the secretary of the Minnesota State Board of Health, began offering a class at the University of Minnesota covering topics in personal and community hygiene, epidemic diseases, and physiology. In the following decades, various University departments created programs in public health disciplines, such as biostatistics, environmental health, and epidemiology. In 1944, the University brought all these activities together under one roof and created the School of Public Health.

Today, our school, ranked #9 in the nation, serves more than 1,600 students to help meet the increasing demand for a public health workforce. We were the first in the country to grant a master’s degree in hospital administration, establish a doctoral program in epidemiology, and, in 1950, launch a graduate program in maternal and child health.

At the School of Public Health, we leave no stone unturned as we tackle the world’s most critical public health problems. Our faculty, staff, and students bring innovative thinking and concrete action to emerging and persistent challenges, including structural racism, gun violence, our expanding aging population, and a changing climate. As one of the premier schools of public health in the world, we prepare some of the most influential leaders in the field, and provide the knowledge health departments, communities, and policymakers need to make the best decisions about population health.

Proven Impact — our research has led to:
- Minnesota’s first report card for quality of life in nursing homes
- Fully accessible buildings for people with disabilities
- The first comprehensive definition of childhood abuse and neglect
- Restrictions of tanning bed use by people 18 years of age and younger
- Legislation to cover doula care through Medicaid
- Life-saving treatment protocols for HIV-positive people
- A nationwide model to track foodborne illness outbreaks
- A standard for reading ECGs in a universally acceptable way
- A model to predict probability of complications from radiation therapy.

For a listing of faculty, research and specialties refer to www.directory.sph.umn.edu

Academic Health Center

University of Minnesota health sciences form one of the largest, most comprehensive academic health centers in the nation. The Academic Health Center (AHC) is home to six colleges and schools (including the School of Public Health), more than 150 centers and institutes, and hospitals and clinics. About 70 percent of Minnesota’s health care providers received their training at the University of Minnesota.

The School of Public Health is one of only three schools of public health nationwide with the support structure of an academic health center. This means that our health professionals and students work and learn together and take a skilled systems approach to some of the top health issues facing the world today. Doctors train with pharmacists, public health workers partner with veterinarians, and nurses collaborate with dentists.

Accreditation

The School of Public Health is accredited by the Council on Education and Public Health (CEPH). The benefits of accreditation are many ceph.org/constituents/students/benefits-of-accreditation/. CEPH accreditation serves multiple purposes for different constituents. In general, specialized accreditation attests to the quality of an educational program that prepares for entry into a recognized profession.

- For the public, accreditation promotes the health, safety and welfare of society by assuring competent public health professionals.
- For prospective students and their parents, accreditation serves a consumer protection purpose. It provides assurance that the school or program has been evaluated and has met accepted standards established by and with the profession.
- For prospective employers, it provides assurance that the curriculum covers essential skills and knowledge needed for today's jobs.
- For graduates, it promotes professional mobility and enhances employment opportunities in positions that base eligibility upon graduation from an accredited school or program.
- For public health workers, it involves practitioners in the establishment of standards and assures that educational requirements reflect the current training needs of the profession.
- For the profession, it advances the field by promoting standards of practice and advocating rigorous preparation.
• For the federal government and other public funding agencies, it serves as a basis for determining eligibility for federally funded programs and student financial aid.
• For foundations and other private funding sources, it represents a highly desirable indicator of a program's quality and viability.
• For the university, it provides a reliable basis for inter- and intra-institutional cooperative practices, including admissions and transfer of credit.
• For the faculty and administrators, it promotes ongoing self-evaluation and continuous improvement and provides an effective system for accountability.
• For the school or program, accreditation enhances its national reputation and represents peer recognition.

MPH Competencies, established and required from the Council on Education for Public Health (CEPH), can be found in Appendix A. intranet.sph.umn.edu/wp-content/uploads/2019/01/foundational-ceph-competencies-sept-5.pdf

1.2 SCHOOL OF PUBLIC HEALTH STUDENT SERVICES CENTER

Location: Mayo Memorial Building, Room A395
Office Hours: Monday – Friday, 8:00 AM - 4:30 PM
Telephone: (612)626-3500 or (800)774-8636
Fax: (612)624-4498

Email: sph-ask@umn.edu
Mailing Address: Student Services Center School of Public Health MMC 819, Rm A395 Mayo Bldg 420 Delaware Street SE Minneapolis, MN 55455-0381

School of Public Health Student Services Center
The Student Services Center (SSC) is a school-wide office that assists students with all phases of their academic journey. The SSC staff works closely with each academic division and program to administer school-wide services and policies.

The Student Services Center is dedicated to serving a diverse community of future and current SPH students by enhancing the student experience, supporting the achievement of educational and career goals, and empowering future public health leaders.

We coordinate many functions including:
• Student Organization Support
• Diversity, Equity & Inclusion
• Career & Professional Education
• Mental Health Advocacy
• SPH Scholarships
• Registration
• Degree Clearance
• Applications and Admissions
• Applied practice experience/ criminal background checks

Meet the staff and learn about the services provided at the SSC by clicking HERE.

Career and Professional Development
The Career and Professional Development Center offers a variety of services and resources to assist you in your efforts to pursue advanced education and to locate and apply for professional positions from applied practice experiences, internships, and residencies to fellowships and full-time positions. Our Center believes that every individual has unique potential and should have the opportunity to pursue a meaningful and fulfilling career. Our goal is to facilitate the career and professional development process with you to ensure you have the confidence in conducting a competitive job search and help you maximize your career potential. We do so by offering one-on-one career coaching, programming, and online resources.

Career and Professional Development Website
The Career and Professional Development website at www.sph.umn.edu/careers/ has many links to help you start your new career, including:
• One-on-One Career Coaching: You can schedule individual appointments with one of our award-winning, evidence-based career coaches, Vic Massaglia and Darren Kaltved, to discuss any career or professional development topics, from creating a top-notch resume to ideas for field experiences, interviewing, and presentation skills. Appointments are also available via video or phone. To schedule an appointment, please visit sphcareers.appointments.umn.edu or email sphcareers@umn.edu.
• Jobs & Internships: Our online job posting system includes listings for internships and applied practice experiences, graduate assistantships and fellowships, volunteer, part-time, and full-time career opportunities: https://z.umn.edu/sphjobs.
• Career Resources: General career-related links, guides, and tip sheets on a variety of job-search related topics: www.sph.umn.edu/careers/students/
1.3 MENTOR PROGRAM

Our mentor program connects public health students to public health professionals to help with career and professional development. Mentoring relationships benefit both mentors and mentees. For mentees, the program can have a key impact on future career choices. For mentors, helping the next generation of public health leaders can be rewarding and impactful.

The School of Public Health boasts the largest mentor program of any school of public health, serving approximately 400 students and mentors annually with special events and helpful resources for mentor pairs. We work to provide students with diverse professional experiences and recognize the role that mentors have in training future public health leaders.

For more information, visit sph.umn.edu/current/mentor/.

1.4 SPH STUDENT SPHERE

Make use of the SPH Student SPHere to relax or study with your student colleagues. All students enrolled in an SPH degree program have access to the SPH Student SPHere (Mayo A-150) via their U-Card. The SPHere has the following amenities:

- **Locker Room:** Free lockers are assigned in the Student Services Center (Mayo A-395). Students are able to renew their locker each year and need only provide their own lock.
- **Kitchen Area:** Tables, chairs, microwaves, refrigerators, and a sink are all accessible in the student kitchen. As this is a shared space, students are expected to pick up after themselves and clean any mess created during personal food preparation.
- **Lounge Area:** Couches, chairs, and wireless internet all create a perfect place for students to meet, study, or simply relax.
- **Study Room:** White boards, tables, chairs, computers with internet connectivity, Microsoft Office, SAS and STATA software and a printer are all freely available to SPH students.

Please report any issues with computer systems, printers, trash, or other problems to sph-ask@umn.edu, or stop by Mayo A-395.

Please work together to ensure that the SPHere is a comfortable and safe place.

- Keep all areas of the SPHere clean in consideration of others.
- Please protect the security of access. Do not allow anyone to enter behind you that you do not know to be a SPH student. Never prop the door open for any reason. The student commons is for SPH students only.
- If you are aware of a breach of security or if you see something in the commons that needs repair, please report it to the SSC (A-395 Mayo) as soon as possible.
- Avoid being alone in the commons during the evening or early morning.
- If you believe you are in danger or see any improper activity in progress, call 911.

**Printing in the SPHere**

The School of Public Health (SPH) provides $100 worth of printing (1,000 pages) for each Fall and Spring semesters on your U-Card. This value can only be used in the SPHere computer lab (Mayo A-151) and is not valid in any other campus computer lab, including the libraries.

When you swipe your card at a print release station, UniPrint will show a balance on the screen. This balance is a combination of the print value given to you by SPH and your Gopher GOLD balance. In order to determine how much print value you have left, you need to subtract your Gopher GOLD balance from the balance shown on screen. Once the $100 SPH Print Value is exhausted, printing costs will be deducted from your Gopher GOLD account. To view your current balance and transaction history or to add value to your Gopher GOLD account online, please visit ucard.umn.edu/umtc/deposit. If you experience any printing issues or need to request a refund, please contact the lab attendant or call the SPH Student Services Center at (612)626-3500.

1.5 APPLIED PRACTICE LEARNING AGREEMENT

All students pursuing a required Applied Practice (AP), or summer residency must complete an online learning agreement prior to beginning the experience. The online form provides a streamlined process that is comprehensive for you, your preceptors, your faculty advisor and your program coordinator. Please refer to the current student website for this and other resources related to the AP, sph.umn.edu/current. Students exploring international AP opportunities need to begin the process six to eight weeks before departure and need to be aware of requirements specific to international travel.

More detailed information about AP can be found in the program portion of the guidebook.
1.6 MINORS

Minors
SPH students pursuing an MHA, MPH, MS, or PhD are eligible to declare a minor in other areas. For a listing of graduate level minors please visit onestop2.umn.edu/pcas/viewCatalogSearchForm.do.

A current listing of SPH-related minors and instructions for declaring can be found online www.sph.umn.edu/academics/degrees-programs/minors/

1.7 ONLINE LEARNING AND E-LEARNING RESOURCES

Students can access their online courses, as well as support sites for hybrid and face-to-face courses at myu.umn.edu. All students taking SPH courses are welcome to enroll in the SPH E-Learning Resources course site at z.umn.edu/sphelearningresources. You will have access to a variety of resources to support you in navigating University resources, such as the Libraries and Writing Center. You must have a university ID in order to access Moodle or Canvas (the two learning management systems in use at the University).

Students in online courses will receive a welcome email approximately one week before the semester begins, which will detail when you can access the course sites. If you have questions, please contact decsph@umn.edu.

1.8 COURSE EVALUATIONS AND YEARLY STUDENT SURVEY

Course Evaluations
Students provide essential input into the continued development of the School of Public Health’s teaching program. Students are asked to complete evaluations for all SPH courses. Historically, SPH Students have a higher response rate than any other school or college in the university, with approximately 70% of all students reporting. This response rate is of tremendous value to faculty members and provides important information for course improvement, as well as faculty promotion or retention. Evaluations are done online at the end of each term.

SPH Student Engagement Survey
Students are also strongly encouraged to evaluate and comment on the school and its programs through our annual SPH Student Engagement Survey. The survey covers many aspects of the student experience including field placements, career services, financing, and overall service. Students in EMHA and EPHAP will receive the Student Engagement Survey during the fall term; all other students will receive the survey during the spring term.

Career Survey
Recent graduates are expected to complete the Career Survey. The survey captures important employment information, follows up on educational plans, compensation norms, and contact information. The School is required to collect this information as it relates to both accreditation standards and program improvement.

1.9 THE ROLES OF YOUR ADVISING TEAM

The School of Public Health provides advising that promotes collaboration among students, staff, and faculty to enhance students’ academic and professional development in the field of public health. The School’s goal is to promote educational and experiential excellence that prepares students for successful careers improving the health of populations.

Defining Advising
The School of Public Health is committed to creating and sustaining high quality advising in the following four areas:

1. Administrative Advising: Advising on course planning and scheduling, policies, procedures, and benchmarks of the degree program, SPH, and the University. Your program coordinator is your first point of contact for these questions.

2. Academic Advising: General guidance on topics related to program/major including, but not limited to, program focus (may include identifying appropriate course work options), project selection and career planning. Students find their faculty advisors, coordinators, and career services staff helpful in answering these questions.

3. Applied Practice/Internship/Practicum Advising: Specific and targeted advising for Applied Practice, internship, and practicum development, placement, and completion. Your faculty advisor can assist you as you select the type of Applied Practice that best matches your goals.
4. **Masters Project/Thesis/Plan A&B/Dissertation Advising:** Specific and targeted direction on a master’s project or a PhD dissertation including, but not limited to: development, completion, and in some cases publication. Your faculty advisor will assist you in developing a direction for your project or dissertation.

**Advising Expectations for Students**
SPH students are expected to:

- Regularly read and respond to University email; email is the official mode of communication at the University of Minnesota.
- Review program objectives and educational documents at least once per semester, or when directed by program coordinator or program director/Director of Graduate Studies; students are responsible for knowing the requirements of the degree program.
- Actively contribute to a welcoming and supportive student climate.
- Initiate meetings with advisors at least once per semester; regularly communicate with faculty advisors and/or program coordinator about program progress.
- Respond to inquiries from faculty or staff in a timely manner.
- Behave in a professional and courteous manner; fulfill educational and advising commitments, such as appointments, project deadlines, etc.

**1.10 EXPECTATIONS FOR CLASS PARTICIPATION**

“Good discussion involves people trying to build on, and synthesize comments from others, and on showing appreciation for others’ contributions. It also involves inviting others to say more about what they are thinking.”

- Dr. Stephen Brookfield of St. Thomas University, Minneapolis, MN

Employers expect their employees to work effectively on teams and this has led to a competency required for an MPH degree: “Perform effectively on interprofessional teams.” Thus, a portion of your grade in class may be based on quality participation in group-based activities. We are providing the following examples* to let you know what we expect for all communications in the class. These apply to in-person or online discussions and to interactions between both students and members of the faculty and staff.

- Imagine your interactions are with colleagues in a workplace.
- Show you are interested in what another person wrote or said.
- Encourage another person to elaborate on something they have already said.
- Provide a resource (a reading, web link, video) not covered in the syllabus that adds new information/perspectives to our learning.
- Summarize conversations so far and/or suggest new directions and questions to be explored in future.
- Summarize several people’s contributions and reflects a recurring theme in the discussion.
- Comment that you found another person’s ideas interesting or useful; be specific as to why.
- Paraphrase, at least partly, a point someone has already made.
- Seek assistance from others in understanding course content.
- Offer your explanations or solutions to others seeking help in understanding course content.
- Be succinct; avoid extraneous information.
- Address the point of the discussion; stay on topic.
- Provide constructive criticism where feedback or a critique is required.
- Avoid sarcasm, particularly in an online environment where it can create confusion.
- Avoid vitriol, this can create a hostile environment and does not add information.
- Keep your communication professional and refrain from using rude or offensive language.

*We thank Dr. Brookfield of St. Thomas University, Minneapolis, for some of these tips.

**1.11 COMMENCEMENT ELIGIBILITY**

Students enrolled in MPH, MHA, or MS programs are eligible to participate in the May Commencement Ceremony if they are on track to complete course credit requirements and the culminating experience by the end of the spring or summer semester or have completed the necessary course credit requirements and culminating experience the previous summer or fall semester.

Exceptions may be granted on an individual basis per review by the program coordinator and program director. To seek an exception, please contact your program coordinator.
2. THE UNIVERSITY OF MINNESOTA

2.1 U OF M BASICS

University Identification Numbers and Accounts

All students and employees at the University of Minnesota are issued two unique identifiers. One is a seven digit student ID number which is sent to students in their acceptance letter, the other is an Internet ID (sometimes referred to as your “X500”). Your U of M Internet ID is the key to online services such as your University email account, Google apps, registration, library access, tuition, billing statements, and more.

Your ID number and Internet ID stay the same on all coordinate campuses and through any role changes (student to staff, staff to student, faculty to staff, etc.) and they will never be reassigned to another person. Each student attending the University of Minnesota must setup a student internet/email account by going to www.umn.edu/initiate or by calling the Technology Help Line at 612.301.4357 (1-HELP).

Email

The University provides students with an email account upon the student's matriculation to the institution. Your University email address is: [your Internet ID]@umn.edu. This account is free of charge and is active as long as you remain active as a student. The Office of Information Technology posts information on their website about end of life account policies. Please see it.umn.edu/google-account-end-life-policies for details about access after graduation or other times you may be an inactive student.

A University-assigned student email account is the University's official means of communication with all students. Students are responsible for all information sent to them via their University assigned email account. Course lists, immunizations, billing statements, financial aid updates, and other important information will be sent via the U of M student email address.

The School of Public Health relies heavily on email notices to students, staff, and faculty. To keep current on upcoming events, job announcements, new course announcements, scholarships, internships, the SPH newsletter, and good opportunities, students should check their email regularly.

If a student chooses to forward the provided University email account, the student is responsible for all information, including attachments, sent to any other email account. Because of this, it is strongly recommended that students use their U of M email account and do not transfer it to a personal email account.

Duo Security

The University of Minnesota is taking meaningful action to help students, faculty, and staff safeguard themselves against cybercrime. Duo Security, or two-factor authentication, is required at the University of Minnesota Sign-in page. The Sign-in page is the University’s gateway to applications such as myU, Gmail, Calendars, Docs, Canvas, and many other programs.

Enroll Now:

- Visit my-account.umn.edu and choose Password Management from the self-service menu on the left.
- Select Reset you UMN password. Follow the instructions on the page.
- As soon as you’ve reset your password, you will be guided through the Duo enrollment process.

If you use Duo Security to sign in to University applications, you are strongly encouraged to set up back-up devices in Duo Security so that you are prepared in the event that your primary Duo device is unavailable. Learn about back up devices at it.umn.edu/duo-use-backup-device.

As a Duo user, it is your responsibility to come prepared to sign in to applications necessary for class activities, including exams and quizzes. If you are unable to sign in, you may lose points for the class activity. Failure to bring your Duo device or a back-up is not an excused absence or a valid reason for make-up work.

Learn more about Duo Security at z.umn.edu/duosecurity.

One Stop

One Stop Student Services is your go-to resource for how things work at the University proper. One Stop falls under the umbrella of Academic Support Resources (ASR), which supports many functions for the University of Minnesota system campuses and Twin Cities Graduate School and Professional Schools. ASR also includes the Office of the Registrar, the Office of Student Finance, Office of Classroom Management, ASR-IT, and Continuity and Compliance.

The One Stop website is your source for general information about registration, financial aid, tuition and billing, grades and transcripts, dates and deadlines, financial wellness, veteran's benefits, and many other University resources.
One Stop counselors are also available to help you in-person at any of their three service centers: on the East Bank in Bruininks Hall, in the West Bank Skyway, or on the St. Paul campus in Coffey Hall. They provide walk-in services to students, no appointments necessary! You can also get your questions answered by calling or emailing One Stop. One Stop Counselors are certified financial managers and are available for confidential, one-on-one financial wellness appointments that cover a range of topics from budgeting, spending plans, credit, and much more. Call or email One Stop to learn more about this free service.

MyU

While you can contact One Stop or visit the One Stop website to seek out information, you will use the MyU website to complete your University business. MyU is the official University of Minnesota web portal, personalized for you. It is where you’ll register for classes, manage financial aid and billing, maintain your personal info, and much more.

U Card

Your U Card can give you access to campus buildings and different accounts based on your role or status at the University. Your first U Card is free and can be obtained at the U Card Office. Bring your driver’s license, state ID, or passport and be prepared to have your picture taken.

Accounts on the U Card

- Meal Plan
- Student Account
- Gopher GOLD Account
- FlexDine Account
- Library Account
- Department/College Printing
- TCF U Card Checking Account (Optional)

Additional services with your U Card

- Parking and Transportation Services (Bus & Metro Pass) - Purchase pass after you get your U Card
- Discounts
- Attendance verification card

Building Access with U Card

- Residential Halls
- Recreation and Wellness Center
- Secured Buildings

2.2 UNIVERSITY OF MINNESOTA CALENDARS

The official University Calendar can be found at onestop.umn.edu. Refer to this resource for academic calendars, drop/add deadlines, and other scheduling-related needs.

Additional calendar resources:

- School of Public Health-specific events, http://www.sph.umn.edu/events-calendar/
- Academic Health Center resource hub, https://hub.ahc.umn.edu/

2.3 CAMPUS SERVICES

Parking and Transportation

The University’s Parking and Transportation website has a wealth of information concerning getting to and around campus. Parking is extremely limited on campus and we encourage students to bus, bike, or walk if possible.

- Campus Shuttle Buses: Campus shuttle buses run at no charge between the East Bank, West Bank, and St. Paul campuses with varying routes and times. Current schedule information is posted on the above listed website as well as various locations throughout the Twin Cities campus.

- Metro Transit and the U Pass: Take advantage of the deeply discounted Metro Transit bus pass. U-Pass is the ultimate transit pass that provides unlimited rides 24 hours a day. It is valid on all regular bus and light-rail train routes, as well as express, local, limited-stop, or Downtown Zone routes. It may not, however, be used on some special event services. Information can be found at www.pts.umn.edu/bus/upass.

- Parking: Contract parking for students is sold through a lottery system each semester. Locations may vary but include spaces on the East Bank, West Bank, and St. Paul campuses. Hourly parking is available in several University public
facilities. Parking rates vary depending on proximity to campus and the facility type. Visit the Parking and Transportation website, [www.pts.umn.edu](http://www.pts.umn.edu), or call (612)626-PARK (7275) for more information.

The Motorist Assistance Program offers free services (unlocking vehicles, jump-starts, changing flat tires, and referral to a service station) to all customers parked in U parking facilities. Hours are Monday through Thursday from 7:00 AM to midnight, Friday from 7:00 AM to 10:00 PM. (Service is not available on weekends or official University holidays). Call (612)626-PARK for any motorist assistance needs.

Disability parking is available in many parking facilities and metered areas. Use of these designated spaces requires a state-issued permit or license plate. For additional information, call the State of Minnesota at (651)296-6911 or review the UMN Disability Parking content online at [www.pts.umn.edu/park/disability](http://www.pts.umn.edu/park/disability).

**Housing**

The University’s Office of Housing & Residential Life is the best resource for finding housing on or near campus.

**Maps**

Find the way to any University building.

**Digital Signage**

The School of Public Health has two different digital signs that provide information specific to the public health students. These can be found on the 3rd floor of the Mayo building near the Dean’s office in Mayo A-302 and the 3rd floor of the WBOB building.

**Dining**

University Dining Services offers a wide variety of dining experiences throughout the Twin Cities campus.

### 2.4 HEALTH AND WELLBEING

**University-Sponsored Student Health Benefit Plan**

The University requires all students to have health care coverage to ensure they have access to medical care and can maintain good health, which is essential for academic success. This requirement is University-wide and not specific to the School of Public Health.

The Office of Student Health Benefits (OSHB), a unit of the Office for Student Affairs, administers health, dental, and other benefits and enrollment for all eligible University students, residents, fellows, and interns.

All students who are admitted to a degree program and registered for six or more credits per semester (or three or more credits during summer term) that count towards the automatic assessment of the Student Services Fee are required by the University of Minnesota to have health plan coverage. Students who meet both criteria are automatically enrolled in the University-sponsored Student Health Benefit Plan (SHBP). The Student Health Benefit Plan is a cost-effective, comprehensive health plan designed to meet the unique needs of students. Students may choose to waive the University-sponsored Student Health Benefit Plan by providing proof of enrollment in an alternative Eligible Health Plan. Please contact the Office of Student Health Benefits to determine your exact eligibility status.

Graduate Assistants (GA), Teaching Assistants (TA), and Research Assistants (RA) may be eligible for the Graduate Assistant Health Plan (GAHP), which is different from the standard SHBP. Please consult the OSHB for more details.

The University also requires all international students and their dependents to purchase the University-sponsored Student Health Benefit Plan unless they are eligible for a waiver. International scholars visiting the University for more than 31 days are also required to enroll in the University-sponsored Student Health Benefit Plan. Scholars who will be at the University for 31 days or less may choose not to enroll in the University-sponsored Student Health Benefit Plan, but are required to carry their own health plan coverage for the duration of their visit to the University and must meet J-1 U.S. Federal regulation requirements.

**Long Term Care Disability Insurance Fee**

Academic Health Center students, which includes the School of Public Health, enrolled in a qualifying AHC program will be automatically covered under a group Long Term Disability plan while a student. This coverage is not optional. They will see a charge for this coverage on their student account once at the beginning of each fall and spring semester. Payment of this fee for two consecutive semesters provides year around coverage until graduation from their program.
Questions and More Information
Office of Student Health Benefits
University of Minnesota
410 Church Street S.E., N323
Minneapolis, MN 55455
Phone: (612)624.0627 or 1(800)232-9017
Fax: (612)626-5183 or 1(800)624-9881
E-mail: umshbo@umn.edu
www.shb.umn.edu

Boynton Health Services
Located on the University of Minnesota Twin Cities campus, Boynton Health (BHS) is a primary healthcare clinic serving University students, staff, and faculty. BHS accepts clients from most health insurance plans.

Boynton provides quality, comprehensive health care services, counseling, and education, beyond the scope of most primary health care clinics:

- Primary and urgent care
- Mental health services
- Dental and eye clinics
- Pharmacy needs
- Women's health
- Physical and massage therapy
- Health promotions such as flu shots and nutrition services

Student Mental Health Resources
As a student you may experience a range of issues that could result in barriers to learning such as strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating, and/or lack of motivation. These mental health concerns or stressful events may lead to diminished academic performance or reduce a student’s ability to participate in daily activities. University of Minnesota services are available to assist you with addressing these and other concerns you may be experiencing. You can learn more about the broad range of confidential mental health services available on campus via the Student Mental Health Website at http://www.mentalhealth.umn.edu.

This website helps connect students to crisis help, counseling services, support groups, and offers tips on helping others who are experiencing stressful events and/or mental health challenges.

If you or someone you know is having a mental health crisis and/or is in immediate danger, please call 911.

If the mental health crisis you are experiencing is not dangerous, but you wish to talk to someone immediately for assistance about what to do next, call or text this 24-hour helpline:

Crisis Connection
(612)301-4673 (or from a campus phone 1-4673)

U of M Textline
Text "UMN" to 61222

SPH Mental Health Advocates
For non-urgent, confidential situations where consultation is desired, the School of Public Health also has several trained Mental Health Advocates who are available to chat about any concerns you as a student are experiencing, or you can consult with them about a colleague or classmate who you believe may need assistance or resources. This consultation can be found in the Student Services Center, Mayo A-395. Drop-in to see if an advocate is available or to make an appointment. You can also email questions to sph-ask@umn.edu with a subject of “Mental Health Advocate”, or you can call (612)626-3500 and ask to see if an advocate is available or to make an appointment.

Smoke-free University
The University of Minnesota, Crookston, Duluth, Rochester, and Twin Cities are smoke- and tobacco-free campuses. All students, staff, faculty, and visitors are prohibited from smoking and using, selling, free distributing, and advertising tobacco products and electronic cigarettes in all facilities and on all University property.

The success of this policy will depend upon the thoughtfulness, consideration, and cooperation of everyone on campus. All members of the University community are responsible for enforcing this policy. Students, faculty, staff, and visitors who violate this policy should be reminded of the policy and asked to comply. Repeated violation of this policy may be cause for disciplinary action in accordance with applicable student or employee codes of conduct. Visitors who refuse to comply with this policy may be asked to vacate campus property.
The Aurora Center

The Aurora Center for Advocacy and Education provides crisis intervention and advocacy services to victim and survivors of sexual and relationship violence, harassment, and stalking. The staff and volunteers are also available to provide prevention training and education on a variety of issues.

Lactation Spaces

Spaces are available on campus offering private and comfortable rooms that are designed specifically for nursing mothers to pump and store breast milk. If you have questions and concerns about lactation spaces or resources, please contact Susan Warfield at warfi002@umn.edu.

Recreation & Wellness Center

The University Recreation and Wellness Center, commonly referred to as the RecWell, is a free resource for all students. Located on the University of Minnesota’s East Bank Campus, the facility serves between 3,000 and 5,000 patrons on an average weekday during the academic year. The Department of Recreational Sports also offers opportunities for the following activities:

- Aquatics
- Fitness
- Golf
- Intramurals
- Outdoor Recreation
- Sport Clubs
- Wellness
- Youth Programs

2.5 DIVERSITY

The University of Minnesota is committed to achieving excellence through equity and diversity. We believe that a diverse student body enhances the academic and social environment for all students and prepares students to thrive in an increasingly diverse workforce and society. Equitable access to education is critical to preparing students for the responsibilities of citizenship and civic leadership in a heterogeneous society. The University strives to provide equitable access and opportunity in its programs, facilities, and employment. The University will also establish and nurture an environment for faculty, staff, students, and visitors that actively acknowledges and values difference and is free from racism, sexism, ageism, homophobia, and other forms of prejudice, intolerance, or harassment.

The global, population-based nature of public health demands that the School of Public Health (SPH) seek and train students of all racial, ethnic, economic, and educational backgrounds. We believe such diversity enriches the learning experience and helps build excellence in public health leadership. The SPH is dedicated to providing our students with a supportive and welcoming academic experience in and out of the classroom. The student led Diversity Matters, and faculty led Health Equity Work Group organizations are designed to address and explore issues of diversity that impact both our school and society at large.

We also strive to create a community that is actively engaging in the areas of diversity and inclusion to create an excellent educational environment. The SPH defines inclusion as all-embracing of the fullness of humanity. Our goal is to recognize differences, address disparities, and to help cultivate understanding within the SPH community. This sense of inclusiveness recognizes that diversity is not limited to a select number of categorical elements of a person but encompasses all of person’s attributes as well as their intersections.

The SPH Coordinator of Diversity, Equity, and Inclusion, Lauren Eldridge, works with students, staff, faculty, and community members to advance equity and diversity within the SPH. Her office is in A395-3 Mayo Memorial Building and she can be contacted at leldridge@umn.edu or at (612) 624-9970.

For more information please visit:

- University policy on Equity & Diversity: regents.umn.edu/sites/default/files/policies/Equity_Diversity_EO_AA.pdf
- Office for Equity and Diversity: diversity.umn.edu/eoaa/home
- SPH info and resources for Diversity & Inclusion: sph.umn.edu/about/diversity-inclusion/

In addition, the University has several offices across campus whose purpose is to support underrepresented students and promote diversity. The following is a list of some of those offices:

Disability Resource Center

Location: 108 McNamara Alumni Center, 200 Oak Street SE (East Bank)
Phone: (612)626-1333 (Voice/TTY)

Disability Resource Center promotes access and equity for students with disabilities (e.g., physical, learning, psychiatric, sensory or systemic) and assists the University in achieving its mission to provide optimal educational opportunities for all students as well
as obligations under federal and state statutes. Students are responsible for contacting Disability Services for more information or to arrange accommodations.

**Graduate School Diversity Office**  
Location: 333 Johnston Hall, 101 Pleasant Street SE (East Bank)  
Phone: (612)625-6858

The Graduate School Diversity Office coordinates and leads the University’s initiatives in the recruitment, funding, retention and graduation of a diverse graduate and professional student body. The office is situated within with The Graduate School and works with other units connected to diversity and multiculturalism.

**The Gender and Sexuality Center for Queer and Trans Life**  
Location: 46 Appleby Hall, 128 Pleasant Street SE (East Bank)  
Phone: (612)625-0537

The Gender and Sexuality Center for Queer and Trans Life is dedicated to transforming campus climate for University of Minnesota students, staff, faculty, alum and community members by developing and supporting more inclusive understandings of gender and sexuality through education, advocacy, outreach and support.

**International Student and Scholar Services**  
Location: 109 Hubert H. Humphrey School, 301 19th Avenue S (West Bank)  
Phone: (612)626-7100

International Student and Scholar Services (ISSS) is the office dedicated to serving the University’s international community. Its primary mission is to assist international students and scholars in successfully accomplishing the goals that brought them to the University, by using all available resources. Services include:

- Counseling and advising
- Immigration and visa regulation advising
- Newsletters
- Career services
- Academic opportunities for university students
- Tax return information

**Multicultural Center for Academic Excellence**  
Location: 140 Appleby Hall, 128 Pleasant Street SE (East Bank)  
Phone: (612)624-6386

The Multicultural Center for Academic Excellence (MCAE) is a campus-wide resource that promotes an inclusive atmosphere to foster and enrich multicultural understanding among all members of the University community. MCAE’s commitment to creating such a climate is driven by a student-first culture in which students are the highest priority.

**Office of Equity and Diversity**  
Location: 432 Morrill Hall, 100 Church Street SE (East Bank)  
Phone: (612)624-0594

The mission of the Office of Equity and Diversity (OED) is to leverage the transformative power of equity and diversity to advance excellence in teaching, research and community engagement at the University of Minnesota. OED envisions a University where equity and diversity are:

1. Integrated into the work and lives of every student, faculty and staff member.
2. Recognized as core institutional values, and will inform thinking, policies and practices throughout the University.
3. Inherently intertwined with academic excellence and the development of leaders for a globally inclusive society.

**Office of Equal Opportunity and Affirmative Action**  
Location: 274 McNamara Alumni Center, 200 Oak Street SE (East Bank)  
Phone: (612)624-9547
The Office of Equal Opportunity and Affirmative Action (EOAA) was founded in 1972 to ensure that all University community members uphold federal and state civil rights laws and regulations, as well as University equal opportunity policies. The EOAA Office envisions a University community that is equitable, one that values the diversity of its workforce and student body and is free from discrimination and harassment.

**Student Conflict Resolution Center**

Location: 254 Appleby Hall, 128 Pleasant St. SE (East Bank)
Phone: (612)624-7272

The Student Conflict Resolution Center (SCRC) offers informal and formal conflict resolution services to resolve students' University-based problems and concerns. An ombudsman provides confidential, neutral, and informal options. An advocate is available to assist students in formal grievance or disciplinary proceedings.

**Women’s Center**

Location: 64 Appleby Hall, 128 Pleasant Street SE (East Bank)
Phone: (612)625-9837

The Women’s Center advances equity for women students, staff, faculty, and alumni across identities. The Women’s Center increases connections for women’s success, cultivates socially responsible leaders, and advocates for organizational culture change toward excellence for all.

### 2.6 ACADEMIC RESOURCES

**University Libraries**

The Bio-Medical Library is located in Diehl Hall and contains materials in the areas of allied health, medicine, mortuary science, nursing, pharmacy, public health, and the basic life sciences. In addition, the library provides numerous resources and services such as library instructional classes, research workshops, reference consultations, library mediated searches, and citation clarification. The Mathematics library ([https://www.lib.umn.edu/math](https://www.lib.umn.edu/math)), located in Vincent Hall, contains materials in the area of mathematics and statistics.

Information on other University libraries and collections can be found at [www.lib.umn.edu](http://www.lib.umn.edu).

The Subject Librarian for the School of Public Health is Shanda Hunt. Please email hunt0081@umn.edu or call (612)301-1318 to set up an appointment.

**Bookstore**

The University of Minnesota Bookstore, located in Coffman Union, sells texts for all Public Health courses. Course materials can also be ordered online.

**Center for Educational Innovation**

The Center for Educational Innovation (CEI) was created in 2014 by Provost Karen Hanson to strengthen instructional and academic technology collaboration and support across the University. By combining the Center for Teaching and Learning and the Office of eLearning, the CEI provides expertise that supports curricular and pedagogical innovation in campus classrooms and in online courses and programs.

**Center for Writing**

The Center for Writing provides free writing instruction for all University of Minnesota students at all stages of the writing process. In collaborative consultations, they help students develop productive writing habits and revision strategies. Assistance can be found via appointments or online.

The Online Writing Center offers online tutoring to students taking Writing-Intensive courses at the University of Minnesota. Online tutoring is conducted via the Web and consists of comments and feedback offered by experienced writing tutors.

Tutors are trained in fields such as composition, speech communication, scientific and technical communication, and rhetoric, and many of them are instructors at the university. Tutors review the writing you submit by offering comments and suggestions for improvement; however, they will comment mainly on the areas students specify.
Information Technology

Technology Help is your first point of contact for hardware, software, and internet support. You can contact Technology Help for assistance even if you are not yet on campus.

IT@umn.edu can help you initiate and manage your student internet account, get connected to Wi-Fi on campus, explore discounted or free devices and software available to students, as well as show you how to keep your computers, mobile devices, and data safe, both at home and at the University.

2.7 CAMPUS SAFETY

Police

The University of Minnesota has a full-service police department; in the event of an emergency dial 9-1-1.

Security Monitor Program

The Security Monitor Program offers a walking and biking escort service to and from campus locations and nearby adjacent neighborhoods. This service is available at no charge to students, staff, faculty, and visitors to the University of Minnesota – Twin Cities campus. To request an escort by a trained student security monitor, please call (612)624-WALK (9255) shortly before the desired departure time and walk safe.

Safe-U Emergency Notification

The safety of students, faculty, staff, and visitors is of highest priority at the University of Minnesota. A multi-pronged, collaborative effort is in place to promote on-campus safety, while working with our community partners to ensure proper resources are dedicated to making off-campus neighborhoods safe as well.

Safe-U text messaging system provides students, faculty, and staff timely emergency notifications so that our community can stay informed about critical campus safety issues.

Safe-U will be used infrequently and specifically for real emergency situations.

Campus Wide Emergency Alert System

The Campus Wide Emergency Alert System includes 21 outdoor loudspeakers mounted on poles and rooftops on the West Bank and East Bank and in St. Paul. The system will project an alert tone and vocal instructions in the event of a campus emergency.

2.8 ADDITIONAL RESOURCES

Post Office

A full-service U.S. Post Office is located on the ground floor of Coffman Union.

Copies/Fax Machines

A University Copy Center is located in Mayo D104 as well as other locations throughout the University.

Student Legal Service

University Student Legal Service (USLS) provides legal representation and legal advice to eligible students on the Twin Cities campus.

3. REGISTRATION

3.1 FULL-TIME STATUS

All SPH students need to register for at least six credits in fall and spring semester to be considered full-time. In the summer, MHA and MPH students must be registered for six credits to be considered full-time and three credits to be considered half-time.

Note: The Office of Financial Aid or external agencies may require students to be registered for more than three or six credits to be considered full-time; check with these agencies to verify their requirements.
### 3.2 REGISTRATION PROCESS

**How-To Guides**
The University of Minnesota provides how-to guides for many common procedures on the [Onestop website](http://onestop.umn.edu), including registering and enrolling for classes. These guides provide visuals as well as text.

**Step One**
Select courses for the term with your advisor before registering. Please make an appointment at the earliest convenient time. To view available courses:
1. Log into [MyU](http://myu.umn.edu).
2. Select the My Academics tab, then the My Classes sub-tab.
3. Click on Class Search (in the Enrollment Tools section).
4. Determine search criteria; you must select your campus (Institution), term, and at least two additional criteria. Students in the School of Public Health will find the majority of their courses listed under the subject "PUBH".
   - Note: 5000- through 8000-level courses are considered graduate-level. 1000- and 3000-level courses are for undergraduates and will not receive approval for graduate credit. Under some circumstances, with approval of the student’s major field, 4000-level courses may also be applied toward a MPH degree as long as they are taught by a member of the graduate faculty.
5. View your search results. To see only classes that are open, select Show Open Classes Only.
6. To continue searching, click New Search or Modify Search. If you hit the back button, you will lose your search results. Click the class number to see more details. You can search for a subject by entering subject code or clicking Select Subject. For more search options, expand Additional Search Criteria. When you are satisfied with your criteria, click Search.

**Step Two**
After selecting your courses, run through the checklist below before registering. Frustrating delays can be avoided by following these hints:
- If instructor consent is necessary for any of your selected course(s), get a permission number from the course instructor or his/her designee before registering. This number permits registration for the course through the second week of the semester; after the second week, it expires. Note that the number is specific to the student it is given to and the course requiring instructor consent. Once a number is used to register, it becomes invalid and cannot be used for another course or by another student.
- You will not be able to register if you have any holds on your University record. Notice of any hold, including the name of the department or office where it may be cleared, is available at [myu.umn.edu](http://myu.umn.edu).
- You can find your registration queue date and time on the web at [myu.umn.edu](http://myu.umn.edu).
- You will need your X500 login and password to register. If you have forgotten your password, call 612.301.4357 to have your password reset. You can also call this number if you have problems logging in to register.

**Step Three**
Register via the web at [myu.umn.edu](http://myu.umn.edu) or go to One Stop Student Services Center in 333 Robert H. Bruininks Hall on the East Bank Campus to register in person. Students having difficulty with self-registration should contact the registration help-line at (612)624-1111 (M-F 8:00-4:00) or email onestop@umn.edu. You may also contact your Program Coordinator or the School of Public Health Student Services Center at (612)626-3500. Please note the following when registering:
- Most courses give the option of either an A/F or S/N (pass/fail) grading option. Be sure to select the grade option desired for the course. Note that there may be a limit to the number of credits a student can take S/N (pass/fail); see the program guidebook for more information. Stricter policies may be enforced by individual majors/programs. There is a strict and early deadline for when grading options can be changed.
- Some courses have variable credits. Before selecting the number of credits, students should make sure they agree with the instructor as to the number of credits appropriate for the work proposed.

### 3.3 GRADES, COURSE ADDITIONS, WITHDRAWAL AND EVALUATIONS

**Change of Grade Option**
For full-semester courses, students may change their grade option, if applicable, through the second week of the semester. After that, grading options cannot be changed. Grade option change deadlines for other terms (i.e. summer and half-semester) can be found at [onestop.umn.edu](http://onestop.umn.edu). For more information about grading policies, see the University Senate [Grading and Transcripts: Twin Cities, Crookston, Morris, and Rochester Policy](http://onestop.umn.edu).
Grading Scale

The University uses plus and minus grading on a 4.000 cumulative grade point scale in accordance with the following, and you can expect the grade lines to be drawn as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.000</td>
</tr>
<tr>
<td>A-</td>
<td>3.667</td>
</tr>
<tr>
<td>B+</td>
<td>3.333</td>
</tr>
<tr>
<td>B</td>
<td>3.000</td>
</tr>
<tr>
<td>B-</td>
<td>2.667</td>
</tr>
<tr>
<td>C+</td>
<td>2.333</td>
</tr>
<tr>
<td>C</td>
<td>2.000</td>
</tr>
<tr>
<td>C-</td>
<td>1.667</td>
</tr>
<tr>
<td>D+</td>
<td>1.333</td>
</tr>
<tr>
<td>D</td>
<td>1.000</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
</tbody>
</table>

- S = achievement that is satisfactory, which is equivalent to a C- or better
- N = achievement that is not satisfactory and signifies that the work was either 1) completed but at a level that is not worthy of credit, or 2) not completed and there was no agreement between the instructor and student that the student would receive an I (Incomplete).

Other Transcript Symbols

- Incomplete [I]
  - There shall be a temporary symbol I, incomplete, awarded to indicate that the work of the course has not been completed. The I shall be assigned at the discretion of the instructor when, due to extraordinary circumstances, the student was prevented from completing the work of the course on time. The assignment of an I requires a written contract between the instructor and student specifying the time and manner in which the student will complete the course requirements. In no event may any such written agreement allow a period of longer than one year to complete the course requirements. The Incomplete contract can be found at http://secure.ahc.umn.edu/publichealth/sphgrades/
  - For graduate/professional students, an I is to remain on the transcript until changed by the instructor or department.
  - When an I is changed to another symbol, the I is removed from the record.
  - A student does not need to be registered at the University in order to complete the work necessary to convert an I to a grade with credit in the time and manner previously agreed upon between the student and the instructor. The instructor is expected to turn in the new grade within four weeks of the date the work was submitted by the student.
  - Interpretation of Policy on Incompletes for Students Called to Active Military Duty
    - When appropriate, instructors may prefer to arrange for the student to take an incomplete. Senate policy requires that an incomplete be made up within one calendar year of the end of the term in which the incomplete is given. When students are called to active military duty and reach agreement with their instructor(s) to take an incomplete, they will have up to one calendar year following their discharge from active duty to complete their incomplete(s). Complete policies and procedures are available in the SPH Student Services Center.
- Transfer [T]
  - There shall be a symbol T, transfer, posted as a prefix to the original grade, to indicate credits transferred from another institution or from one college or campus to another within the University when reevaluation is required.
- Withdrawal [W]
  - If a student officially withdraws from a course during the first two weeks of classes, there shall be no record of that course registration entered on the student's transcript. There shall be a symbol W, withdrawal, entered upon a student's record when the student officially withdraws from a course in accordance with procedures established by the student's college or campus. The W will be entered on the transcript irrespective of the student's academic standing in that course if the student withdraws from the course during the third through eighth week of class (second or third weeks of summer sessions). Withdrawal in the ninth or later week of
classes (fourth or later in summer sessions) shall require approval of the college and may not be granted solely because a student is failing the course; there must be extenuating non-academic circumstances justifying late withdrawal.

- Continuation [X]
  - There shall be a symbol X, indicating a student may continue in a continuation course in which a grade cannot be determined until the full sequence of courses is completed. The instructor shall submit a grade for each X when the student has completed the sequence.

- In Progress [K]
  - There shall be a symbol K, assigned by an instructor to indicate the course is still in progress and that a grade cannot be assigned at the present time.

Grade Submission
All grades for all courses each term shall be submitted to the Office of the Registrar no later than 72 hours after the last final examination for that term. Students can view their grades online at myu.umn.edu 24 hours after they are posted by the course instructor.

Grade Point Average
Students must achieve a grade point average of no less than 3.0 (B) across their entire program to receive the graduate or professional degree.

SPH Incomplete Policy
The maximum time allowed for a student to fulfill incomplete course requirements is one year or as specified on the incomplete contract, agreed upon by the instructor and student. Students who fail to meet incomplete contract deadlines as determined by instructor and student will receive a grade of F or N (depending on grade option) to be entered by the SPH Student Services Center. Instructors are notified via email that an F or N was submitted due to failure in meeting the incomplete contract deadline.

Graduating students who, in consultation with their academic advisor and course instructor, determine not to finish course requirements may request that the incomplete permanently remain on their official transcript (if the course is not required for graduation).

Graduate Planning and Audit System (GPAS)
The Graduate Planning & Audit System (GPAS) allows graduate and professional students to plan future coursework and view student degree progress. You only need to add coursework that you plan on taking because the audit (advisement report) will already track completed coursework and requirements. If you want to add or remove a graduate minor, you will need to submit a separate form.

GPAS allows Program Coordinators, Program Directors, and Director of Graduate Studies to approve students’ coursework plans electronically.

Students will work closely with their academic programs to complete and submit GPAS for review and approval.

onestop.umn.edu/academics/gpas

Probation
At the end of the semester, the Director of Academic and Student Affairs identifies all SPH students with a cumulative GPA of less than 3.0 enrolled in an SPH program. Students will receive a letter of scholastic probation prepared by the Director of Academic and Student Affairs, to be approved and signed by the Associate Dean. The terms of this letter are the following: students will be placed on probation and informed that they must maintain a term GPA of 3.0 for each subsequent term. Students must achieve letter grades for all courses (incompletes are unacceptable while on probationary status) they are enrolled in during that semester. This written notice will inform the student that the GPA must be raised to a minimum of 3.0 to be removed from probationary status and to be awarded a degree. Students on probationary status who do not receive at least a 3.0 GPA for each subsequent term will be dismissed from the program by the Associate Dean.

Students who have been dismissed from the SPH and are interested in reapplication to the School are allowed to do so 12 months after the date of dismissal. The dismissal becomes part of the reapplication and is considered in any admission decision.

S/N Grade Option
Students may take no more than 20% of their coursework on an S/N grading basis, exclusive of those topics, seminars, and experience courses offered only on an S/N basis.

Adding a Course After It Starts
No approval is required to add a course during the first week of classes. Instructor approval is required during week two. After the second week of classes, instructor and college scholastic committee approval is required. Deadlines for adding a course for other terms (i.e. summer and half-semester) can be found at onestop.umn.edu.

Registration Requirement and Exceptions
Students are required to register for at least two semester and 20 credits in the School of Public Health.

Students must complete a formal request to change their registration (e.g., add, drop, change your grade basis) after a deadline or to register for more than 18 credits. Students must consult with their program coordinator prior to submitting any forms. Approval is not automatic.

**Course Cancellation and Withdrawal**

Students should refer to the Refund and Drop/Add Deadlines for the particular term at [onestop.umn.edu](http://onestop.umn.edu) for information and deadlines for withdrawing from a course. As a courtesy, students should notify their instructor and, if applicable, advisor of their intent to withdraw.

Students wishing to withdraw from a course after the noted final deadline for a particular term must contact the School of Public Health Student Services Center at [sph-ask@umn.edu](mailto:sph-ask@umn.edu) for further information.

**Course Prerequisites**

Any college or campus may set special scholastic or other standards for registration in a particular course, for scholastic probation, admission, honors, continued residence, degrees, and other purposes they deem appropriate.

**Course Evaluations**

Student feedback on course content and faculty teaching skills are an important means for improving our work. Please take the time to complete a course evaluation for each of the courses for which you are registered. The SPH collects student course evaluations electronically using a software system called CoursEval: [sph.umn.edu/students/current/course-eval-grades/](http://sph.umn.edu/students/current/course-eval-grades/). The system will send email notifications to students when they can access and complete their course evaluations. Students who complete their course evaluations promptly will be able to access their final grade as soon as the faculty member renders the grade in SPHGrades: [www.sph.umn.edu/grades](http://www.sph.umn.edu/grades). All students will have access to their final grades through OneStop two weeks after the last day of the semester regardless of whether they completed their course evaluation or not.

Note: Responses will remain anonymous and will not be released to the course instructor until after final grades have been submitted. This is School of Public Health procedure, not a University-wide policy, and therefore applies to Public Health courses only.

### 3.4 TRANSFER CREDIT

**Course Credit Transfer Policy**

Course credits may be used to satisfy public health core or other program requirements as jointly approved by the Program Director and the Associate Dean of Education. No course credits older than 5 years from the date of the student’s matriculation will be accepted for transfer. A grade of “B-” or better is required for each course requested for transfer credit.

SPH students who have completed graduate-level coursework at the University of Minnesota or another college or university may petition to transfer those courses toward their SPH degree. To be considered for transfer, graduate level coursework must have been taken at an accredited graduate institution.

Higher standards of achievement and stricter policies may be enforced by individual programs.

Students must:

1. Meet with their academic advisor to discuss the petitioning process. If the petition is acceptable to the advisor, the student will complete and sign the Academic Policy Petition form and attach an official transcript on which the final grade has been posted.
2. Submit the Academic Policy Petition form to the Program Coordinator for processing. The Academic Policy Petition form can be found at [www.sph.umn.edu/current/resources/](http://www.sph.umn.edu/current/resources/).
3. The Program Coordinator will forward the petition to the Program Director for approval and signature and then to the Student Services Center for the Associate Dean of Education for final evaluation and/or approval.

The Academic Policy Petition forms may be used for other academic reasons. Students are encouraged to discuss petition issues with their academic advisor or Program Coordinator to determine the appropriate process and procedure.

### 3.5 EQUIVALENCY EXAM AND INFORMATION

**Equivalency Exams**

MPH students must satisfy competency requirements in the seven core areas of public health: administration, behavioral science, biostatistics, environmental health, epidemiology, ethics, and foundations. Courses designated as part of the public health core can only be taken for a letter grade (A-F). Students are required to achieve no less than a B- grade in each course taken on an A-F basis. Students may retake public health core courses with the exact same numbered course only once.
Students have the option of taking the equivalency exams in any of the following core areas; however, students can only take the exam one time in each core area. Students who pass the exam(s) are waived from taking the required course and must make up the credits per their area of study and degree requirements. Students who do not pass the exam(s) are required to take the appropriate core course area to satisfy the competency requirements.

**Administration**
PubH 6751 Principles of Management in Health Services Organizations (2 cr)

**Behavioral Science**
PubH 6020 Fundamentals of Social and Behavioral Science (2 cr)
PubH 6050 Community Health Theory and Practice I [CHE students only] (3 cr)
PubH 6914 Community Nutrition Intervention [PubH Nutr students only] (3 cr)

**Biostatistics**
PubH 6414 Biostatistical Literacy (3 cr) [Fall 2014 and beyond] AND a programming class from the following list [students must check with their program advisor or coordinator to ensure they are taking the correct required programming course]

- PubH 6107 Excel and Access in Public Health Settings (1 cr)
- PubH 6325 Data Processing with PC-SAS (1 cr)
- PubH 6420 Introduction to SAS Programming (1 cr)
- PubH 6470 SAS Procedures and Data Analysis (3 cr)
- PubH 6617 Practical Methods for Secondary Data Analysis (3 cr)
- PubH 6755 Planning and Budgeting for Public Health (2 cr)
- PubH 6813 Managing Electronic Health Information (2 cr)
- PubH 6845 Using Demographic Data for Policy Analysis (3 cr)
- PubH 7200 Fundamentals Exploring and Visualizing Data in R (1 cr)
- PubH 7461 Exploring and Visualizing Data in R (2 cr)

**OR**
PubH 6450 Biostatistics I (4 cr)

**Environmental Health**
PubH 6102 Issues in Environmental and Occupational Health (2 cr)

**Epidemiology**
PubH 6320 Fundamentals of Epidemiology (3 cr)

**OR**
PubH 6341 Epidemiologic Methods I (3 cr)

**Ethics**
PubH 6741 Ethics in Public Health: Professional Practice and Policy (1 cr)

**Foundations**
PubH 6250 Foundations of Public Health (2 cr) – equivalency exam not available

Equivalency examinations are given at least twice each year (January and August). Students have the option of taking the equivalency exams in any of the following core areas; however, students can only take the exam one time in each core area. Students who pass the exam(s) are waived from taking the required course and must make up the credits per their area of study and degree requirements. A notation on the student’s transcript will be documented if the student passes an equivalency exam. Students who do not pass the exam(s) are required to take the appropriate core course area to satisfy the competency requirements. Equivalency exams satisfy competency requirements for the following core courses only:

**PubH 6020 Fundamentals of Social and Behavioral Science**

</tbody>
</table>
4. **TUITION, FEES, BILLING, AND FINANCES**

4.1 **MY FINANCES TAB ON MYU**

The My Finances tab in MyU.umn.edu is where you'll find information about billing, payment, and financial aid. The My Finances tab allows you to view account charges and billing statements. It is also where you can submit an online payment using the preferred and free e-check method. Don’t forget to sign up for Direct Deposit. For residents of Wisconsin, North Dakota, South Dakota, and Manitoba, remember to apply for reciprocity through your home state or province so your bill will have the correct amounts.

OneStop hosts “how-to guides” for common transactions. You can find financial how-to guides here: onestop.umn.edu/how-guides#accord-3
4.2 **TUITION AND FEES**

Please go to [onestop.umn.edu](http://onestop.umn.edu) for complete tuition and fee information.

4.3 **BILLING**

Your billing statement details your amount due (tuition, fees, housing, books, and other campus charges) and your payment due date. You will receive a notice in your University email account when it is ready to view. If you have account charges on more than one campus, you will receive separate billing notices for each campus.

You may opt into a payment plan when your first bill is available, which will divide your payments over three billing periods throughout the semester. Make sure you always pay your bills on time to avoid late fees or cancellation of future class registration.

Your billing statement is a snapshot of the charges and credits applied to your account as of the date the statement was created. For the most up-to-date account activity information, you can check your student account on the My Finances tab in MyU.

**Third Party Billing**

When an organization, not owned by you or a family member, makes a commitment to pay your educational expenses, they are considered a third-party sponsor by the University of Minnesota. When payment is due on your student account, the sponsor is billed by the University. This payment process is termed "third party billing."

Sponsor's payments are subject to the same federal reporting requirements as other financial aid. Some sponsorships don't require a billing invoice and are administered by the University through One Stop Student Services.

Whether you are a student or a sponsor, you will find answers in the frequently asked questions about how the third-party billing processes these payments at the links on the left. In addition, you can view current tuition and fee information.

If you have more questions or need further information, please contact the third-party billing office at tpbill@umn.edu or (612)625-8559.

4.4 **FINANCIAL AID AND SCHOLARSHIPS**

A variety of resources to assist students in financing their education can be found at [www.sph.umn.edu/prospective/tuition-finances/paying-for-your-education/](http://www.sph.umn.edu/prospective/tuition-finances/paying-for-your-education/). Scholarships specific to SPH Divisions and/or Programs can be found in the Division and/or program guidebook.

Information on financial aid can be found at [onestop.umn.edu](http://onestop.umn.edu) (Finances tab) or by emailing onestop@umn.edu.

Students having questions about the status of their financial aid should refer to the appropriate contact below:

<table>

</tbody>
</table>

**Loan Deferment**

A temporary postponement of loan payments is available only under certain conditions; some loans do not accrue interest in deferment, such as subsidized loans [policy.umn.edu/forms/fa/fa830.pdf](http://policy.umn.edu/forms/fa/fa830.pdf).

Students requesting a loan deferment can get their form signed by One Stop Student Services [onestop.umn.edu](http://onestop.umn.edu).

**Financial Aid Exit Counseling**

Exit counseling sessions are required of all borrowers of federal and University-administered student loan programs. Exit counseling provides you information regarding the rights and responsibilities of a borrower and a lender/servicer. You learn about...
repayment, deferment, and cancellation of your loan. These sessions prepare you to be responsible and effective in repayment of your educational loans.

You are required to complete exit counseling when you:

- Are about to graduate.
- Leave the University (even if it is just temporary).
- Drop your registration below half-time enrollment.
- Transfer to another school.
- Leave for a National Student Exchange (NSE) experience.

Once you have been selected for the exit process, you will receive an email with instructions to complete your exit counseling online. Make sure you respond by completing your exit counseling in a timely manner! A hold will remain on your student record until your exit counseling is complete, delaying your diploma, preventing registration, and preventing access to your transcripts.

For more information about student loan exit counseling, contact Student Account Assistance at onestop.umn.edu

4.5 GRADUATE ASSISTANTSHIPS

Many SPH students use graduate assistantships to help finance their education. These are campus working/learning positions that take the form of research, teaching, or administrative appointments. Degree-seeking students in the SPH registered for six or more credits, including international students, are eligible to apply for an assistantship on campus. Because many assistantships are funded by grants, the research activity of SPH faculty may result in numerous opportunities across the school; you are encouraged to check with your faculty to see if, or when, they may be posting new grant-related assistant positions.

Graduate assistantships include an hourly wage, tuition benefits, subsidized insurance coverage, and may include resident tuition rates for student and dependents.

For graduate assistant policies and benefits, go to www1.umn.edu/ohr/gae.

The tuition benefits are particularly attractive to students. Graduate assistants who work at least 25% time from the beginning to the end of the official semester appointment dates are eligible to receive tuition benefits (tuition remission and resident rates) during that semester.

5. GUIDELINES, POLICIES, AND COMPLIANCE

5.1 STUDENT RESPONSIBILITY AND CONDUCT

Students are ultimately responsible for the level of success that they achieve in their program of study and for the time it takes to complete that program. Students should:

- Attend fall orientation and understand the information distributed.
- Understand and follow University, School of Public Health, Division, and Program rules and procedures for completion of degree requirements.
- Read email messages frequently for announcements from the Program Coordinators, Program Directors and Director of Graduate Studies, Student Services Center, and Career Center. These announcements may involve changes in the University, School or Division rules, and procedures for completion of degree requirements; students are responsible for reading and understanding these announcements.
- Check their student mailbox often for printed informational materials.
- Contact a Program Coordinator, Program Directors, or Director of Graduate Studies if they are not getting reasonable assistance from their academic and/or master’s project/thesis advisor.
- Initiate and maintain contact each semester with their academic advisor to review progress toward the completion of their degree.
- Complete the degree in a timely fashion.

The School of Public Health emphasizes three principles of student conduct in all of its degree programs:
1. **Respect Others**: Students are expected to behave in a respectful and professional manner with other students, faculty, and staff in the classroom and on campus.

2. **Honor Privacy**: Every student’s course grades are private and are not to be shown to anyone else. This also applies to the grades of students in courses for which you are a Teaching Assistant.

3. **Present Your Work Honestly**: Plagiarism is defined as the presentation of another's writing or ideas as your own. For a helpful discussion of preventing plagiarism, please consult University policies and procedures regarding academic integrity: writing.umn.edu/tww/preventing/definitions.html. Students should be careful to properly attribute and cite others’ work in their writing. For guidelines for correctly citing sources, go to tutorial.lib.umn.edu.

The Associate Dean for Learning Systems and Student Affairs is responsible for managing all School of Public Health issues and investigations of academic misconduct.

### 5.2 UNIVERSITY OF MINNESOTA POLICIES

As part of the larger University of Minnesota community, students in the School of Public Health are responsible for abiding by the Board of Regents policies and other University-wide administrative policies. These policies can be found in full at policy.umn.edu.

This policy library holds policies that apply to the entire University system (all five campuses), as well as policies that apply to the Twin Cities campus. The site also displays Board of Regents policies, which are managed through the Board office.

In an effort to avoid potential duplication, omission, or transcription errors, we direct SPH students to read the policies at the original source. We encourage you to particularly become aware of the following:

#### Student Conduct Code

This policy governs the expected standards of behavior for students and applies to all students and student organizations at the University of Minnesota, whether or not the University is in session.

The Office for Community Standards is the unit of the university that works to educate the community about the policies governing student behavior and resolve reported violations of the Student Conduct Code. The process they follow is designed to resolve issues in a way that is fair to all community members.

[https://communitystandards.umn.edu/](https://communitystandards.umn.edu/)

Below are the Student Conduct Code’s guiding principles:

1. **The University seeks an environment that promotes academic achievement and integrity, that is protective of free inquiry, and that serves the educational mission of the University.**

2. **The University seeks a community that is free from violence, threats, and intimidation; that is respectful of the rights, opportunities, and welfare of students, faculty, staff, and guests of the University; and that does not threaten the physical or mental health or safety of members of the University community.**

3. **The University is dedicated to responsible stewardship of its resources and to protecting its property and resources from theft, damage, destruction, or misuse.**

4. **The University supports and is guided by state and federal law while also setting its own standards of conduct for its academic community.**

5. **The University is dedicated to the rational and orderly resolution of conflict.**

6. **Students are entitled to the rights and responsibilities of other citizens with regard to freedom of speech, peaceable assembly, and right to petition. Students are entitled to exercise their rights to inquire and dissent, speak freely, and peaceably assemble and protest to the extent permissible under both the First Amendment and the Student Conduct Code.**

7. **Students are entitled to due process and procedural fairness protections, including the prompt notification of charges, the opportunity to respond, the right to an advocate of choice, and the right to the resolution of a case within a reasonable period of time.**

Any student or student group found to have committed, attempted to commit, or assisted or abetted another person or group to commit the following misconduct is subject to appropriate disciplinary action under this policy:

- **Scholastic Dishonesty.**
- **Disruption of the Academic Environment.**
- **Falsification.**
- **Refusal to Identify and Comply.**
- **Attempt to Injure or Defraud.**
- **Harm to Person.**
- **Bullying.**
- **Sexual Misconduct.**
- **Disorderly Conduct.**
• Illegal or Unauthorized Possession or Use of Weapons.
• Illegal or Unauthorized Possession or Use of Drugs or Alcohol.
• Providing Alcohol to Minors.
• Unauthorized Use of University Facilities or Services.
• Theft, Property Damage, or Vandalism.
• Unauthorized Access.
• Disruptive Behavior.
• Hazing.
• Rioting.
• Violation of University Rules.
• Violation of Local, State, or Federal Laws or Ordinances.
• Persistent Violations.

Scholastic Dishonesty and Plagiarism

Students are responsible for maintaining scholastic honesty in their work at all times. Students engaged in scholastic dishonesty will be penalized, and offenses will be reported to the Office for Community Standards.

The University’s Student Conduct Code defines scholastic dishonesty as “plagiarism; cheating on assignments or examinations; engaging in unauthorized collaboration on academic work; taking, acquiring, or using course materials without faculty permission; submitting false or incomplete records of academic achievement; acting alone or in cooperation with another to falsify records or to obtain dishonestly grades, honors, awards, or professional endorsement; altering, forging, misrepresenting, or misusing a University academic record; or fabricating or falsifying data, research procedures, or data analysis.”

• Copying information word for word from a source without using quotation marks and giving proper acknowledgement by way of footnote, endnote, or in-text citation;
• Representing the words, ideas, or data of another person as one’s own without providing proper attribution to the author through quotation, reference, in-text citation, or footnote;
• Producing, without proper attribution, any form of work originated by another person such as a musical phrase, a proof, a speech, an image, experimental data, laboratory report, graphic design, or computer code;
• Paraphrasing, without sufficient acknowledgment, ideas taken from another person that the reader might reasonably mistake as the author’s; and
• Borrowing various words, ideas, phrases, or data from original sources and blending them with one’s own without acknowledging the sources.

It is the responsibility of all students to understand the standards and methods of proper attribution and to clarify with each instructor the standards, expectations, and reference techniques appropriate to the subject area and class requirements, including group work and internet use. Students are encouraged to seek out information about these methods from instructors and other resources and to apply this information in all submissions of academic work.”

Serious, intentional plagiarism will result in a grade of “F” or “N” for the entire course. For more information on this policy and for a helpful discussion of preventing plagiarism, please consult University policies and procedures regarding academic integrity: https://communitystandards.umn.edu/

Students are urged to be careful that they properly attribute and cite others’ work in their own writing. For guidelines for correctly citing sources, go to www.lib.umn.edu/instruction/tutorials and click on “Organizing and Citing Research.”

In addition, original work is expected in all coursework. It is unacceptable for students to hand in assignments for any course for which they received credit in another course unless by prior agreement with the instructor. Building on a line of work begun in another course or leading to a thesis, dissertation, or final project is acceptable.

All issues relating to academic misconduct in the School of Public Health are referred to the Associate Dean of Education.

Sexual Harassment, Sexual Assault, Stalking and Relationship Violence

This policy governs the commitment to the prevention and awareness of and response to sexual harassment at the University of Minnesota.

The University of Minnesota and the School of Public Health are committed to creating a respectful community that is free of harassment. If you see or experience sexual misconduct during a divisional, school, or university related event, or at a professional event (such as at a conference), please consult with a University employee with whom you feel comfortable, or directly report to the Office of Equal Opportunity and Affirmative Action (EOAA) so that they can review the situation. The EOAA will work with you to determine the best course of action to prevent any further misconduct or retaliation.
If you would like more information about sexual misconduct or would like to talk through an experience, The Aurora Center, Student Counseling Services, and Boynton Health Center provide confidential services and resources to help you better understand your rights and the resources available on campus.

Research Involving Human Subjects

This policy governs all research involving human subjects conducted at the University of Minnesota or by University faculty, staff, or student researchers.

Any research you conduct while a student at the University of Minnesota may be subject to review and approval by the University's Institutional Review Board (IRB) for the protection of human research subjects. This applies to projects conducted inside or outside the University. For research conducted outside of the University, students may still need IRB approval from the University even if approval has been obtained from an external agency. Any research involving human subjects must be reviewed by the IRB.

The IRB is a committee of faculty, students, and community members that follows federal regulations and ethical principles in order to protect human research subjects.

If your proposed research project is subject to IRB review, you must submit an application to the IRB before you begin. **You cannot begin any regulated research until you have IRB approval.** This includes sending out recruitment flyers or emails, accessing private data, or doing any aspect of your research. You may not be permitted to use any data that was collected without prior IRB approval. The IRB does not have the authority to approve a study after it has begun.

The IRB approval process may take as little as one week, but can take up to 2 months or longer. "Last minute" approvals are not possible, so it is important to plan ahead. Applications for international research, research with children, research about illegal or stigmatizing behavior, research with vulnerable populations, or research that incorporates deception often require more review time.

**IRB Contact Information**

(612)626-5654
irb@umn.edu
research.umn.edu/units/irb

Projects that are not subject to IRB review include studies that rely on existing publicly available data, such as US Census data. If you are only doing an analysis of publicly available data (i.e., data you can download from a public website) you do not need IRB approval to use it. Technically, such work is research but does not involve living individuals from whom you collect information. On the other hand, an oral history study may not require IRB because it is not a systematic investigation designed to contribute to generalizable knowledge. However, there are many grey areas, so students proposing such work are strongly encouraged to contact the IRB to determine whether their project requires approval.

Additional guidelines for students involved in international fieldwork

If you plan to use data collected as part of your international field experience for your culminating experience project, you are strongly encouraged to contact the IRB before your field experience begins to ensure that your project is approved in a timely manner. You will not be allowed to take data out of the host country without IRB approval.

Grading & Transcript Policy

This policy covers University-wide grading standards and the meaning of transcript symbols. A standard grading system establishes a common understanding of the meaning of grades and promotes uniformity in assigning them. Defining grades and their associated meaning (grade points and assessment of achievement) allows for comparison and for computation of the term and cumulative grade point average.

Leave of Absence

Graduate students who experience circumstances that prevent them from maintaining active status through continuous registration (excluding summer term), and who, through consultation with their Director of Graduate Studies (DGS), Program Director, advisor(s), and relevant offices determine that a leave of absence (LOA) is appropriate, must request a LOA from their college office using this form. Graduate students must receive approval for an official Leave of Absence.

Forms must be submitted to the School of Public Health Student Services Center, A395 Mayo Memorial Building, MMC 819, 420 Delaware Street SE, Minneapolis, MN 55455.
5.3 COMPLAINTS AND GRIEVANCES

The SPH seeks to be aware of and responsive to student issues and complaints. There are numerous ways for you to channel your academic and student life concerns:

- Provide comments on the yearly student survey released every March.
- Meet with your advisor and/or program coordinator.
- Raise the issue with your program director or director of graduate studies, either individually or in a meeting set up for this kind of feedback.

The SPH takes all student concerns seriously and we welcome your input in any of these ways. If the matter is not handled satisfactorily by any of these methods, or if the issue is particularly widespread or serious, please make an appointment with Dr. Kristin Anderson, Associate Dean for Learning Systems and Student Affairs, at ander116@umn.edu.

The University provides resources as well. Report incidents of bias, discrimination, or harassment to the University Office of Equal Opportunity and Affirmative Action at eoaffact.umn.edu. For student issues that are not resolved through SPH channels or for which you seek external support, the Student Conflict Resolution Center will assist in resolving campus-based problems or concerns sos.umn.edu.

Bias Grievance Process

**Purpose:** The School of Public Health strives to value and respect all that our students bring to the SPH community. However, events or conflicts may occur both in and out of the classroom that are deemed inappropriate and inconsistent with this value. Students have a right to report these concerns or incidents of bias. In order to address student reports in a confidential and supportive manner, the SPH developed a basic process that is outlined below. Specifically, if you are a student within the SPH, and feel you have been a victim of discrimination or bias based on your identity or beliefs; please reach out to the Coordinator of Diversity, Equity, and Inclusion.

**Intent:** Students may not know all the resources available on campus to address bias-related issues, or they may not feel comfortable reporting these issues or concerns to university offices. Moreover, students may simply wish to talk through an experience before making any other decision. The Coordinator of Diversity, Equity, and Inclusion (DEI) can serve as this point of discussion and referral.

**Process:** Below is set of process points related to addressing grievances. This is not an exhaustive list of steps, but an outline of critical pieces, meant to give both students and administrators an understanding of what may happen.

1. The Coordinator of DEI, or another SPH administrator, will meet with the aggrieved student to collect information regarding an incident or issue.
2. The Coordinator, or other SPH administrator, may then talk with faculty, staff, or other students to ascertain the context of the incident, as well as the intent and impact of the situation as a whole. It is our intent to move expeditiously, but this process may take several days depending on the schedules of the involved parties.
3. Consult with related office(s). Coordinator of DEI will use all of the available information to help determine whether the situation should be handled by another office or individual (ex: Equal Opportunity and Affirmative Action).
4. Where applicable, the Coordinator will identify and recommend options for resolution.
5. The Coordinator will consult back with student and communicate next steps. These may include (but are not limited to) referral to another campus office or administrator, offer for facilitation or mediation, or a class change.

Our hope is to find reasonable resolutions that will make the aggrieved party/parties feel heard, understood, and continuously welcomed in the SPH community. The coordinator can also provide informal support while the student works with another office to find a resolution.

Note regarding retaliation: The University of Minnesota and the School of Public Health prohibit retaliation against anyone who raises concerns about discrimination, harassment, sexual violence, or nepotism; opposes such practices; or participates in an investigation. Retaliation may include intimidation or harassment. If you feel you have been a victim of retaliation in regards to a report please communicate with the Coordinator of DEI or another administrator in the School of Public Health.
5.4 PRIVACY

The School of Public Health is committed to protecting the privacy of students, staff, and research participants. Students have privacy rights that assure confidentiality of their student records. In addition, research participants have many rights that guarantee their safety and privacy.

Often School of Public Health students work as Teaching Assistants or Research Assistants; both roles may require access to confidential or private information. Please be aware of privacy laws, complete assigned/required privacy trainings, and act with the highest honor towards all private information.

For further information, go to privacy.ahc.umn.edu.

FERPA (Family Educational Rights and Privacy Act): Student Records

FERPA grants four specific rights to a post-secondary student:

1. To see the information that the institution is keeping on the student.
2. To seek amendment to those records and in certain cases append a statement to the record.
3. To consent to disclosure of his/her records.
4. To file a complaint with the FERPA Office in Washington.

In addition:

- U of MN Faculty and Staff have a legal responsibility, under FERPA, to protect the confidentiality of your student educational records.
- Student educational records are considered confidential and may not be released without written consent of the student.
- Student information stored in electronic format must be secure and available only to those entitled to access that information.

5.5 INTERNATIONAL STUDENT REQUIREMENTS

Note: International student requirements may change over time. For up-to-date information go to isss.umn.edu.

Global Gopher Online Orientation

The Global Gopher Online Orientation is a tool to help new international students prepare for their arrival at the University by learning about certain expectations and requirements. Students are required to complete the Global Gopher Online Orientation at least one week before their Immigration Check-In.

Immigration Check-In

All new international students must visit the University of Minnesota International Student & Scholar Services office (ISSS) shortly after arrival in Minnesota. See isss.umn.edu for directions, office hours, and services. ISSS will review immigration documents, register new students for the International Student Orientation Program, and provide information on how to release registration holds. These processes are mandated by the Department of Homeland Security (DHS); formerly known as Immigration and Naturalization Service (INS).

International students are allowed to enter the U.S. only within 30 days of their program start date. Regulations and SEVIS requirements provide strict guidelines regarding this date, to coincide with the term of admission.

Student and Exchange Visitor Information System (SEVIS)

SEVIS is an electronic reporting system that provides the Department of Homeland Security with information on international students and scholars in the United States who hold F, J, and M visas. This internet-based record-keeping system maintains electronic data on all international students. The system tracks entries into and departures from the U.S.

In addition to the information routinely reported on I-20 and DS-2019 forms, other information is reported, including but not limited to: academic status, employment, and residential address.

For more information on SEVIS requirements, including those listed below, go to isss.umn.edu.

Academic Status

International students must maintain full-time status. MPH students must register for at least six credits each semester. Under special conditions, students may apply for an exemption from the full-time status rule at the ISSS office. Students must apply for the exemption before registering for less than a full course of study.

Address Change

International students MUST update their address within ten days of a change of address to maintain their legal immigration status. For more information go to isss.umn.edu/INSGen/address.html.
5.6 COMPLIANCE

Immunizations

According to OSHA regulations, CDC guidelines, and University of Minnesota policy, Academic Health Center (AHC) students are required to have a health clearance as a condition of enrollment. You must complete this requirement by the 6th week of the semester or a registration hold will be placed on your student account. In addition, Internship or Applied Practice Experience locations may require additional immunizations based on the location and/or work being performed. Finally, international experiences may also require other immunizations; international requirements are listed here: Travel.

More details and the downloadable Student Immunization Record form are available from Boynton Health Service at boynton.umn.edu/immunization-requirement. You can also stop by Boynton to schedule services, click here for more information boynton.umn.edu.

HIPAA (Health Insurance Portability and Accountability Act)

HIPAA is a federal law related to the privacy of an individual’s health care information.

All students in the Academic Health Center (AHC), including School of Public Health students, must complete the University’s online HIPAA Privacy training. The University of Minnesota provides online training courses on proper handling of health information and information security; everyone must complete this training, even if they don’t work directly with Protected Health Information. This is because students may have incidental contact with Protected Health Information, and because students may encounter HIPAA violations, and are required to know how to respond to these violations.

This training consists of two separate training courses that you may complete online: (HIP016) HIPAA Training; and (ISA17) University Information Security Awareness Training.

Login to https://training.umn.edu/ and select My Training to see if you have been assigned the training, or click Course Catalog and enter the course name or number above.

Criminal Background Checks

Students should be aware that Minnesota law may require certain facilities to conduct a criminal background check for all personnel with direct, and/or unsupervised client contact. Facilities that are covered by this law include hospitals, boarding care homes, outpatient surgical centers, nursing homes, home care agencies, residential care homes, board/lodging establishments providing health supervision services, and work with minor aged children. Students seeking internships or Applied Practice may be required to undergo a background check as well, depending on the agency or facility’s internal policies. The School will assist students with these requirements; students should call the Student Services Center at (612)626-3500 or go to A-395 Mayo for assistance.

Community Engagement Agreement

Many students in the School of Public Health volunteer in the community. Liability insurance is available through the University provided that the student registers for PUBH 0020 (a zero-credit class) and has the approval of their academic faculty advisor. Registration for PUBH 0020 will be officially documented on the student’s transcript; however, the zero-credit course has no tuition, no fees, no credits, and no grades. It is important to understand that a zero-credit registration for a community engagement activity is not a substitute for a required course or field experience.

Prior to registration, students are required to provide information about the experience by completing the Community Engagement Agreement available at secure.ahc.umn.edu/publichealth/sphcommunity. The agreement is complete once it has been approved by the student’s advisor and the Registrar and Director of Academic and Student Affairs.

To complete the Student Engagement Agreement a student must provide the following information:

- Name of the organization
- Address
- Organization phone number
- Supervisor within the organization
- Description of the activity
- Description of how this activity relates to their development as a public health professional
- Semester and date of experience
- Electronic signature of academic advisor

When the agreement is approved, the student will be contacted by email and provided with a registration permission number.

Health Insurance Requirement for AHC Students Participating in Applied Practice/Clerkship/Practicum Experiences

School of Public Health students are expected to have health insurance coverage while participating in their Applied Practice, clerkship, or practicum experiences. This is a University of Minnesota Academic Health Center requirement. A school/program or site may ask a student for proof of health insurance while participating in their AP, clerkship, or...
practicum experience. If the student cannot provide proof of health insurance, indicating they are not in compliance with this requirement, they will be pulled from the experience.

The complete policy can be found at on the AHC Office of Education website.

6. GROUPS, ASSOCIATIONS AND SOCIETIES

6.1 STUDENT GROUPS

School of Public Health Student Senate

The Student Senate is comprised of graduate students from within the School of Public Health: it strives to serve as a representative body for students in SPH. The Student Senate provides a voice for students and allows them to get involved in university government, plan social activities, network with departments, work with faculty, demonstrate leadership skills, assist student organizations in hosting school-wide events, and develop creative solutions to new challenges. Student Senate also provides various grants to students and SPH student groups.

Professional Student Government

The professional student governance on the Twin Cities campus of the University of Minnesota rests with the Professional Student Government (PSG). All currently registered professional students at the University of Minnesota are members of PSG.

PSG represents and serves students in the Carlson School of Management, Law School, Medical School, Dental School, School of Nursing, College of Pharmacy, School of Public Health, College of Veterinary Medicine, College of Education and Human Development, and Humphrey School of Public Affairs. PSG is a resource for its 10-member Councils, the primary contact point for administrative units, a professional student policy-making and policy-influencing body, and as a center of inter- and intra-collegiate interaction among professional students.

Council of Graduate Students (COGS)

The Council of Graduate Students (COGS) is the official student governing board of the Graduate School, representing all Graduate Students at the U of M. The U administration looks to COGS for consultation and direction on all matters pertaining to the Graduate School experience, including Graduate Assistant issues.

Center for Health Interdisciplinary Programs (CHIP)

The Center for Health Interdisciplinary Programs or CHIP is a department of the Office of Education in the Academic Health Center Senior Vice President’s Office. The CHIP Student Center serves all AHC students. CHIP exists to foster interdisciplinary relationships and teamwork between Academic Health Center students. CHIP provides educational, leadership, and service opportunities for students.

Minnesota International Student Association (MISA)

The Minnesota International Student Association (MISA) is a non-profit organization that aims at working in the interest of international students at the University of Minnesota. MISA represents the international community of the University of Minnesota Campus. There are over 6000 international students on this campus, whose length of stay varies from three months to several years. MISA plays a vibrant role in students’ social lives, by being the forum for international students on the U of M campus and by organizing events throughout the year.

Other Groups

SPH is home to a number of student organizations. Some are registered campus groups and others are more focused on a division or program. In addition, there are more than 400 student groups on campus are registered with the University’s Student Unions and Activities Office, including academic societies, cultural centers, sports clubs, political action groups and fraternities and sororities. These organizations provide students with endless involvement opportunities and the chance to interact with others who share a similar interest.

If you want to know more about current SPH groups or are interested in forming a group within the School of Public Health, please contact sph-ask@umn.edu.
6.2 PUBLIC HEALTH RELATED ASSOCIATIONS AND AGENCIES

American College of Healthcare Executives  ache.org
The American College of Healthcare Executives is an international professional society of more than 30,000 healthcare executives who lead hospitals, healthcare systems and other healthcare organizations.

American Public Health Association  apha.org
The American Public Health Association (APHA) is the oldest and largest organization of public health professionals in the world, representing more than 50,000 members from over 50 occupations of public health.

Association of Schools and Programs of Public Health  aspph.org/
The Association of Schools and Programs of Public Health (ASPPH) is the only national organization representing the deans, faculty, and students of the accredited member schools of public health and other programs seeking accreditation as schools of public health.

Centers for Disease Control and Prevention  cdc.gov
The Centers for Disease Control and Prevention (CDC) is recognized as the lead federal agency for protecting the health and safety of people - at home and abroad, providing credible information to enhance health decisions, and promoting health through strong partnerships. CDC serves as the national focus for developing and applying disease prevention and control, environmental health, and health promotion and education activities designed to improve the health of the people of the United States.

Council on Education for Public Health  ceph.org
The Council on Education for Public Health (CEPH) is an independent agency recognized by the US Department of Education to accredit schools of public health and public health programs offered in settings other than schools of public health.

Commission on Accreditation of Healthcare Management Education  healthcareadministrationedu.org
The Commission on Accreditation of Healthcare Management Education (CAHME) is the only organization that accredits individual academic programs that grant master’s degrees in healthcare management in the United States and Canada.

Minnesota Public Health Association  mpha.net/
Founded in 1907, the Minnesota Public Health Association (MPHA) is a statewide professional organization actively serving Minnesotans, our members, and the public health profession through its efforts and activities. MPHA is an affiliate of the American Public Health Association.

National Institute of Health  nih.gov
Originally a one-room Laboratory of Hygiene in 1887, the National Institutes of Health today is one of the world's foremost medical research centers, and the Federal focal point for medical research in the U.S.

National Board of Public Health Examiners  nbphe.org
National Board of Public Health Examiners (NBPHE) established in 2005 as an independent organization, the purpose of which is to ensure that public health professionals have mastered the foundational knowledge and skills relevant to contemporary public health.

6.3 ALUMNI SOCIETIES

School of Public Health Alumni Society  sphalumni.umn.edu
The University of Minnesota School of Public Health Alumni Society has members around the world. Consisting of 12,000+ alumni, the SPH Alumni Society plays a key role in the School and public health community as they continue to shape public health policy, conduct ground-breaking research, lead innovative public health solutions and contribute to the future of public health.

Since its inception in 1982, the School of Public Health Alumni Society has worked to serve alumni and students, promote excellence in programs and serve the needs of the School. Membership is automatically conferred upon all graduates, former students who have completed a minimum of 12-18 credits, faculty and administrators of the school.

The SPH Alumni Society is committed to building relationships with students through various activities, including the SPH Mentor Program, partnering with SPH Student Senate, and bringing alumni to students to provide professional development opportunities to students.
The Minnesota MHA Alumni Association was established in 1948 to facilitate ongoing support of the Healthcare Administration program and to continue fellowship among alumni. With 3200+ alumni members, the Association supports MHA students through scholarships, professional connections, and learning opportunities, and strives to provide MHA alumni with ongoing opportunities for education, engagement and philanthropy.
7. DIVISION OF EPIDEMIOLOGY AND COMMUNITY HEALTH (EPICH)

7.1 WELCOME

The Division of Epidemiology and Community Health is one of four Divisions that make up the School of Public Health at the University of Minnesota. The Division Head is Dr. Dianne Neumark-Sztainer. The Division of Epidemiology and Community Health is home to six majors in the School of Public Health:

- Clinical Research MS
- Community Health Promotion MPH
- Epidemiology MPH
- Epidemiology PhD
- Maternal and Child Health MPH
- Public Health Nutrition MPH

EpiCH Student Services:

Kathryn Schwartz-Eckhardt: Director of Epidemiology and Community Health Student Services – Primary contact for prospective students, and curriculum development in master’s and PhD level programs

Christine Vu: Admissions Coordinator – Primary contact for prospective students in master’s and PhD level programs

Shelley Cooksey, Student Advising Manager- Primary contact for current students in master’s and PhD level programs

Martin Farley, Student Advising Coordinator– Primary contact for current students in master’s and PhD level programs

Laurie Zurbey: Academic Support Coordinator – course scheduling, data management, staff support

E-Mail .................. epichstu@umn.edu
Phone.................. 612-626-8802
Fax.................. 612-624-0315
Campus Mail............. WBOB, #300, Delivery Code 7525
US Mail............... 1300 South Second Street, Suite 300, Minneapolis, MN 55454

7.2 THE WEST BANK OFFICE BUILDING (WBOB)

The offices are located in the West Bank Office Building (WBOB) at 1300 South 2nd Street in Minneapolis. Students can find directions to WBOB at https://intranet.sph.umn.edu/about/divisions/epidemiology-community-health/location/.

Forms
Forms are located at: https://www.sph.umn.edu/current/resources/school-and-university-resources/. Microsoft Word documents of all the forms are also available upon request. Contact the EpiCH Student Services Staff at epichstu@umn.edu to obtain the Word documents via e-mail.

Evening and Weekend Access
Division graduate students who do not have a paid appointment in the Division can have access to the student lounge after work hours and on weekends. The student lounges (room 466) is where the student computers are located. Students obtain access by filling out a form to have their UCard programmed for access to the third and fourth floors of WBOB. Students are given the option to sign up for building access at Orientation. After orientation, contact the EpiCH Student Services staff for information at epichstu@umn.edu.

NOTE: There is approximately a one-week turnaround time to get a student's UCard programmed, so please plan accordingly.
Computer Lab
The Division computer lab in WBOB includes several PC's available for student use. The computer lab is located in the student lounge in room 466. The general policy for use of these computers is that they are for Division graduate students for work pertaining to their degree program. All of the computers have SAS and STATA. Printers are available.

Copier and Fax Access
Students should also refer to section 1.4 for printing options.

The Division does not allow copy machines or fax machines to be used for personal use. Personal copies can be made for a cost at various locations throughout campus. Unfortunately, there is not a copier for use in WBOB.

7.3 Division Communication with Students
The Division communicates information to students in the following ways:

- **E-mail:** Students should also refer to e-mail policy in section 2.1. Students are expected to check their U of M email regularly. Communication between the Division and students regarding changes in programmatic requirements or announcements, as well as advisor, faculty, and student-to-student contacts is usually through e-mail. If you do not register for courses you will lose access to your e-mail account and will need to contact the Technology Helpline to restore your access. Alumni maintain lifetime access to their University e-mail account as long as the account is accessed on a regular basis.

- **My U Portal:** This is a form of communication and information exchange within the University. Students are expected to check their portal regularly. Access to the portal is available at [https://www.myu.umn.edu/](https://www.myu.umn.edu/).

- **Weekly SPHere:** A weekly electronic publication for students. This publication contains important deadline reminders as well as updates on students and faculty research and activities.

- **University News:** The University of Minnesota student newspaper is called The Daily and is available campus-wide.

7.4 Seminars
The Division of Epidemiology and Community Health sponsors scientific seminars between September and June to exchange ideas and research findings pertinent to the field. Because the Division has a large faculty, staff and student body, the seminar provides a forum for exchange of information among people who may not otherwise meet or work together. All faculty and students are strongly encouraged to attend regularly.

Division faculty members and other scientific staff are asked to present at least one seminar every two years. Each year, the seminar brings in several scientists from outside the Division.

Notices are posted in the Division's third floor reception area as well as sent out electronically. Most seminars are held 10:00-11:00 a.m., on select Fridays, in Room 364 of WBOB. Seminars by visiting scientists may be at other times. Students can check the EpiCH Web site for seminar information by going to [https://intranet.sph.umn.edu/about/divisions/epidemiology-community-health/epich-seminar-and-in-services/](https://intranet.sph.umn.edu/about/divisions/epidemiology-community-health/epich-seminar-and-in-services/)

7.5 Academic Credit for Independent or Directed Coursework
Independent and directed coursework can be taken to fulfill elective credits and can take many forms depending upon the student's interests and needs. All independent/directed coursework needs the support of a Division of EpiCH faculty member who agrees to serve as an "instructor/advisor" for the independent or directed course. The expectation is that the student has something specific to propose prior to approaching a faculty member.

To fulfill the course requirements, the student and instructor should agree on the type, scope, and length of a final academic "product" whether it is a paper(s), an annotated bibliography, curriculum, training modules, media piece(s), etc. It is expected that the faculty member and student will meet regularly during the term.

It is very unusual for students to take more than four credits total of independent or directed coursework (over and above any credits earned for the Applied Practice Experience (AP) or Integrated Learning Experience (ILE)/thesis requirement). Students are expected to fulfill the majority of their elective credits through regularly-scheduled courses.
Examples of Independent and Directed Coursework

1. Students interested in a theory, an evaluation method, or a skill not covered in depth in a specific course could arrange for an independent study course with a faculty member knowledgeable in that area and/or willing to work with the student.

2. The student wants to attend a conference, workshop, or mini-course, but there is no academic credit involved. The student must find a faculty member willing to work with the student to develop academic work over and above the actual event to fulfill some elective credits. This must be arranged ahead of time, not after the event has occurred.

Additional comments
Arranging an independent/directed course depends upon the student putting together an academically rigorous proposal and finding a faculty member to serve as an instructor. The faculty instructor does not have to be the student's academic advisor or Integrated Learning Experience (ILE) advisor. The instructor must be a member of the major associated with the course number; see below.

The student should also receive prior approval from the EPICH Student Services staff to count the independent/directed work as an elective course.

Choosing Course Numbers
Independent study, directed study, and readings courses are available within the Division of Epidemiology and Community Health. The student and instructor should agree on the course number/title that most closely matches the work being proposed. Course options are:

- PubH 7091 Independent Study: Community Health Promotion (only CHP faculty can serve as instructor)
- PubH 7391 Independent Study: Epidemiology (only Epi MPH or Epi PhD faculty can serve as instructor)
- PubH 7392 Readings in Epidemiology (only Epi MPH or Epi PhD faculty can serve as instructor)
- PubH 7691 Independent Study: Maternal and Child Health (only MCH faculty can serve as instructor)
- PubH 7991 Independent Study: Public Health Nutrition (only PHN faculty can serve as instructor)
- PubH 8392 Readings in Clinical Research (only Clinical Res. graduate faculty can serve as instructor)
- PubH 8393 Directed Study: Clinical Research (only Clinical Res. graduate faculty can serve as instructor)

Note: Other majors in the School of Public Health may have independent/directed coursework opportunities in their areas. Check with the Divisions of Environmental Health Sciences, Health Policy Management, and/or Biostatistics. You could also do an independent/directed course with another graduate-level program. Remember that the EPICH Student Services staff has to approve it as an elective.

Procedures

1. Student meets with the faculty member to discuss the requirements for the independent/directed course.

2. Student fills out an Independent/Directed Study Contract form outlining the requirements for the course and has the form signed by their academic advisor and Independent/Directed Study instructor. This information is vital to receive proper credit for this course (i.e., a grade). The instructor needs to agree to work with the student and both need to agree on the requirements. You can request this form by contacting us at epichstu@umn.edu.

3. Student gives the completed/signed Independent/Directed Study Contract to the EPICH Student Services staff. Once the completed form is received you will be sent registration information.

4. At the end of the semester, the instructor assigns a final grade. The grade will then be entered on the official transcript. It is the student's responsibility to make sure that all requirements are completed so a grade can be submitted.

7.6 DIVISION RESOURCES AND POLICIES

Incomplete Grades
Students should also refer to section 3.3.

For MPH students, all required courses (with the exception of Applied Practice Experience (AP), internship, or Integrated Learning Experience (ILE)/thesis credits must be completed during the term of registration. Students must complete all course requirements by the end of the registered term so that faculty can submit a grade by the appropriate due date. A grade of incomplete "I" shall be assigned at the discretion of the instructor when, due to extraordinary circumstances, the student was prevented from completing the work of the course on time. The
assignment of an incomplete grade requires an electronic contract between the instructor and student specifying a deadline by which the student will complete the course requirements. In no event may the written agreement allow a period of longer than one year to complete the course requirements. If the requirements of the contract are not met by the contract deadline a final grade will be submitted based on the work submitted to date. Applied Practice Experience (AP), internship, and Integrated Learning Experience (ILE) projects that are not completed by the end of the term of graduation will receive a grade of "K" indicating "work in progress."

PhD Students only: The symbol "I" may be assigned by an instructor to indicate "incomplete," in accordance with the provisions announced in class at the beginning of the semester and outlined on the course syllabus, when in the instructor's opinion there is a reasonable expectation that the student can successfully complete the work of the course. An "I" remains on the transcript until the instructor replaces it with a final A-F or S-N grade. Course instructors are encouraged to establish a time limit for the removal of incomplete grades.

Six Credit Minimum Exemption
The University of Minnesota has a policy that students must register for a minimum of six credits in order to hold a Graduate Assistant position. The policy states that "exemption from [this requirement] is determined on a semester by semester basis" and that "eligibility criteria are to be determined by each graduate program...these criteria will be well publicized and administered equitably among all Graduate Assistants in the program."

The Division Training Committee (DTC) approved the following policy: “Students will almost always be granted a one semester exemption so they can finish their work toward the end of their degree program, but must petition the DTC for more than one semester’s exemption and this would be given under only extraordinary, extenuating circumstances. Extending coursework in order to remain a graduate assistant will not be sufficient reason.” Students who wish to request an exemption should contact Kathryn Schwartz-Eckhardt. It may take several weeks for this request to be reviewed so please submit your request at least one month prior to the start of the term. Graduate Assistants who wish to be exempt from FICA withholding must register for at least three credits per term (one credit for PhD candidates working on a dissertation).

Sitting in on a Class
Students are not permitted to attend a class for which they are not registered. This means that if you are unable to register for a class before it begins for any reason you may not attend the class.

Support for Student Travel (effective 5/2017)
1. The Division will provide up to $600 per student in a 12 month period [a maximum of $3,200 available for all students during the fiscal year] for travel to a scientific meeting under the following conditions:
   - The student is currently enrolled in the Epi PhD/MS/MPH, CHP MPH, MCH MPH, PubH Nutr MPH, or Clinical Research MS program and must be the presenter of the paper or poster. The student has been enrolled in their program at least one term at the time of the conference; the work was done during the time the student was in their program.
   - The meeting can be local, regional, national or international but must have relevance to the student's field of study.
   - There are no other sources of support specifically allocated for such travel. For example, whenever a training grant provides funds for travel for its fellows, those fellows will not be eligible for travel support under this policy. However, students whose work was supported by a research grant with no funds specifically for student travel will be eligible for travel support under this policy. Principal Investigators are encouraged to provide support for student travel from their grants since their grants benefit as well as the students.

2. All requests for travel support must be in writing. The request should be addressed to the Chair of the Division Training Committee and given to Kathryn Schwartz-Eckhardt, who will process the request. The request should include:
   - The dates, location and purpose of the meeting and describe the student's role. A link to information about the conference should also be included.
   - A copy of the abstract and letter of acceptance must be attached to the request. In addition, a letter from a member of the Division's faculty indicating that he/she is familiar with the student's work, judges it to be of good quality, and supports the student's request. The faculty letter should also provide any necessary clarifications on the student's role to ensure that the role of the student in the presentation is clear. The student must be the primary author. If the student is not also the first author, we need a reason why the student is presenting.
   - The request must be made in advance of the scientific meeting. Since the DTC only meets once per month, it is suggested that complete requests be submitted at least six weeks prior to the scientific meeting.
• A summary of the travel expenses (cost of air fare, hotel price, registration fees, etc.).
• Students need to include information about any other sources of funding they have applied for, even if the funds have not been awarded yet, including SPH Student Senate funds.

3. Allocations under this policy will of course be subject to the availability of funds for this purpose.

Payment for TA English Program
If a nonnative English-speaking Division student is required by their degree program to fulfill a teaching assistantship position (i.e. Epidemiology PhD students), the Division will pay one-half the cost of instruction the first time the student takes the course (the University's Office of Academic Affairs pays the other half). Students not passing the exam must pay the costs of any additional instruction.

SAS Access
Students can purchase the SAS program for a fee if it is necessary for them to complete research. Additional information on ordering the software is available at https://it.umn.edu/sas. Please note that all of the computers in the student computer lab (466 WBOB) have SAS.

J.B. Hawley Student Research Award
The Division has established the J.B. Hawley Student Research Award, a small grant mechanism to support research projects. This is a wonderful opportunity for students and post-doctoral fellows to obtain funds for their research, gain experience in grant proposal writing, and receive faculty feedback on their ideas. During the academic year, we will have two separate award categories. The standard award is open to all students and post-doctoral fellows; the doctoral award is open only to doctoral students in Epidemiology. We anticipate two rounds of requests for proposals (one per semester). The chair of the Research Awards Committee will distribute detailed e-mail solicitations for applications.

STANDARD AWARD

Who May Apply?
Students currently enrolled in degree programs in Epidemiology, Community Health Promotion, Maternal and Child Health, Clinical Research, or Public Health Nutrition or post-doctoral fellows in Epidemiology. Proposed projects do not have to be thesis or Integrated Learning Experience (ILE) projects, and may be for any research that involves the applicant (e.g., evaluation of a program for an Applied Practice Experience (AP)). Those who have received previous funding from a Hawley Award will not be eligible for further support until they have submitted the required one-page report for their prior award (see below).

How Much?
$3,500 maximum, including fringe benefits when applicable. PhD students may request a maximum of $7,500 to support thesis research.

How Can It Be Used?
The award may be used to support research activities including supplies and equipment. It cannot be used for stipends or salary support for the applicant.

Please note that before making any expenditure with the award (i.e., ordering, purchasing, hiring, or contracting for services) the applicant must meet with accounting personnel in the Division to ensure that procedures are followed.

How Long?
Normally projects are funded for one year.

DOCTORAL AWARD

Who May Apply?
Students currently enrolled in the doctoral program in Epidemiology. Proposed projects do not have to be thesis projects, and may be for any research that involves the applicant. Those who have received previous funding from a Hawley award will not be eligible for further support until they have submitted the required one-page report for their prior award (see below).

How Much?
$7,500 maximum, including fringe benefits when applicable.

How Can It Be Used?
The award may be used to support research activities including supplies and equipment. It cannot be used for stipends or salary support for the applicant.

Please note that before making any expenditure with the award (i.e., ordering, purchasing, hiring, or contracting for services) the applicant must meet with accounting personnel in the Division to ensure that procedures are followed.

How Long?
Normally projects are funded for one year.

What is the Format for the Proposal?

1. Cover Letter
   Please indicate in the letter whether the project will help support an Integrated Learning Experience (ILE), master’s thesis, PhD thesis, or Applied Practice Experience (AP).

2. Face Page (1 page)
   a. Title
   b. Investigator information, including name, address, telephone, and e-mail address
   c. Your degree program
   d. Collaborating investigators (faculty, staff, students), if any

3. Research Proposal (4 pages maximum; font: 12-point Times or larger)
   a. Background and Significance (1 page maximum):
      Describe the background and justification for the study and state the research questions/hypotheses.
   b. Research Methods (2 pages maximum):
      Describe the study design and detailed methods. Be sure to include information on each of the following issues (and others, as appropriate):
      • Study population
      • Sample selection and recruitment
      • Measurements
      • Data analysis plan (required for both quantitative and qualitative research)
      • Timeline
      • Sample size (justified by formal statistical calculations or other means)
   c. Human Subjects (no page limit):
      All proposals must address protection of human subjects and have the project approved by the University of Minnesota's Institutional Review Board (IRB) prior to receiving funds. However, a project will be reviewed by the Research Awards Committee prior to receiving final IRB approval.
   d. References (no page limit):
      Citations for articles referenced in the background and significance and research methods portions of the proposal should be listed after the Human Subjects section of the proposal.

4. Detailed Budget (2 page maximum):
   The proposed budget should include precise amounts requested in various categories (e.g., postage, supplies, printing, personnel, etc.). Provide a brief justification for the amount requested in each category and state why these funds are needed to conduct the proposed research. The budget should clearly itemize and justify expenditures. If the request is part of a larger project, the proportion to be supported by this award and the rationale and need for this funding mechanism, should be specified clearly.

   The following items are NOT allowed: stipends or salary for the applicant, computer purchase, publication costs (e.g., page charges, reprints), and presentation costs (e.g., travel to a conference, conference fee).

5. Letter of Endorsement from Faculty Advisor (1 page):
   A primary or adjunct faculty member in the Division of Epidemiology and Community Health must provide a brief letter to accompany the proposal, specifically endorsing the applicant’s request. First, applicants must discuss their proposals with the faculty advisor, who must review the proposal before it is submitted. Then, the faculty advisor’s letter of funding endorsement must state that the faculty member has read and provided input on the proposal. The faculty member must also indicate his/her opinion of the quality and importance of the research.

6. Appendices, if needed (no page limit)

Submission
Submit your proposal to the Chair of the Research Awards Committee, Division of Epidemiology and Community Health, Suite 300, 1300 South Second Street, Minneapolis, MN 55454-1015
Review Process
All applications will be reviewed by the Division of Epidemiology and Community Health Research Awards Committee, which includes faculty members representing the major fields. Each proposal will be evaluated according to its scientific and technical merits and public health implications. The most important criteria are (1) importance of the area, (2) quality of proposed research, (3) investigator’s experience and resources to accomplish the project, and (4) relevance to public health.

If you have questions regarding preparation of a proposal, please contact the Chair of the Research Awards Committee. Information regarding the status of human subjects (IRB) applications must be provided to the Committee. Award funds will not be released until Division of Epidemiology and Community Health accounts administration has received notification of Human Subjects Committee approval.

Final Report
A one-page report to the Research Awards Committee on progress and outcome is due on the one-year anniversary date of the award.

Martinson-Luepker Student Travel Award
The Martinson-Luepker Student Travel Award will support Division of Epidemiology and Community Health students pursuing an international Applied Practice Experience (AP) placement in fulfillment of curriculum requirements for a Applied Practice Experience (AP) or Integrated Learning Experience (ILE) project. Funds will be provided to help support the cost of air fare to the international location. Students may request up to $1500 U.S. Students must apply for this award. As part of this application, students should fully describe their proposed Applied Practice Experience (AP) project, including location, populations to be worked with and proposed program activities. The application form can be obtained from EPICH Student Services staff epichstu@umn.edu.

Division of Epidemiology and Community Health Student Support Policies

Doctoral Student Support Policy, for those matriculating Fall 2003 or later
1. Students can be accepted to the program with varying levels of support including no guaranteed support, guaranteed support for the initial year, or support for multiple years.
2. Support levels will be set at the level of an NIH Pre-Doctoral Fellow or, if not an NIH Fellow, not more than 50% RA/TA position. This means that those who accept a pre-doctoral fellowship may not also accept an RA or TA position in the Division. Scholarship or block grant awards are not included.
3. Students on fellowships perform their TA requirement as part of the fellowship, with terms to be negotiated with the training director.
4. Requests may be made to the DGS for levels of RA/TA support up to 75% for students who have passed their preliminary examinations and are working on their thesis. These requests are required to show that such additional work does not delay the thesis defense and graduation.
5. Physicians who are licensed to practice medicine in the United States will have an RA/TA stipend set at the doctoral level. Those who are not licensed to practice will be paid at the Masters level RA/TA position stipend.
6. There is no limit on the number of years of support; however, adequate progress toward degree completion is required for continued support.
7. Students may increase support to 75% during the Summer term.
8. This policy only applies to positions held within the Division. For example, a student with a 50% research assistantship in the Division would also be able to hold a 25% research assistantship in the Medical School.

Policy for Graduate Assistant Pay Scale for Post-Baccalaureate Professional Students
Post-baccalaureate professional students in doctoral-level programs (e.g. dental, medical, law, veterinary students) who have completed two years of their professional studies will be paid at the rate of those who have completed a
Requesting Letters of Support – 10 Tips for Students

The following tips may help you get a positive—and productive—response when you request a letter of support from a faculty member for a fellowship, an internship, a scholarship, graduate school admission, or a professional position.

1. **First Contact: Email is O.K.** Make the e-mail brief. Mention the opportunity for which you are applying, the deadline, what you are requesting, and what you are willing to send for further information (e.g., CV, bullet points, a draft letter). If there is a chance the faculty member will not remember you, mention where you have met.

2. **Think Ahead.** Many faculty members in EpiCH have 10 or more advisees, so they may not be able to respond immediately to student requests. If they receive a request with short notice, they may not be able to respond positively, so contact them well ahead of deadlines so they can schedule your request. **Deadlines:** Clearly convey the deadline for the materials you are requesting. It is also fine to re-contact the faculty member a week before the deadline as a gentle reminder. Such contact should include, in addition to the reminder about the deadline, your reiteration that you are happy to provide additional information about yourself, or the opportunity and details about where and how to submit the reference (in case the original contact information was misplaced).

3. **Request Letters From People You Know.** A letter from someone who does not know you well may not be a strong letter, as the lack of familiarity is usually reflected in the text. Many requests for references also require individuals to specifically indicate how well they know an applicant. Reviewers may not give much weight to a referral from someone who does not know the applicant well—and they may wonder why the applicant did not select someone who knows her/him well. For example, they could think that either the applicant does not know anyone well OR everyone who knows the applicant well would write a lousy letter—both imagined scenarios are bad. **Try to gauge if the person can write a “good” letter for you.** A strategy is to ask this question directly: don’t ask “will you write a letter for me?” Instead, ask “will you write a supportive letter for me?” A hard life lesson is that some faculty members may be unable to strongly recommend you, and it is best to find that out—and respect it—before you agree that the person will write a letter. Most faculty members will reveal any hesitation they have and it is important to listen to it and accept it. A tentative, or a poor, letter can have a strong negative impact on an application.

4. **If You Contact Someone Who Does Not Know You Well, Be Professional.** An exception to item #3 is when you **have** to ask Program Directors or Division Heads for letters of support because their support is required by the applicant organization. If you don’t know such people well, and must request a favor, use his/her last, rather than first, name (i.e., Dr. Smith instead of Judy) when you make your first approach. In EpiCH, you will likely be told to use his/her first name, but your professionalism will be noted and appreciated.

5. **Don’t Assume Faculty Members Know Anything About The Applicant Organization.** There are hundreds of fellowships, scholarships, etc. for which faculty members are asked to write letters. Faculty members have little or no connection with many organizations beyond writing letters for students. They often receive what, to them, are garbled messages, with acronyms instead of full organization names, and find them incomprehensible. Don’t rely on acronyms or assume any knowledge about the opportunity for which you are applying, even if it is at the SPH or UMN. **To inform faculty members,** it is fine to e-mail them URLs and PDFs about the applicant organization, but also include a 1-page synthesis of relevant information. You are asking the faculty member to volunteer time: don’t ask him/her to also go to a website and/or open multi-page PDFs. Those materials can be optional—your one-pager should be all your letter writer needs, along with your CV and some guidance about the text of the letter.

6. **Don’t Assume Faculty Members Know You Well Enough To Write A Great Letter Or That They Have Time for a One-Hour Interview To Prepare For The Letter.** A great strategy is to offer to provide bullet points about your qualities, eligibility, and interest in the opportunity that can be used by the faculty member to frame the letter. You may even offer to write a draft letter. You are in the **best** position to draft a successful letter and it is not uncommon to provide such help for letters of reference.

7. **Make Sure Faculty Members Have The Contact Information.** Clearly indicate where the letter or rating sheet should be sent! One of the most common—and frustrating—mistakes made by students is to omit this information, resulting in unnecessary contacts, delays, and poor impressions.

8. **Make Sure You Are Eligible For The Opportunity And That You Intend To Apply Before You Ask for a Letter.** Unfortunately, it is common for faculty members to write letters, only to be told by students that they found out they were ineligible or decided not to apply after all.

Master’s degree. Those who have not completed the first two years will be paid at the rate of those whose highest degree is a bachelor’s degree. This policy is effective beginning Spring semester, 2004. Adopted 12/17/03.
9. **Make Sure The Materials You Provide Do Not Have Typos and Grammatical Errors.** The written word is influential: we often base our impressions about someone’s intellectual qualities on the quality of his/her writing. While this may not be fair, it is what academics (and others) do. You are asking for a laudatory letter of reference, so make sure that your CV, 1-pager, bullet points/draft letter, are clearly and properly written.

10. **Thank The Faculty Member For Writing The Letter And Follow-Up.** It is surprisingly common for students to not thank a faculty member after an application is complete and even less common for students to let faculty members know if they received the scholarships, fellowships, internships, jobs, etc. for which they applied. Faculty members commit time to letters of reference because they want students to succeed—they are rewarded with thanks and updates.

**7.7 DIVISION ADVISING INFORMATION**

**Team approach to Advising at the Master’s level**

At the master’s level students are advised by a team which includes their academic advisor, staff from the EpICH Student Services office, an AP advisor, and the Program Director for their major. The role of the academic advisor is to advise students on things like their career goals and objectives, provide advice for securing an Applied Practice Experience (AP), and help students with their initial Integrated Learning Experience (ILE) planning. The role of the EPICH Student Services staff is to assist students with course planning, petitions, and to provide general procedural advice. The role of the AP advisor is to guide the student in the learning agreement process and to help determine appropriate competencies that will be met as well as what products will be acceptable for that placement. The Program Director will meet with students as a group to discuss issues related to the entire major and is also available to assist students with any issues they might be having with the program.

**Guidelines for Faculty/Student Interactions**

Faculty members often develop close working relationships with students, especially advisees. Often a relationship is formed that provides benefits to both the faculty member and the student. Faculty should be cognizant of the power differential in these types of relationships and set appropriate boundaries. Although faculty members may not intend that a request of a student be an obligation, they should be aware that such requests might place a student in a difficult position. Some students are intimidated by faculty members and may not feel free to decline such requests. Since faculty/student interactions often are situations that are ambiguous, included below are examples to help you think through a variety of situations that you may encounter:

- **A faculty member asking you to drive them somewhere, including the airport, home, or main campus.** Such a request does not fall under a student’s duties. A situation when this may be acceptable is when the student has the same destination.

- **A faculty member asking you to work extra hours or late hours.** Students should be expected to work the hours for which they are paid. Students may volunteer to work extra hours to gain more experience (e.g. grant writing), gain authorship on a paper or help meet a deadline – but should not be expected to work these extra hours.

- **Your advisor asking you to housesit, take care of children or pets, or help them move.** While some students may not mind house sitting, taking care of children or pets, or helping someone move, others may only agree to do these jobs because they feel obligated or worry that saying no will somehow affect their relationships with faculty members. To avoid problematic situations, a faculty member may post a flyer requesting a sitter or mover for pay without the faculty member’s name attached to the request – ensuring that respondents really want the job.
Faculty members who are uncertain about the appropriateness of requests they have for students should consult with the DTC Chair. Students should talk with their Program Director, DGS, or EpiCH Student Services staff if they have concerns about the appropriateness of requests from faculty members.

The University of Minnesota's Board of Regents policy on Nepotism and Consensual Relationships (including student and faculty relationships) can be found at http://regents.umn.edu/sites/regents.umn.edu/files/policies/Nepotism%26Personal.pdf.

Confidentiality

Student records—including materials related to advisees—are protected under Federal Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99; 1974) and the Student Data Privacy Act. Student information should be secure—not left in an unlocked location. If advisors have a concern about a particular student, only EPICH Student Services staff, appropriate Program Director/DGS, or DTC Chair should discuss the situation and have access to records. Any confidential information shared by a student with a faculty member must remain confidential—whether the student approaches you as an advisor, instructor, Program Director, DGS, or DTC Chair. Talking about individual students in hallways and other public areas should be avoided.

If a faculty member feels he/she must consult with another faculty member about a student, consider talking about the issue without providing the name of the individual student. If the student’s name must be shared, tell the student ahead of time that you intend to talk with the Program Director (or other appropriate person) about the issue in question. Some issues, such as sexual harassment, are governed by law and require faculty members to report the problem to the Division Head. In these situations, explain to the student that you are required to report the incident/problem.

Guidelines for Changing Advisors

Master’s Students

At the master’s level, students may change academic advisors if they have serious personality or other conflicts with their assigned advisor. In that case, they should discuss their reasons and their preferences for a different advisor with the program director or the EpiCH Student Services staff. The change will be finalized at the discretion of the program director.

PhD Students

Many PhD students shift their courses of study and focus over their graduate careers, but doing so does not necessarily require a change in advisors. Faculty advisors can facilitate students’ academic development, by working directly with them or by encouraging them to gain experience with other faculty members (e.g., through research or teaching assistantships or grant-writing opportunities). Sometimes students work more closely with one (or more) members of their committees than with their advisors. Faculty advisors can also suggest changes in committee membership to accommodate a change in dissertation focus.

Once PhD students have begun work on their dissertation, changing advisors should be rare, and limited to circumstances of personality conflicts, major ethical problems, or substantial shifts in areas of interest. Students wishing to change graduate advisors should consult with the Director of Graduate Studies (DGS). Likewise, faculty who are considering a change in their role as an advisor should consult with the DGS. Changes in graduate advisors should be approved by the DGS and forwarded to the EpiCH Student Services staff who will file the change with the Graduate School.

Guide to Mission, Definitions and Expectations of Advising

Mission Statement

The School of Public Health strives to provide advising that promotes collaboration among students, staff and faculty to enhance students’ academic and professional development in the field of public health. The School’s goal is educational and experiential excellence that prepares students for successful careers improving the health of populations.

Defining Advising

Refer to section 1.9.

Advising Expectations for Students

SPH students are expected to...

- Regularly read and respond to University email (ideally once per day); email is the official mode of communication at the University of Minnesota
- Review program objectives and educational documents at least once per semester, (i.e. Student Guidebook, etc.), or when directed by EPICH Student and Support Services staff or Program Director/DGS; students are responsible for knowing the requirements of the degree program
- Actively contribute to a welcoming and supportive SPH climate
• Initiate meetings with advisor(s) at least once per semester; regularly communicate with faculty advisor(s) and/or EPICH Student Services staff about program progress
• Respond to inquiries from faculty or staff in a timely manner (ideally within 5 – 7 business days)
• Behave in a professional and courteous manner; fulfill educational and advising commitments, such as appointments, project deadlines, etc.

Advising Expectations for Faculty
Faculty advisors are expected to...

• Refer advisee to EPICH Student Services staff for course planning/scheduling, policy and procedural information
• Review program objectives and educational documents at least on an annual basis, (i.e. Student Guidebook, etc.), or when directed by EPICH Student Services staff or Program Director/DGS
• Actively contribute to a welcoming and supportive SPH climate
• Initiate meetings with advisee at least once per semester; regularly communicate with students on program progress
• Respond to student inquiries in a timely manner (ideally within 5 – 7 business days)
• Provide reasonable office hours and/or appointments and be generally available to student inquiries; communicate with students about extended absences or travel
• Serve as a model and example of respectful behavior
• Provide referrals to school and university resources when appropriate (e.g. Student Mental Health Services)
# 8. MATERNAL AND CHILD HEALTH MPH DEGREE PROGRAM

## 8.1 FALL 2019 STANDARD AND ADVANCED STANDING (FORMERLY ONLINE) PROGRAM CURRICULUM

Advanced Standing = 42 Semester Credit Minimum  
Standard = 48 credit Minimum

Please note that students must take the following courses A/F and receive a grade of B- or higher: All MCH Core Content courses; PubH 6673 Grant Writing; PubH 6034/PubH 6852 Program Evaluation; and all Public Health Core Courses.

<table>

**If choosing to take PubH 6414 you must also take a one credit SAS class (PubH 6325, Pubh 6420 or Pubh 6107)**

**Elective Credits/Concentrations**
Elective courses are usually taken during the second year. Electives must be 5XXX level or higher and may be taken within the School of Public Health or in other areas of the University.

### 8.2 OTHER MPH DEGREE REQUIREMENTS

The basis for all MCH graduate program curricula in the U.S. are the Maternal and Child Health Competencies ([http://www.atmch.org/sites/atmch.org/files/documents/mchcomps.PDF](http://www.atmch.org/sites/atmch.org/files/documents/mchcomps.PDF)). They were developed by the education committee of the Association of Teachers of Maternal and Child Health and approved by the membership and the Association of Schools of Public Health MCH Council in 1993 and revised in 2001. Achieving these competencies permit MCH professionals to perform the MCH essential services in the broader context of public health core functions.

MCH curricula are also informed by competencies identified by the Council on Education for Public Health, an independent agency that accredits schools of public health.
Time Frame
The maximum time allowed by the School of Public Health for completion of an MPH degree is five years. The five-year period begins with the first term of enrollment after admission to a degree program in the School.

Course Transfer Credits
Students should refer to section 3.4.

Course Substitutions and Waivers
All student requests that deviate from the degree curriculum requirements outlined in this Guidebook must be made on a Petition form. The Petition form can be found at http://policy.umn.edu/forms/otr/otr172.pdf.

Students should note that the process for approving a course substitution or waiver could take up to one month, so plan accordingly.

Course Substitution Procedures

The process outlined below should be followed when requesting that a course substitute for a required course in the degree program.

1. Obtain the course syllabi of the required course in your degree program and the proposed substitute course and a transcript on which the proposed course grade has been posted (if the proposed course has already been completed).

2. Complete the Petition form with the following information in each section:
   - Briefly state the exception or approval to be considered: describe the course requested for substitution including the course title, number of credits, term and year taken, and the name of the institution where the course was taken. Also list the course/requirement in your degree program for which you are asking for the substitution.
   - Provide an explanation or reason to grant your request below: Indicate what skills and/or content overlaps between the required course(s) and the proposed substitute course(s).

3. Compile the above materials and submit these materials to the EpiCH Student Services staff via email at epichstu@umn.edu who will forward it to the appropriate Credentials Committee for review. The student will be notified via e-mail of the committee’s decision.

4. If the substitute course is to replace a School of Public Health Core course (administration—PubH 6751, behavioral/social science—PubH 6020, biostatistics—PubH 6414/6450, environmental health—PubH 6101/6102, epidemiology—PubH 6320/6341, ethics—PubH 6741, Foundations Public Health PubH 6250, there is an additional step to get School-level approval. To complete this next step, provide the materials to the EpiCH Student Services staff. Upon receipt of those materials, the materials will be reviewed with the Program Director and then if approved by the Program Director, the request will be forwarded to the SPH Student Services Center to be presented to the appropriate SPH Educational Policy committee members. The student will be notified via e-mail of the committee’s decision. If the Program Director does not approve of the request, the EpiCH Student Services staff will inform the student that the request will not be forwarded to the SPH Educational Policy Committee for review.

Application for Degree
MPH students are required to submit an Application for Degree form online. There are strict deadline dates before a student can be cleared for graduation. You must submit the form by the end of the first business day of the month in which you want your degree conferred. You must apply on-line by going to www.myu.umn.edu: ACADEMICS: DEGREE PROGRESS: APPLY TO GRADUATE

8.3 PLANNING YOUR SCHEDULE

Students are strongly encouraged to develop a draft plan for degree completion sometime during the initial term of registration. This draft should be reviewed by the EpiCH Student Services staff, at epichstu@umn.edu for feedback. Be aware that course offerings can change and that the specific terms and format of course offerings in the program curriculum above is current as of the writing of the Guidebook. Please check actual offerings on a regular basis.
8.4 APPLIED PRACTICE EXPERIENCE (AP)

Introduction

The Applied Practice Experience (AP) is a required hands-on learning opportunity to implement your public health Maternal and Child Health program-specific theory, knowledge, and skills in a real-world practice setting, under the direction of a preceptor, a public health professional who will supervise the work. The goal of the AP is to demonstrate the application or practice of at least five public health competencies, as required by the Council on Education for Public Health (CEPH). Competencies are demonstrated through the production of at least two work products. The AP products must link to at least three of the Public Health Foundational Competencies. The other two competencies may be from the Maternal and Child Health MPH program Competencies or additional Foundational Competencies. Foundational and Program Competencies are below. When selecting your AP, think about the competencies or skills that you want to work on and what content areas or settings about which you would like to learn more. Prior work/volunteer activities or coursework that begins before the learning agreement is approved will not be accepted. Waivers are not accepted.

- A student should work with the AP advisor, their academic advisor, and the AP preceptor to insure that the AP work products will benefit both the organization and will fulfill the above requirements. The MCH AP advisor is Dr. Mark Pereira.
- The AP may be completed at the student’s current workplace, if applicable, but must begin after the learning agreement is approved.
- An AP can be paid or unpaid.

Preparing to Meet the AP Requirement

How many credits should I take? The AP must involve a minimum of 120 hours of work. The expectation is that students will complete the AP through a single internship (either paid or unpaid), except for extraordinary situations. Students will register for PubH 7696 for either 1 or 2 credits. Generally, students should register for 1 credit; two credits require more than 120 hours of work and at least three work products.

When should I complete the AP? The AP is typically completed after two semesters in the MCH program (usually in the summer in between the first and second year). The AP should not be started until after students have completed the following courses:

- PubH 6250 (Foundations of Public Health)
- PubH 6630/PubH 6655 (Principles/Foundations of MCH),
- At least one additional MCH core course
- While not required we strongly recommend an Evaluation course prior to starting AP

Students (including part-time and advanced standing students) may select an earlier or later start for their AP in consultation with their academic advisor and the AP advisor. Students are encouraged to begin seeking an appropriate placement site ~3-6 months before they are prepared to begin.

Where will the AP occur? The AP can be completed at governmental, non-governmental, non-profit, for-profit, and some university-affiliated settings. University-affiliated settings must be primarily focused on community engagement activities and can include University health promotion or wellness centers. An AP cannot be a research or teaching assistantship with a faculty member unless the work under the AP directly benefits an external (non-University) community agency or program.

How do I identify an AP preceptor/experience? The first step is to identify your interests and find a good match. The SPH has helpful tools that provide a self-learning tool, hints for networking and professional development, and a searchable database of many AP sites that have hosted SPH students in the past: http://www.sph.umn.edu/careers/fe/. The student should make contact with the organization to confirm that the AP preceptor is available and interested in working with the student. If you have difficulty after using these tools and guidance, students should consult with the AP advisor and their academic advisor in selecting a practice experience that will provide an opportunity to achieve their own educational and professional objectives and meet the AP requirements.

Registering For, and Completing, the AP

Once a potential placement is identified, the student should make contact with the organization to define a specific project or area, determine the time commitment, and establish a site preceptor. The site preceptor must have a
master’s level degree or higher. If the most appropriate preceptor at the site does not hold an advanced degree, students may submit a petition to waive the advanced degree requirement. Petitions will need to demonstrate that the preceptor has significant related work experience. The site preceptor will supervise the AP. The student, site preceptor, and AP advisor should all agree upon the competencies that will be met and the products that the student will take the lead in developing. A Preliminary Learning Agreement should then be completed (request from epichstu@umn.edu) and approved by the site preceptor and AP advisor. Once the Preliminary Learning Agreement has been approved, students should then complete and register their Learning Agreements online through the SPH website. The grading option is S/N. The faculty member designated to serve as the MCH AP advisor is Dr. Mark Pereira. Your particular case may be different, but there must be two products linked to a total of 5 competencies (at least 3 Foundational, the other 2 may be foundational or program specific competencies).

### Linking Activities, Products and Competencies for the APEX

Activity 1 → Product 1
(Product 1 Demonstrates MCH Competencies #4 and Foundational Competency #8)

Activity 2 → Product 2
(Product 2 Demonstrates MCH Competency #1 and Foundational Competency #3 and #18)

### The Learning Agreement

The AP learning agreement directs you to complete the required Competency Assessment Tool (CAT). In the AP learning agreement, you will provide information on your upcoming AP experience (where you will be working, when this will occur, with whom you will be working, etc.) and identify the competencies that will be fulfilled. At the end of your AP you will verify which competencies were fulfilled and upload your AP product(s) for your advisor to review.

**Step by step instructions:**

- Fill out the Competency Assessment Tool (CAT). This tool is designed to help you identify which competencies you plan to address through the AP. Discuss the results with your AP advisor and your academic advisor.
- Discuss the five competencies you will address through the AP and the two products that will result from the experience with your preceptor prior to starting the learning agreement. Meet with the AP advisor to review the competencies and products you agreed on with your preceptor. It is important that you and your preceptor agree on the expectations for the AP.
- You will document the five competencies in the Learning Agreement
- Initiate and submit the online Learning Agreement prior to beginning the experience.
- Preceptor approves AP learning agreement.
- AP Advisor approves AP learning agreement.
- Once the agreement is signed, register for the appropriate course number of credits. You will be given registration details by the EpiCH Student Services staff once the Learning Agreement has been approved by the AP Advisor and the Site Preceptor.
- Note: You are required to enroll in AP credit(s) and submit the agreement before beginning the AP. You may only commence the AP after you are registered for the credit(s) and the transcript shows registration for AP credit(s). Ideally, you will complete the AP during the term for which you are registered, but if necessary, a portion of your AP can be done in another term.
- Note: Some facilities require a criminal background check. If students need a background check they can contact the Student Service Center at sph-ask@umn.edu.
- Start the AP.

### Completion of the AP

The student is required to keep a careful record of their hours with the organization and their activities. If the student is not receiving sufficient supervision, work, and support at the organization/from the preceptor, the student must reach out to their academic advisor, the AP advisor and/or the Program Director for
assistance to resolve the problem in a timely manner. Upon completion, both students and site preceptors are required to complete electronic evaluations, and the student must upload their AP products to an online folder for evaluation. The products, self-evaluation, and preceptor evaluation will be assessed by the AP advisor who will grade them on S/N basis.

Who can help me to set up and complete the AP?

- The Academic Advisor will help the student decide what kind of AP best fits their interests and needs, and can advocate for the student with potential preceptors. The AP Advisor will review the self- and preceptor evaluations of the AP and products of the AP, and enter the final grade.
- The AP Advisors can assist in assuring the AP will meet the requirements, how to approach preceptors, complete the learning agreement, clarify product requirements, credits, and timing of the experience.

<table>
<thead>
<tr>
<th>Foundational and Program Competencies</th>
<th>Maternal and Child Health Program Competencies</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>F1</strong>: Apply epidemiological methods to the breadth of settings and situations in public health practice</td>
<td><strong>MCH1</strong>: Use publically available data to appraise and/or prioritize important health issues for specific MCH populations, including place, race, and status disparities in health and wellness.</td>
</tr>
<tr>
<td><strong>F2</strong>: Select quantitative and qualitative data collection methods appropriate for a given public health context</td>
<td><strong>MCH2</strong>: Describe and weigh the role of social determinants of health as they affect women, infants, children, adolescents, and/or pregnant and parenting families, including their contribution to disparities in health.</td>
</tr>
<tr>
<td><strong>F3</strong>: Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.</td>
<td><strong>MCH3</strong>: Select appropriate evidence-based US (e.g., CDC) and global (e.g., WHO) guidelines, recommendations, programs and initiatives to promote newborn, child, adolescent, maternal, paternal reproductive, and women’s health, including Title V programs.</td>
</tr>
<tr>
<td><strong>F4</strong>: Interpret results of data analysis for public health research, policy or practice.</td>
<td><strong>MCH4</strong>: Explain concepts and elements of the life course health development framework and argue for its integration in MCH programs or policies.</td>
</tr>
<tr>
<td><strong>F5</strong>: Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings.</td>
<td><strong>MCH5</strong>: Demonstrate family-centered philosophical constructs and use these constructs to critique practices, programs, or policies that affect MCH population groups, including children and youth with special health care needs (CYSHCN).</td>
</tr>
<tr>
<td><strong>F6</strong>: Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels</td>
<td><strong>MCH6</strong>: Locate and use scientific literature sources to formulate an important MCH practice, research, or policy question, and/or to present a rationale for MCH policies and programs.</td>
</tr>
<tr>
<td><strong>F7</strong>: Assess population needs, assets and capacities that affect communities’ health</td>
<td><strong>MCH7</strong>: Develop, edit, or use surveys, questionnaires, indicators, or other qualitative or quantitative tools to help assess MCH population needs or evaluate the effectiveness of an existing program for specific MCH population groups.</td>
</tr>
<tr>
<td><strong>F8</strong>: Apply awareness of cultural values and practices to the design or implementation of public health policies or programs.</td>
<td><strong>MCH8</strong>: Identify federal, state, local or philanthropic grant funding sources to support interventions, programs, and research in MCH populations and develop elements of an effective grant proposal.</td>
</tr>
<tr>
<td><strong>F9</strong>: Design a population-based policy, program, project, or intervention.</td>
<td><strong>MCH9</strong>: Describe ethical issues faced by MCH populations in different settings, including clinical care, community-based settings, research, or public health practice.</td>
</tr>
</tbody>
</table>
F10: Explain basic principles and tools of budget and resource management  
MCH10. Demonstrate the ability to work effectively in group discussions, meetings, and projects with individuals from diverse groups, and with cultural and linguistic proficiency.

F11: Select methods to evaluate public health programs  
MCH11. Communicate with diverse audiences about MCH populations, issues, and/or services through oral presentations, website content, social media, or written scholarship and reports.

F12: Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence  
MCH12. Conduct an environmental scan or other community needs assessment to identify systems, stakeholders, programs, practices or other features that impact the health of MCH populations in a given location.

F13: Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.  
MCH13. Identify factors that facilitate or impede implementation of evidence-based programs in MCH or otherwise assist in MCH program implementation.

F14: Advocate for political, social or economic policies and programs that will improve health in diverse populations.

F15: Evaluate policies for their impact on public health and health equity.

F16: Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.

F17: Apply negotiation and mediation skills to address organizational or community challenges.

F18: Select communication strategies for different audiences and sectors.

F19: Communicate audience-appropriate public health content, both in writing and through oral presentation.

F20: Describe the importance of cultural competence in communicating public health content.

F21: Perform effectively on inter-professional teams.

F22: Apply systems thinking tools to a public health issue.

Products Approved for the MCH Applied Practice Experience

Students must submit at least two products; more than two can also be submitted. A list of approved AP products is provided below. Other types of products should be approved by the program director and the AP advisor prior to completion of the AP Learning Agreement.

[NOTE: If a product contains sensitive information (for example, datasets or interview audio recordings with personal information or other sensitive data the organization cannot release), the student should discuss alternatives with the AP advisor; such an alternative may include a detailed written description of the product and the process through which it was developed.]

- **Data collection protocol**: As part of an assessment or evaluation, preceptor organizations may ask students to develop a data collection protocol. This tool can be developed for quantitative and/or qualitative data collection.
- **Training Manual**: A training manual can be developed to assist with training of field data collectors or data coders. The manual may include coding definitions, data collection protocols, confidentiality agreements, safety protocols, etc. A training manual may be developed to train intervention or other staff (e.g., recruiters, community health workers, educators) to consistently implement intervention recruitment, activities, and procedures. The training manual could include intervention objectives, intervention protocols, safety protocols, etc.
- **Literature review**: A summary (in either written or table form) of representative scientific evidence on a given topic, such as published interventions/programs similar to that which the organization is attempting to implement. A literature summary table will typically include a row for each major scientific study on a given topic and outline study characteristics (sample size, location, study design) and findings in the columns. In contrast, a written literature summary may be in full-sentence, paragraph form. Studies to include in a literature review are identified using library search tools and databases.
- **Surveys/other data collection instruments**: As part of an assessment or evaluation, preceptor organizations may ask students to develop a data collection instrument (e.g., survey, observation form, coding form, etc.). This data collection instrument can be developed for quantitative and/or qualitative data collection.
- **Analysis code**: As part of an assessment or evaluation, students may conduct statistical analyses. The analysis code can be submitted as an AP product. The analysis code could be using any major analytical software, including SAS, STATA, and R.
- **Data Codebook**: A codebook includes definitions of all variables in an analytical database. A codebook helps ensure that the database can be consistently accessed and used across analysts and time.
- **Logic model**: A standard logic model that includes the resources/inputs, activities, and outcomes for an intervention planned or being implemented by the preceptor organization. The logic model can be used to guide intervention planning, development, or evaluation by the preceptor organization.
- Evaluation plan: An evaluation plan may focus on an assessment to plan for an intervention or formative, process, and or outcome evaluation to evaluate an intervention (i.e., how promising is the intervention, how well is the intervention being implemented, or effects of the intervention). The evaluation plan should propose an evaluation design, data collection methods and timelines, and key measures.

- Section of an assessment or evaluation report. Preceptor organizations may conduct assessments or evaluations and then write a report summarizing the results and implications. Students may write a section(s) of a report or write the entire report.

- Site-specific report or case study. Through a review of documents and/or interviews of key stakeholders, the story of challenges faced, solutions to overcome barriers, etc. can be documented and written up for dissemination.

- Maps. An effective way to quickly convey geographical information is through maps. Mapping assessment information can demonstrate whether specific geographic areas are in need of intervention (programmatic or policy), need different resources, etc.

- Fact Sheet/Infographics. A brief document (1-2 pages) can be used to convey results of assessments or evaluation to the general public, key stakeholders, policymakers, etc. The fact sheet/infographics should include simple language, have a professional appearance and target an 8th grade reading level (or lower).

- Implementation plan. An implementation plan is useful for identification of time and resources needed to implement an intervention. An implementation plan can be helpful with grant writing, hiring, and program management. An implementation plan usually will include a timeline; staffing, material, and equipment needs; incentives; locations of intervention activities; recruitment strategies, etc.

- Budget. A budget for an intervention can be used to determine whether an intervention will be feasible, how many participants can be included, etc. A budget is also needed to identify and request sufficient funds to implement an intervention. A budget should include a spreadsheet and a corresponding budget justification.

- Policy brief. A two- to four-page document that focuses on a single policy. The document will have an Executive Summary, an Introduction (what is the public health problem), Approach (what is the policy solution), Conclusion, and Recommendations or Call to Action.

- Talking points. Talking points are brief facts or points that can be used to guide media interviews, testimony, fact sheets, etc. Talking points are used as part of advocacy campaigns to stay on message. The main points should each be a very brief sentence. Supporting information can be included for each talking point. Students conducting meetings with legislators or other decision-makers as part of their AP may submit their talking points as a product.

- Testimony. Public health professionals often volunteer to testify or are requested by the legislature to testify. Testimony can be presented orally or in a written format. Oral testimony is often also prepared in a written format prior to it being presented. Testimony could be given in support or opposition of a specific policy proposal or it could be to educate policy makers about public health issues that have policy relevance. Testimony is usually four to five minutes long.

- Fact sheet/Infographics. Fact sheets/infographics are 1-2 page documents that may be used to educate the general public or key stakeholders (e.g., policy makers) about an issue or used as part of an advocacy campaign to move the general public or stakeholders to take a specific action. References should be included.

- Photo Voice. A qualitative process through which people can record and represent the strengths in and concerns about their community. The goal of using this technique is to promote discussion and influence policymakers. A photo voice product may include a collection of photos collected by a student or a collection of photos that the student facilitated collection of with community members. A second photo voice product that could result from such a project would be a protocol or training manual on how to effectively use the photo voice method.

- In-service plan or planning materials. Students leading staff in-service trainings through their AP may develop an in-service plan, handouts and/or PPT slides to support the in-service.

- Curriculum. A curriculum provides structure to an educational intervention and increases consistency in implementation. The curriculum includes session objectives, a description of activities that should be conducted within each session, and a description of what the trainer or educator should communicate within each session.

- Recruitment material. For an intervention to be successful, often times participants, key stakeholders, and/or community partners need to be recruited. Examples of recruitment material that may be needed include: introductory letters, brief summaries of the intervention, recruitment scripts, advertisements, etc.

- Other participant materials. As part of an intervention, educational brochures or other participant materials may be developed to explain risk factors, recommendations to improve health, etc. The expectation is that these types of brochures would have a professional appearance and yet be written simply for the general public using lay language.

- Poster or similar displays. Posters, bulletin boards or other informational displays may be used as part of some interventions or programs, such as an awareness campaign. The expectation is that a display will include simple messaging and a professional layout.

- Videos. Videos may be created as part of educational or advocacy campaigns. They may be videos that provide education, provide opportunities for community members to share their stories, etc.

- Website. A website can be used as part of an intervention or program to educate or promote behavior change among the general public or program participants. A student may take the lead in designing a website (e.g., creating wireframes), developing the website, or creating material to populate the website.

- Policy resolution. As part of an advocacy campaign, a policy resolution may be written and then submitted to organizations to have them officially support a policy recommendation or action. A resolution is typically one to two pages, includes references, and appropriately uses Whereas and Resolved statements/ clauses.
• **Social media campaign.** A preceptor organization may be interested in developing or continuing to implement a social media campaign to educate specific populations about a public health nutrition issue and/or to advocate for policy changes. Products relevant to a social media campaign may include a protocol or strategic plan for developing a social media campaign or specific products used as part of such a campaign (e.g., blogs, tweets, Facebook ads, a strategic plan for developing a social media campaign, etc.).

• **Meeting agenda and minutes.** In some cases, students may take a lead role in organizing stakeholder meetings for an organization; in these cases a meeting agenda and meeting minutes would be an acceptable product. However the student should play a lead role in the convening and/or implementation of the meeting (i.e., simply attending the meeting and taking minutes is not sufficient).

• **Grant proposal:** A grant proposal asking for funding for an intervention and corresponding evaluation. The proposal should be written to obtain funding for the field site or partner organization. If the student takes the lead on a major section of a grant proposal, this could also be considered an acceptable AP product.

• **White paper:** A systematic review that provides justification for specific policy or program or intervention approach.

• **PowerPoint Presentation:** One way for organizations to disseminate information about their interventions and evaluations is to do formal presentations at community meetings or conferences. A student may be asked to create and do the presentation for their preceptor organization.

• **Conference Poster:** One way for organizations to disseminate information about their interventions and evaluations is to participate in a poster session. A student may be asked to create and present a poster for their preceptor organization.

### 8.5 INTEGRATED LEARNING EXPERIENCE (ILE)

**Introduction**

The Integrated Learning Experience (ILE) is a required culminating experience for all MPH students. The purpose of the ILE is to demonstrate the student can write a logical, high-quality, thoughtful written document that clearly synthesizes MCH and public health foundational concepts and principles, conveys familiarity with MCH programs and policies, and displays critical thinking skills. All ILE written documents must demonstrate **at least three Public Health Foundational and MCH program competencies**, listed on page 14. However, this should not limit the student’s scope of work, which may extend beyond these specific competencies.

Students in consultation with their academic advisor should select experiences and competencies that are appropriate for the student’s educational and professional goals. MCH students must select one of the options described below to meet the ILE requirement.

*For all options, there are two required elements, a written document, and a short oral presentation at one of several Presentation Day events scheduled each year (see details below). Two readers (usually the academic advisor and one other MCH program faculty member) must review, assess, and grade the written document as satisfactory.*

**How to Meet the ILE Requirement**

*When should I complete the ILE?*

The ILE cannot be completed until after satisfactory completion of the AP. For most students, the ILE is best completed in the last semester of the program, or after successful completion of the majority of required credits. For advanced standing students and in other cases, students may consult with their academic advisor to obtain permission from the program director for an earlier completion of the ILE.

*How do I start?*

The student must meet with their academic advisor in the Fall of their second year, or equivalent point in the program for part-time students, to make a final decision on the type of ILE to complete and to identify two appropriate ILE readers (usually the Academic Advisor and another MCH faculty member with relevant background). This review ensures that the experience addresses the selected foundational and concentration-specific competencies. The next step is to complete the required ILE Declaration form. You can obtain this form from epichstu@umn.edu. This form states the type of ILE (which option, below), lists the three or more competencies to be integrated and synthesized in the document, a short description of the proposed work, timeline for completion, and the signatures of the two readers.

*How many credits are required for the ILE?*

For all options, please register in PubH 7694 in your final semester for 1-2 credits.

*How is the ILE graded?*

A grade of S/N will be entered by the ILE advisor. A grading rubric will be provided that details the elements of the assessment.
What types of ILE are allowed?

The MCH program has three different options for completion of the ILE requirement. The student will work with their academic advisor to choose the best option for their career goals and interests. NOTE: Epi-emphasis students must choose Option #2.

Option #1: Critical Analysis of the AP or Other Public Health Practice Experience

This is the standard option for the MCH program. This ILE option builds upon the work the student conducted during their AP or during another MCH related practice-based experience completed during the MCH MPH program (i.e., paid or unpaid internship) by reflecting on and analyzing how that work relates to MCH-specific principles and skill-sets.

The format of the written document is based on the Public Health Practice (PHP) Vignette (one type of manuscript accepted by the American Journal of Public Health): (http://ajph.aphapublications.org/userimages/ContentEditor/1432646399120/authorinstructions.pdf) and written for a public health audience. The ILE must synthesize at least three foundational and program-specific competencies. The student and academic advisor should agree upon these competencies prior to the student beginning the ILE. The PHP Vignette should be a critical analysis of the public health practice experience. The double-spaced document should have a maximum of 1,200 words. The following sections should be included if relevant to the AP:

1. MCH/Public Health Significance: describe the importance of this program for MCH and public health, locally and/or more generally. Provide a short literature review of the broader context, with references (consider prevalence, disparities, social, behavioral or biological determinants of the condition or problem, etc);
2. Intervention/Assessment: describe the goals and objectives of the program/assessment; if appropriate, describe how the program/intervention/assessment was funded
3. Place and Time: briefly describe the organization where the public health practice experience took place, including mission, location, and the years when the program/assessment was implemented;
4. Person: define the population subject to the intervention/assessment [include a description of recruitment, participation rates, characteristics of participants];
5. Purpose: explain the motivation behind the program/assessment, including citation of the literature
6. Implementation: describe how the program/assessment was implemented in practice;
7. Evaluation: provide evidence on whether the program worked or not [include a brief description of design, measures, analyses, results];
8. Sustainability: if it is desirable for the practice to continue, describe the factors that indicate why the intervention is felt to be sustainable;
9. Recommendations: provide concrete recommendations to improve the program or services
10. Summary: Synthesize and summarize how your learning in the MCH program informed your involvement in and analysis of the experience.

References should be included but are not part of the 1,200 word limit. A 150-word abstract should also be included (not as part of the 1,200 word limit). Up to two tables and/or figures may be included, which are not included in the word limit. The order of the sections can be determined by the student and the academic advisor.

The academic advisor (usually the primary reviewer) and student must identify one additional MCH faculty member (the secondar reviewe) to review and approve the final versions of the written documents. The expectation is that the academic advisor will complete multiple reviews of the documents, working closely with the student, before submission to the secondary reviewer for a final review.

The student should register for PubH 7694 for 1 credit for this option.

Option #2: Secondary Data Analysis Relevant to MCH

This is an option encouraged for MCH students seeking more experience analyzing, interpreting, and presenting quantitative and/or qualitative data in written form for an audience of MCH professionals. In this option, the student will complete quantitative and/or qualitative data analysis on a topic relevant to MCH. The dataset can be an epidemiologic study dataset, publically available survey or surveillance data, open-ended responses to questions in a mixed-methods study, focus group data, results of a program evaluation, and others. The dataset, analyses, and study question could carry forward work produced during or related to the AP or other public health practice experience, or can be arranged through a faculty member or public health/ community health agency
that has a dataset ready for analysis. The written scientific report will be approximately 20 double-spaced pages in length, and include the following sections: Abstract, Introduction, Methods, Results, and Discussion. Citation and reference formats must be according to the APA style and the reference list is not included within the 20 page limit.

The student must confirm with their academic advisor that their proposed topic relates sufficiently to the field and principles of MCH. Students selecting this option must identify an MCH faculty member willing to serve as the ILE project advisor who is familiar with the dataset and will work closely with the student on the analyses, and another MCH faculty member willing to serve as the secondary reader. The academic advisor must be one of the reviewers. The ILE must address at least three competencies that include both foundational and program-specific competencies. The student and academic advisor or ILE advisor should agree upon these competencies prior to the student beginning the ILE. Both the ILE advisor and secondary reader must approve the final versions of the paper. The expectation is that the ILE advisor will complete multiple reviews of the documents, working closely with the student, before submission to the secondary reviewer for a final review.

**Institutional Review Board Approval**

If the dataset involves human subjects, the student may need to obtain approval from the Institutional Review Board (IRB) of the University of Minnesota prior to working on the dataset. The IRB reviews all activities that meet the federal definition of human research. If you are unsure if your proposed project meets that definition, refer to the “WORKSHEET: Human Research (HRP-310)” for guidance. If you remain unsure about whether your project qualifies as human research or you desire documentation of the determination, you can submit the “Human Research Determination Form (HRP-503)”. Worksheets are found at: [https://research.umn.edu/units/irb/toolkit-library/worksheets](https://research.umn.edu/units/irb/toolkit-library/worksheets).

If the research is determined to be “Human Research”, you must submit an IRB application through ETHOS. ETHOS is the University’s online system for submission, review, revision, and tracking of human subjects research approval; extensive information and documentation is at: [https://research.umn.edu/units/irb/ethos/ethos-log](https://research.umn.edu/units/irb/ethos/ethos-log). In order to ensure adequate oversight of student-led research, your academic advisor or ILE advisor (must be a UMN faculty member) is required to submit your IRB application and any subsequent changes made to that application. The student can set up the study in ETHOS, but must assign the advisor to the PI/Advisor role in the ETHOS SmartForm for it to be submitted for review. For extensive information templates and aids for submitting a new study for IRB review, and for the ETHOS Guide for Students and Advisors, see the following link: [https://research.umn.edu/units/irb/how-submit/new-study](https://research.umn.edu/units/irb/how-submit/new-study). Guidance is also available from EPICH Student Services staff and academic/ILE advisors.

The student should register for PubH 7694 for 1 or 2 credits for this option.

**Option #3: Literature Review**

For students who are interested in deepening their knowledge of a particular MCH topic and who have experience in conducting literature reviews, this option may be beneficial. The student must confirm with their academic advisor that their proposed topic relates sufficiently to the field and principles of MCH. Students selecting this option must identify an MCH faculty member willing to serve as the ILE advisor and another MCH faculty member willing to serve as a reader. One of the two must be the academic advisor. Two main types of literature reviews are allowed: 1) a narrative literature review, or 2) a systematic literature review.

- **The purpose of a narrative review of the literature is to identify, assess, synthesize, and interpret in writing the published literature on a defined area of research involving one or more specific questions, identify gaps in knowledge, summarize best practices or optimal approaches, and identify areas for future research.** Guidance on how to perform a narrative review is provided in the article “Writing narrative literature reviews” by Rossella Ferrari (Medical Writing, 2015, 24(4), pp. 230-235). The review must be approximately 20-25 double-spaced pages in length and include all elements of the Narrative Review Checklist, including completion of the Narrative Review Flow Diagram, proper in-text citation format and a list of References, both formatted according to the American Psychological Association (APA) guidelines.

- **The purpose of a systematic review of the literature is to formulate a single narrowly focused research question and provide a quantitative and qualitative analysis of all relevant evidence, with or without a meta-analysis.** Methods for the conduct of a systematic review are found at the Preferred Reporting Items for Systematic Reviews and Meta-Analyses (PRISMA) website ([http://prisma-statement.org/](http://prisma-statement.org/)). The review must be approximately 20-25 double-spaced pages in length, include all elements of the PRISMA Checklist, including completion of the PRISMA Flow Diagram, proper in-text citation format and a list of References, both formatted according to the American Psychological Association (APA) guidelines.

The student should register for PubH 7694 for 1-2 credits for this option.
# Grading Rubric for the ILE Written Product

**Integrated Learning Experience (ILE) Evaluation Form for Written Product**

**Student Name:**

**Faculty Reviewer:**

Scoring: 0=Unacceptable; 1=Below expectations; 2=Meets expectations; 3=Exceeds expectations.

<table>
<thead>

</tbody>
</table>

**General Comments:**

**Total Score =**

**Results:** The scores from the two reviewers will be averaged to determine the final score. The results of the averaged scores are as follows:

- Pass with Distinction: 13-15
- Pass 10-12
- Pass with Revision: 6-9
  - Next steps will be determined by the three faculty reviewers (including the adviser) and communicated to the student along with the exam score. Next steps could include any of the following: revision of the executive summary or written report, revision of the slides, written response to specific concerns, and/or a redo of the presentation for the committee.
- Fail: Student is required to complete a new executive summary or written report and presentation: 0-5

*NOTE: If an average score of < 1 is awarded in any single category, then next steps about*
Oral Presentation of the ILE

All students must give an oral presentation covering the highlights of their written ILE project in front of other MPH students and faculty members, and must register their intent to present on one of the scheduled presentation days. Students should prepare a 15-minute PowerPoint presentation that must be submitted to the EpiCH Student Services staff at least two weeks before the presentation day. Students will also have 5 minutes to answer questions following their presentation. Your written document (Option 1-3) and PowerPoint slides must be approved by your ILE advisor prior to submitting them to the EpiCH Student Services staff. Students are expected to attend the entire Student Presentation Day in which they are presenting.

One designated MCH faculty member (usually the Program Director) will assess each student’s presentation and assign one of the following scores:

<table>
<thead>
<tr>
<th>Presentation delivery</th>
<th>Pass with distinction</th>
<th>Pass</th>
<th>Fail*</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Presented in a highly professional manner, with a notable level of clarity and depth.</td>
<td>• Presented in a generally professional manner.</td>
<td>• Presentation lacked the professionalism expected from an entry-level professional.</td>
<td></td>
</tr>
<tr>
<td>• Good vocal projection and inflection throughout the entire presentation.</td>
<td>• A majority of the points made in the presentation were clear, though there may have been minor gaps in clarity and/or depth (i.e., where more detail was needed).</td>
<td>• Several major points made in the presentation were not clear. Key details were lacking.</td>
<td></td>
</tr>
<tr>
<td>• Good eye contact with audience, seldom referring to notes.</td>
<td>• Vocal projection and inflection was generally satisfactory, though may have not been consistent throughout presentation.</td>
<td>• Vocal projection and inflection was poor.</td>
<td></td>
</tr>
<tr>
<td>• Presentation delivered without rushing or running over the allotted time.</td>
<td>• Some eye contact with audience, but some reliance on notes.</td>
<td>• Eye contact was limited with excessive reliance on notes.</td>

A high-quality presentation includes both professional-looking slides and a clear and professional delivery of the presentation. The faculty evaluator will consider the following questions for each when completing the presentation evaluation:

a. **PowerPoint Slides:** Did the information flow well and in a logical and clear manner? Did the slide presentation use color and design well, avoid crowded or wordy slides? Were interesting pictures or graphics used? Were the slides easy for all attendees to easily read them?

b. **Presentation Delivery:** Does the student clearly and deeply describe the main points of the presentation? Was the information delivered effectively, with good vocal projection and inflection, eye contact, and body language? Was time used appropriately (i.e., was the presentation delivered without rushing, using the allotted time)? Did the student present him/herself in a professional manner?

### Suggested Timetable for the ILE

#### During Fall Semester of Year Two students should:

- Develop a topic, select the project option, and identify the two readers, in consultation with their advisor;
- Once approved, submit the Integrated Learning Experience Declaration Form to the EpiCH Student Services staff. The EpiCH Student Services staff will inform you of your registration details for the ILE credits;
- Complete IRB application if necessary (allow two months for approval); and
- After IRB approval, begin work on their project.

One to three months before expected program completion students should:

- Submit the first draft of the project to their primary ILE advisor and make an appointment for a follow-up discussion (allow 2 weeks for ILE advisor to read draft);
- Discuss the draft with their ILE advisor and make revisions and corrections (more than one round of revisions will probably be required);
- Schedule their Presentation Day, with advisor approval; and
- Submit final project to the secondary reader (allow at minimum two weeks for reading).

#### Costs Associated with the ILE

Students are responsible for costs associated with completing their Integrated Learning Experiences. These costs are sometimes offset in part by the organization with which the student is working. Funds may also be available from the Division of Epidemiology and Community Health by applying for the J. B. Hawley Student Research Award. A call for submissions for this award is usually sent out via email in October and March.

#### Dissemination and Authorship

It is expected that projects may result in findings of interest to professionals in the field. Students are highly encouraged to disseminate their findings at professional meetings (poster or paper), in a professional journal at the annual summer MCH Institute or by preparing a technical report for MCH agencies. The student will be the first author on their master’s paper manuscript if it is submitted for publication only if the student meets the qualifications for first authorship. Students and advisors should have a conversation about authorship before work begins. Interested students may also refer to the authorship guidelines of the International Committee of Medical Journal Editors (ICMJE) [http://www.icmje.org/](http://www.icmje.org/). According to ICMJE, authors should have made substantial contributions to all of the following: conception or design; acquisition of data; analysis and interpretation of data; drafting the article or revising it critically for important intellectual content; and final approval of the version to be published. Order of authorship should reflect the extent of each collaborator’s contribution to the paper, with the first author typically being the individual who takes primary responsibility for conceptualizing and writing the first draft of the paper. It is the first author’s responsibility to ensure that all the co-authors have the opportunity to review and contribute to various drafts of a paper or presentation before it is submitted. It is also the first author’s responsibility to determine order of authorship, based on contribution.

### 8.6 GRADUATION CHECKLIST

#### General steps for all MPH majors

1. Student submits GPAS at least one semester prior to the anticipated completion of coursework;
2. Student submits the on-line Application for Degree form by the end of the first business day of the month in which they intend to graduate.
3. Student completes all coursework and requirements by noon on the last business day of the month in which they wish to have their degree conferred.

4. Student completes and circulates the Integrated Learning Experience paper and signs up for one of the Student Presentation Day events. After participation in the event student submits their final written product to the EpiCH Student Services staff.

5. Student submits the Career Survey;

All Division of Epidemiology and Community Health students who fulfill, or anticipate fulfilling, the above requirements and deadlines for Fall 2019 through Summer Session 2020 are eligible to participate in the School of Public Health commencement ceremony on May 20, 2020. We encourage you to attend! See section 1.11 for additional information.

It is considered highly unethical and inappropriate to use or include in your title or professional signature any degree that you have not completed. This means you cannot use the MPH title prior to completing all your degree requirements and your degree has been conferred. The School does not recognize or confer the title “MPH Candidate”.
